ADRIATIC PEOPLE'S CESSION ENDS THE BALKAN WAR

Turkey's Quick Reply to Note Makes Balkans Suspicious.

ALLIES PLEASED BY DECISION OF PORTE Matter of Aegean Islands Left in Hands of Powers for Settlement --Grand Council Unanimous in Agreement

London, Jan. 22.—The plenipotentiaries of the Balkan kingdoms are immensely pleased over the decision of the grand council at Constantinople to accept the advice of the powers. While it had become increasingly certain in the past forty-eight hours that the Turkish elder statesmen were prepared to face the bitter fate that ends the empire's history as an European nation, it was hardly expected that they would register their decision so quickly and so definitely. This is so unlike the customary Turkish tactics that some suspicion is entertained with supporting proof that Turkey might still have cards up her sleeve. The Porte's reply to the joint note of the powers will be handed to the Ambassadors tomorrow however, and the remainder of the negotiations leading to the signing of the peace treaty are understood to be an anticlimax.

Demand Heavy Indemnity.

One crucial point of difference remaining to be settled is the question of indemnity. The Allies propose to levy a heavy payment upon the defeated nation. They speak of \$200,000,000 as an adequate sum. This is an amount which is likely to be paid to the Turkish debenture holders in the territories which they will annex under the treaty. The Turkish government has refused to accept the indemnity proposed by the Allies. The Turkish government has notified the powers that the reported Serbian massacres of Albanians in territory captured by Serbian troops are without foundation in fact and that the reports have been spread simply for the purpose of enlarging the boundaries of the new state, on the pretext that it will free Albania from alleged persecution.

Constantinople, Jan. 22.—Turkey today submitted to the will of the powers. The grand council of the Ottoman empire decided in favor of accepting the proposal of the powers for peace in settlement between Turkey and the Balkan allies. As officially announced the grand council "approved the government's point of view and declared its confidence in the settlements of equity voiced by the great powers, and expressed the wish to see their promises and proposals as assistance effectively realized. It also asked the government to exert all its efforts to ensure in the future the safety of the country and the development of its economic interests."

A Unanimous Decision. The question submitted by the Turkish government to the grand council today was "should the recommendations contained in the note of the European powers be accepted or rejected?" The government frankly confessed itself in favor of agreeing to the suggestion made by the powers and after a slight discussion the assembly decided almost unanimously in agreement with the view of the government.

Tomorrow about noon therefore the Marquis Johann De Pallavicini, the Austro-Hungarian ambassador, and the dean of the diplomatic corps at Constantinople, will be handed a note in which the Ottoman government agrees to the proposals embodied in the joint note with regard to the cessation of the fortress of Adrianople and the future disposition of the Aegean Islands and places thereof in the hands of the powers. The meeting of the council of ministers will be held tomorrow morning before the final step is taken.

The joint note of the powers advised Turkey to cede Adrianople to the Allies and to leave the fate of the Aegean Islands to the powers for future determination. In return the powers promised their benevolent support as long as Turkey deferred to their counsel.

TWO ST. JOHN MEN ELECTED BANK OF N. S. DIRECTORS

James Manchester and Dr. W. W. White Represent Interests of Stockholders in Bank of New Brunswick, Recently Merged with Bank of Nova Scotia.

Special to The Standard. Halifax, Jan. 22.—The recent merger with the Bank of New Brunswick made the annual meeting of the shareholders of the Bank of Nova Scotia which took place this afternoon an event of more than usual interest. The attendance was large. James Manchester, formerly president of the Bank of New Brunswick, and Dr. W. W. White, vice president, were added to the board of directors, which was re-elected. General Manager Richardson addressed the meeting, speaking of the capital of the bank, and of the allotment of \$1,000,000 of new stock, of which \$734,390 has been fully paid for.

With regard to circulation, he said that as it was impossible for the banks to continue providing circulation based on capital to meet the growing demands for a circulating medium, the new bank act proposes to empower the banks to issue notes specially secured by deposits of gold to be lodged in a central gold depository. Mr. Richardson spoke on the lavish civic expenditures in the west—more, he thought, in the interest of the real estate operators than of the people generally. The cost of living was thereby being increased. In the east, too, the banks would find it impossible to continue to meet the demands of the big financial operations on the same liberal scale as in the past. He said the merging of the interests of the Bank of New Brunswick with those of Nova Scotia leaves it the outstanding Maritime Province bank, a position that would be vigorously maintained.

"BIG TIM" SULLIVAN, FRIEND OF NEW YORK POOR, IS INSANE

Political Boss of New York's East Side is Adjudged Mentally Incompetent.

