changes have taken place in Havelock this spring. Early in the spring Jack Price and Herbert Alward left for Montana, where they have secured good positions. Later Dr. Seldon Freeze and Gabriel Keith left for Bos ton. This week, Dow McFee moved his amily to the United States. On Tuesday evening a farewell party was given at the residence of Wilfred Freeze, who left for Boston this morn On Tuesday, Mr. Sterritt, of the firm of Gerow & Sterritt, who lately accepted a position in the postal deent, moved his family to Albert and the same day Robert McCready moved to Salisbury, where he will nanage the cheese factory. Boh Keith will take charge of the cheese actory here

Howard Thorne, who has taken his old position in the store of the Sussex Mercantile Co. here, has moved his family from Eastman. He will occupy his own residence, lately vacated by Mr. Sterritt. The mineral springs are rushing business. Chip. Keith occu-ples the position made vacant by the death of Wm. Hanscom. The residence of Wm. Moss of Creek

road, was destroyed by fire on Mon-Jonah Keith, ex-councillor for the parish of Havelock, and Miss Alice Mills were married on Wednesday, April 16th, at the residence of David Wright, by the Rev. W. J.

At a recent meeting of the members of Havelock Baptist church, an invitation was extended to the Eastern Bap

tist association to meet in Havelock in July. Miss Clara Freeze gave a party on

Tuesday evening. Joseph Robinson is very ill. C. B. Keith is improving. HOPEWELL HILL, May 7 .- The in fant child of James L. Robinson died on Sunday, and was buried this after-

noon, Rev. F. D. Davidson conducting the services.

Measles are very prevalent at Alma and vicinity. A child about a year old, belonging to Mr. and Mrs. Charles Woodworth of Albert Mines, was scalded to

death a few days ago by pulling over on itself a tea kettle of boiling water. on itself a tea kettle of boiling water Mr. and Mrs. Wm. R. Peck returned

sterday from Moncton, where they have been stopping the past few weeks. A large number of persons from different parts of the county visited Alma the past week to see the large whale recently captured there, and which is proving quite a source of re-venue to the captors. The huge mam-mal, during his wanderings about the bay, had evidently not been over par-ticular in regard to his diet, there being found in his capacious interior, so it is told, no less than sixteen pairs of rubber boots. It is reported that one of the sharks captured contained the skeleton of a man.

The two-year-old child of Captain Albert Stiles a few days ago fell into a shallow well. The little one was inconscious when discovered by its mother, but came to after being worked with for some time.

PROVINCIAL NEWS NAVELOCK, N. B., May 5.—A large bunch of pansies were picked in the station garden April 29. A number of changer have taken place in Harsleit he best he could.

Coun. Lindsay moved that Rev. Banfred Colpitts be inspector. He was the best man in sight, and was now the inspector for the county. Coun, Bal-main seconded the resolution. He had not favored Mr. Colpitts earlier in the year, but the town marshal had made a failure of the business and therefore he was in favor of Mr. Colpitts. The lution was supported by the ful board excepting Coun. Carr, who did not apprové of Mr. Colpitts' methods. He claimed that he hired men to buy rum in order to make convictions, and yet he was a minisetr of the Gospel. Mr. Colpitts' salary was put at \$200, and his engagement is for the balance

of the year. Much interest was taken in the pro ceedings of the county council, which net this morning. All members were present. The warden explained that he object was to decide on the erecthe object was to decide on the erec-tion of a new jall to take the place of that just burned. Coun. Cluff moved that whereas the municipality of Carle-ton has lost its jall at Upper Wood-stock by fire, and whereas in the in-terests of justice and good order we should have a suitable place to incar-cerate missioners at once he it excluded cerate prisoners at once, be it resolved that we proceed to build a suitable building on the lot owned by the counin the town of Woodstock, costing ..; and further resolved that the warden appoint a committee to look after the plans and specifications, and that authority be secured to issue debenures, so that the work may be begun with the least possible delay. Coun, Gillmour seconded the motion. Coun. Caldwell moved in amendment that the council erect a new jail on the site of the old one at Upper Wood-

stock. After a long debate the amend-ment was put and lost. The following oted yeas: Caldwell, Tracey, Atkin-on, Shaw, Bell (Wakefield), Cheney,

Forrest, Kearney, Richardson, Phil-lips (Brighton), Phillips (Peel), Cronk-Nays: Carvell, Speerr, Foster, Phillips (Northampton), Cluff, Hay, Bell (Richmond), Lemont, Tompkins, Bailey, Balmain, Saunders, Gillmour, Coun. Phillips (Brighton) then moved that the jail be built in Hartland, and the following voting for the motion it was declared lost: Caldwell, Tracey, Cheney, Kearney, Richardson, Phillips (Brighton), Phillips (Peel). The original motion that the jail be in the town of Woodstock was then carried without division. It was decided that the vacant place in the resolution be

filled with the words "\$10,000." It was also decided that no expense be incurred until an order in council has een granted by the governor in counell approving the site. The following were appointed the building committee: Couns. Carvell, Foster, Balmain, Philips (Northampton), Saunders. The warden was added to the committee.

warden was added to the committee. FREDERICTON, May 10.—In spite of all the arrangements that had been made for the holding of an exhibition here this fail it now seems probable that the project may have to be abandoned for this year at least. The directors had been led by the county representatives to expect a grant of not less than \$3,500, while the actual grant received from this source is only \$2,500. Expectations were also held that as the city had received \$4,600 in insurance upon the exhibition build-ings destroyed by fire several years ago, the council this year would at least double their

