TONY SAYS HE'S NOT AFRAID TO FACE ETERNITY

BERTHE, N. B., April 30.—Tony and Leon Seppelt are sitting in their cells here waiting death perfectly reconciled and as happy as it is possible for them to be. Yesterday morning as they passed into the corridor with Father Ryan they saw the gallows, which is back of the court house and can be plainly seen through the windows of the corridor. They sat for some time watching it intently and then broke into a complete again. For a time their anguish was heartrending, but before Father Ryan left them last evening they were perfectly at peace again.

Chanting Hymns

They spent the night in chanting the hymns of their church and in prayer. The perfect peace and faith of both

was nothing short of wonderful. Father Ryan will be with the prisoners continually until their death. The prisoners received a touching letter yesterday from the nuns of St. Basil's Convent assuring them that prayers and masses were being said for them and that a requiem mass will be said for the repose of their souls on Tuesday morning at six a. m., and many other comforts and assurances. Both men were greatly comforted by it. They have both expressed their gratitude that Radcliffe is to execute them. Tony says he can die in peace because he has told the truth and is ready and prepared for eternity. "I am not afraid to die; I am all right with my God, and I wish it was tomorrow."

Both will be hanged at the same time before daylight. Radcliffe, who is in rather a disreputable condition, is the centre of attraction here. He came directly from the coast, where he hanged three men with one spring of the trap.

LEFT HUSBAND FOR GOOD, SAYS BEAUTY

Wife of General Alfred E. Booth, of Baltimore, Calls Separation Permanent

PHILADELPHIA, April 30.—From mistress of a palace, which was one of Baltimore's show places, to lone occupant of a modest flat at 4321 Chester avenue, this city, is the change which has been wrought in the life of Mrs. Rida Shryock Booth, wife of General E. Booth of Baltimore. It has been reported that the separation of General and Mrs. Booth is temporary and due solely to pecuniary matters. In an interview yesterday Mrs. Booth denied these statements. "General Booth and myself," she said, "separated on January 13, and the separation is permanent. The talk of money matters being involved is

ridiculous. The causes which led to our parting are known only to ourselves. Any other statements published as emanating from me are false."

Ten years ago Rida Shryock, daughter of General Thomas J. Shryock, former state treasurer of Maryland, married General Booth, who is many years her senior. It is said by her friends that General Booth was of assistance to her father in the latter's business difficulties. Her husband was a director of the A. Booth Packing Company and reputed to be very wealthy.

The pair took a palatial residence on Eutaw place, Baltimore, overlooking Druid Hill Park. Here they entertained continually, and invitations to their functions, which were distinguished by the bride's cultured taste, were eagerly sought.

Last fall General Booth met with business reverses and the elegant home had to be given up. The Booths moved to the Hotel Stratford, Baltimore, and a few months later came the formal separation.

Mrs. Booth is a woman of commanding beauty and gracious manner. She will make her home in Philadelphia, where she has many relatives, among them Mr. and Mrs. Harry C. Nicely of 5,015 Larchwood avenue.

ALBERTA GUARANTEES BONDS OF NEW RAILWAY

EDMONTON, April 30.—E. A. James, many years general superintendent of the C. N. R., has accepted a general managership of Alberta and Great Waterrays Railway. The province has guaranteed the bonds of the line to the extent of \$30,000 a mile and it will connect Edmonton with immense territories tapped by natural waterways of the Arctic Ocean and will be the most northerly railway in Canada. The country has immense mineral wealth.

HIS DEFICIENCY.

A certain Chicago merchant died, leaving to his only son the conduct of an extensive business, and great doubt was expressed in some quarters whether the young man possessed the ability to carry out the father's policies.

"Well," said one kindly-disposed friend, "for my part, I think Henry is very bright and capable. I'm sure he will succeed."

"Perhaps you're right," said another friend. "Henry is undoubtedly a clever fellow; but take it from me, old man, he hasn't got the head to fill his father's shoes."

HARGIS GETS JAIL FOR LIFE; KILLED FATHER

TRIVINE, Ky., April 30.—Beach Hargis, charged with the murder of his father, Judge James Hargis, was today sentenced to life imprisonment.

The defendant showed no emotion when the verdict was rendered. Neither did his mother and sister, by whom he sat. This was the second trial of Hargis for this crime. The first trial resulted in a mistrial.

The murder of Judge Hargis by his son, Beach, occurred in the Judge's store at Jackson, Breathitt county, on February 6, 1908. Beach had been drinking. It is alleged, for several days. He went to the Hargis store, where his father asked him what he had been doing. It is not known what Beach answered, but the two clinched. In the struggle Beach shot his father four times. The bullets were fired through Beach's coat, he not having had time, it is said, to draw the weapon. The pistol belonged to the murdered father, having been taken from the store by young Hargis.

Judge Hargis' friends insisted that Beach be punished. His mother made every effort to get him freedom. While in jail Beach tried to commit suicide by taking morphine, but his brother-in-law, Dr. W. F. Hogg, saved him.

I'll Explain Why I Always Drive a GENDRON

"You see the breaking of the springs causes us baby drivers more trouble than any other weakness in carriage cars. But there is no spring weakness in the GENDRON car. Note that double curve. It is exclusive with the GENDRON. It so distributes the strain that the spring never breaks. And then the wheels,—you see they are specially welded, and cannot warp or break. Note also that little rubber cap over the nut of the axle. Sometimes when I have a restless passenger, I want to drive the car around the house without scratching the furniture—it is a little point, but a good one. The materials for all the GENDRON cars are the very best in the bodies, tops and every other part. There is style and service in every GENDRON model—Canadian made, so that any unexpected accident can be easily remedied."