New York, N. Y., Jan. 22.—Timothy D. (Big Tim) Sullivan, congressman-elect from this city today was adjudged as incompetent by a sheriff's jury. Four physicians pronounced him incapable of taking care of his property which is estimated at about \$1,000,000. Mr. Sullivan has been a patient at a private sanatorium here since last September. He is suffering from "depressive insanity," according to one of the medical witnesses, another of whom testified that a cure was "possible but not probable," no recommendations regarding property of Mr. Sullivan were made by the jury, and his attorney declared he would not recommend anyone, but left the matter to the discretion of the court.

In the east side where Sullivan was born 50 years ago, and where he built up a strong political machine that elected him to the New York assembly four times, to the state senate four times and to congress once previous to his election last fall, he is known as the friend of the poor and it is said he never turned a begging hand away without a donation. During his last term in the state senate he was the author for the law making the carrying of concealed weapons a penitentiary offence in this state. Much of his estate consists of holdings in amusement enterprises and New York city real estate.

Toronto, Jan. 22.—The movement to establish a radical electric railway system from Toronto to Markham, Brampton, Etobicoke and Port Perry and ultimately to other municipalities in connection with the hydro-electric system of Ontario, received strong endorsement at a meeting held in the city hall tonight. About 70 or 80 representatives of various municipalities directly concerned were in attendance and an outside town, Brampton, was also represented. It was decided to ask the provincial hydro-electric power committee to look into the proposal and report to the municipalities thereon, and a committee was named to push the project. TORONTO WON FROM QUEBEC, SCORE 6-3. Toronto, Jan. 22.—Reversals of form are becoming fashionable in the National Hockey Association. The Toronto beat Quebec 6 to 3 here tonight and beat them so handily that the fans are higher in the air than ever regarding the chances of the two local teams in the professional association. Quebec's brilliant performance against the Toronto last Saturday tallied Toronto tonight. At no stage of the play did the Stanley Cup holders look like winners. In every period the Toronto had the better of the play. The score in the first period was 2 to 1 in favor of the locals; in the second period it was 4 to 1 in the final twenty, each scored twice, making the score on the game 6 to 3.

STEEL PROBE INFORMED OF LARGE POOL William Corey Gives U. S. Government Complete History of Deal—Col. Roosevelt Reiterates Former Evidence.

New York, Jan. 22.—William S. Corey, former president of the United States Steel Corporation, a witness today in the federal suit to dissolve the corporation under the Sherman anti-trust law, furnished the government with the first testimony it has been able to obtain in support of its allegations that the corporation participated in an international steel rail pool.

Mr. Corey followed Theodore Roosevelt on the stand, after the latter had repeated his testimony given two years ago before the Tennessee Coal and Iron Company by the corporation investigating committee, considering the acquisition of the Tennessee Coal and Iron Company by the corporation during the panic of 1907. Col. Roosevelt after reiterating that he had given his sanction to the deal "to save the country from disaster" and after he had been asked if he had heard various reports about the Tennessee Coal and Iron Company, including one that the United States Steel Corporation had within a year previous had experts examine the property, declared today that "not one thing could have been known to me about that company that would have altered my action."

Mr. Corey said that as late as 1912 an understanding had existed with foreign rail manufacturers under which the steel corporation agreed not to compete with them in their own countries and foreign manufacturers in turn agreed not to seek business in the United States. Mr. Corey testified to the existence of a steel rail pool among American manufacturers as late as 1904 under which the prices of rails were kept on an even keel and business divided. In this steel corporation participated, he said, and was represented at meetings by Judge Elbert H. Gary, Charles M. Schwab and himself. Mr. Corey testified further that one of the reasons the Union Steel Company was taken over by the corporation was that "it was getting customers from the Carnegie Company."

Liverpool, Jan. 22.—The British steamer Ulstermore, from Baltimore January 9, for Liverpool, is a wreck in the river Mersey. She ran aground today and refused assistance from a life boat. A heavy gale blew up and in the high seas the vessel pounded badly. The captain ordered the crew to jettison the cargo, and while this was in progress the steamer broke in two and heeled over with the decks awash. The crew scrambled on the bridge from which perilous position they were rescued by a steam pilot cutter, in a blinding snow storm.

TECUMSEH DEFEAT OTTAWA, SCORE 4-3. Ottawa, Jan. 22.—Tecumseh defeated Ottawa 4 to 3 after an exciting overtime match at the Laurier avenue rink this evening. The match was the best played here this season, as the ice was hard and the weather cold, but the visitors outplayed the home team throughout, and would have won by a much larger score had it not been for the wonderful work of Lesueur in the net. Lesueur was replaced by Benedict, but the Ottawa changed their mind, and it was fortunate for them that they did so.
