GOV'T AGENCIES PUTTING FORTH
RENEWED EFFORTS TO PROTECT
PUBLIC AGAINST DISTRESS

U. S. Orders the Supplying of Coal to Foreign Owned Ships
in American Ports be Stopped Immediately — Train
Services Being Eliminated Where Necessary to Conserve
Coal Supply—No Change in Policy of the Gov't Towards the Strike.

Washington, D. C., Nov. 6.—Still hopeful that court developments at Indianapolis Saturday might point the way to an early ending of the coal strike, Government agencies nevertheless put forth renewed and more determined efforts today to protect the public against distress almost certain to result from a protracted suspension of mining operations. Realizing that the country is burning three times as much coal as the mines are turning out, the railroad administration, the great coal distributing agencies, through its recently created Central Coal Committee, took drastic action in ordering that the supplying of coal to foreign owned ships in American ports be stopped immediately. With calls for assistance from communities suffering from a coal shortage growing more numerous, the Railroad Administration turned loose every available car to meet the appeals made for fuel.

Orders went to regional directors of the nation's railroads from Director General Hines to eliminate train services where absolutely necessary in the public interest, but it was officially announced that no general curtailment of service was contemplated. The discontinuance of foreign tonnage bunkering was the first general step taken by the government since the coal strike began last Saturday toward curtailment of transportation. The Central Committee made it plain that American owned ships and tonnage under the American flag would continue to receive coal supplies, but all other vessels, as the situation now exists, will be compelled to await the end of the strike.

The committee's action is similar to that taken by Great Britain during the recent strike of British coal miners. Officials would not predict the result of the order, as it was not known in Washington the amount of foreign tonnage now in American ports dependent on coal supplies from this country. It was apparent that

ators claimed 44 union mines in operation in West Virginia, a gain of 35 over last Saturday. Officers of the American Federation of Labor and representatives of the miners denied these reports and asserted that their own advices showed no crumbling of union forces anywhere in the bituminous regions.

Gompers To Make Appeal.

There were rumors, apparently emanating from high sources, that the injunction hearing set for Saturday might go over for one week without prejudice to either side. Equally persistent were reports that Samuel Gompers would make a personal appeal to Attorney-General Palmer tomorrow for withdrawal of the restraining order and all court proceedings on assurance that if this were done, the strike could be settled and the men put back to work in the mines in forty-eight hours. Mr. Palmer was out of the city, but the statement by Judge Ames that the government would not

To Relieve Catarrhal
Deafness and Head Noises

If you have Catarrhal Deafness or are hard of hearing or have head noises go to your drugist and get 1 ounce of Parmit (double strength), and add to it 3/4 pint of hot water and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.

Reports from agents of the department of justice, and from miners and operators showed little overnight change in conditions, except that oper-

comprise the strike, which it held illegal, was accepted as the last word on the subject. Dismissal of all court proceedings asked for today by the unions will make it possible, labor leaders said, for the two sides, through their full scale committees, to negotiate a new wage agreement at one sitting. Refusal and issuance of more drastic orders directing heads of the miners

organization to resume operation would mean a long drawn out struggle. Government officials took another look at the stock reports and while these indicated coal enough to meet immediate needs, the fact stared them in the face that the daily output was around ten million tons, while the daily output had been reduced by the strike to about three and a half million tons.

Some coughs seem hard to shake off—stick right to you in spite of all you do to get rid of them.

Those are the kind of coughs that are dangerous—the ones that weaken the lungs so that the germs of consumption find a ready foothold.

We know of no remedy that will cure stubborn coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup.

It allays the inflammation, soothes the irritation and heals the diseased mucous lining of the lungs and bronchial tubes.

Mrs. Leo Allen, Petite de Grat Bridge, N. S., writes:—"Last winter I had an awful cough that kept me in the house for over two months. I tried several cough remedies, but got no relief. I was almost discouraged when a grocer here offered me a bottle of Dr. Wood's Norway Pine Syrup. After taking that one, my coughing began to ease. I took two more and they cured me completely."