A correspondent of the Guardian writes: "The Patriot on Monday evening, referring to Archibald McLeod's life, made some remarks which were unkind and uncalled for. In giving a report of this kind they should stick to facts and not to rumors. They say some strange rumors are afloat re-garding his life in Colorado. This has been contradicted by Angus Mc-Kenzie of this city, who worked with him while there, and testifies to his prightness and honesty. In the second place, the Patriot states rumo has it that some years ago he slept with a man by the name of Gillis in that locality and that he (Gillis) was found dead in bed. Now everybody in he locality knows that to be a falsehood, as Gillis was not found dead in bed, but was choked while eating supper with his family."

were also held that as the city had received \$4,000 in insurance upon the exhibition buildings destroyed by fire several years ago, the council this year would at least double their years ago, the council this year would at least double their of the council there is no hope that the sum will be larger than that eriginally named. This leaves the Exhibition Association with only \$4,000 provided for, which is barely sufficient to erect the new exhibition building that will be required.
Then, another serious difficulty has arisen. The grounds held by the association for exhibition purposes are held under lease from the 0dell estate, which lease will expire in 1910, and the lease contains no renewal clause. Representations con this subject have been made to those who manage the 0dell estate and application has been made to the expiration, but this the estate declines to do. This being so, some linutential members of the Exhibition Association the second in very strongly object to putting up another expensive building on the premises when the association has a lease of them for only ten years longer, even if all the money desired for an exhibition was forthoming. Another meeting of the directors is to be held next Monday, when the difficulties will be thoroughly canvassed.

MONCTON, May 10.—A shocking fatality occurred on Mountain road, about two miles from Moncton, yesterday afternoon, the vic-tim being the three-year-old child of Smith Brown, jr. It appears that the mother left her home during the afternoon to go to the residence of her father-in-law to get a pai of water. She procured the water and had left the house to return when she was hor-rified to see her child in a mass of fame-running towards her. The terror stricken mother clasped the little one in her arms and after a desperate effort extinguished the fames, not, however, before the child was fatally burned, and after three hours of awful agony passed away. It is understood that after the mother left the house the child got hold of matches and set fire to its clothes.

At 7 o'clock the Presbytery met, and the usual order of business under such circumstances was gone through with. By 7.30 a large congregation had as-sembled. Rev. Dr. Morison, moderator of the Presbytery, conducted the ser-vices. He was assisted by Rév. A. Archibald of Richmond, Carleton Co., and Rev. Mr. Wilson, Congregational minister of Fort Fairfield, Me. Rev. Mr. Pringle of Kintore gave the ordina-tion sermon, speaking from Col. 1, 16. His discourse was practical and ear-nest. Mr. Campbell was then inducted into the ministy by the laying on of the hands of the ministers present. The moderator offered prayer and eloquent-ity and ably addressed their new bro-ther. Rev. James Burgess of St. John West briefly addressed the congrega-tion, and was followed by his honor Judge Stevens. The service was brought to a close by singing and the pronouncing of the benediction by Rev. Mr. Campbell. The choir fur-nished excellent music. In the anthem Hark, Hark, My Soul, Mrs. S. P. Waite and Mrs. Bertha Waite sang the duet. The church was beautifully decorated with flowers. Rev. mattes of subscriptions yet to be got in a number of congregations in the Northwest. There is thus lacking \$75,000 of the \$600,000 asked for. The time fixed for the completion of the effort, according to the action of the General Assembly, was May lat. The committee pro-longed the date to May 25th, and resolved to make an earnest appeal to every congre-gation and mission station in the church for a special, additional contribution on Sabbath, 19th May, or, where this is not convenient, on Sabbath, 26th May. Envelopes have been prepared, containing a brief appeal, with banks for the name of the contributor and the amount of the offering. These have been sent out in parcels to every minister, and it is hoped that, without a single exception, the people in every congregation—members and adherents—will have the envelopes distribut-ed among them, and the opportunity given to contribute on one or other of the Sabbath mamed. The committee are most anxious as they are confident it will if the people in every congregation have the opportunity given them to subscribe. During the past year nearly \$100,000 was got from the church upon behilf of the fundia famine fund, with-out much effort, and, considering the pros-perous condition of the country and the great henefit to be derived to the church in all its departments by the century fund scheme, the result. People will talk, and when neighbors set together there is very likely to be something said about Dr. Chase's Oint-ment, and the surprising cures it is effecting among sufferers with piles and itching skin diseases. It is by word of mouth, from friend to friend, that the fame of this great Ointment has girded the globe. It stands today as the only actual and guaranteed cure for every form of itching, bleed-ing and protruding piles,

LOCAL GOVERNMENT MEETING.

The members of the local govern-ent visited the Lunafic Asylum'and the annex building on Friday morn-ing. Last night they had a long meeting, when D. J. McLaughlin, R. B. Emerson, A. Macaulay and J. H. B. Emerson, A. Macaulay and J. H. McAvity, representing the Exhibition Association, were heard. These gen-tlemen proposed that the government and the city of St. John should jointly assume their liabilities, which aggre-gate \$3,200, and take over the build-ings. It was suggested that some members of the association preferred that the property should remain in the association. After the delegation re-tired the government discussed the association. After the delegation re-tired the government discussed the matter very fully, and Hon. Messrs. Farris, Hill and McKeown were ap-pointed to confer with the association and the Common Council with regard to the question. It was decided by the government to increase the staff of nurses in con-mention with the Luncile Assumption

to increase the Lunatic Asylum from 10 to 12, giving two for each ward and a night nurse as well. A lot of routine business was transacted.

by end, BRUSSELS, May 12.-The Independence Belge publishes affidavits signed by Count Ferdinand Esterhazy before the French con-sul in London, admitting the authorship of the Dreytus bordereau, and declaring that the bordereau was written with the conniv-ance of Col. Sandher, ex-chief of the secret intelligence bureau.
