Praises of A Well Satisfied People

ARE WHAT GIVES DODD'S KIDNEY PILLS POPULARITY

W. A. Shannon Vouches for the Sentiment That Has Given Dodd's Kidney Pills Their Standing in All Parts of Canada.

Sybil, Alta., Jan. 31.—(Special)—"I am well satisfied with the results I have got from the use of Dodd's Kidney Pills. They were perfectly satisfactory, as I had had no trouble since using them. I want other sufferers to know what they did for me. This is the statement of W. A. Shannon, a well-known and highly respected resident here. And in these few words W. A. Shannon gives the reason why Dodd's Kidney Pills are so popular in all parts of Canada. They do what is claimed for them.

Dodd's Kidney Pills are purely a Kidney remedy. They tone up and strengthen the Kidneys and put them in condition to do their full work of straining the impurities out of the blood. Strong healthy Kidneys are absolutely necessary if the blood is to be kept pure and the body healthy. Pure blood coursing through the body carries to the different organs the nourishment they need, keeps them sound and able to throw off disease of different kinds. Ask your neighbors if Dodd's Kidney Pills do not make strong, healthy Kidneys.

SPECIAL TRAIN TO CARRY HOCKEY FANS

Northern Town Prepares for Big Game With Campbellton on Feb. 9.

Special to The Standard
Chatham, Jan. 31.—The William Fenton homestead at the eastern town limits, occupied by two families, named Roy and Herbert, was totally destroyed by fire early this morning. The occupants were awakened about three o'clock by the barking of a dog to find the house in flames. With the assistance of neighbors a portion of the tenants' personal effects and furniture and the department got in readiness, but as the property was outside the limits and far beyond the terminus of the water service was powerless to render assistance. The house was totally destroyed, but the barn and other out-buildings were saved. The loss is partly covered by insurance.

Special for Hockey

Preliminary arrangements are being made for the running of a special train from Chatham to Campbellton for the accommodation of those wishing to attend the N. B. H. L. fixture to be played in this Northern Town on February 9. As this will prove the decisive game of the series as far as the two teams are concerned, it is expected that a large number of hockey enthusiasts will accompany the local league leaders on their trip north. The special will leave Chatham and Campbellton at more suitable hours than the regular trains.

SWEARS PADDING OF PAY SHEETS WAS SUGGESTED

Witness in Highways Probe Declares Contractor Offered Him Sum of Money.

THRUST CASH UPON HIM WHEN REFUSED

Alleges He Was Told He Could Return More Men Than Were on Pay Sheets.

Halifax, N. S., Jan. 31.—Evidence that V. J. Cavicchi, manager of the Bedford Construction Co., the contractor involved in the building of the various highways in Nova Scotia, at present under investigation by a Royal Commission, had offered a present of money to John W. Roland, the chief engineer of the Provincial Highways Board and had proposed to Jan. Kennedy, a sub-contractor engaged in clearing the right of way for the St. Margaret's Bay road, that he had his pay sheets, was adduced at this afternoon's session of the board.

Claims Money Offered

Mr. Roland, under the persistent questioning of C. H. Cahon, K.C., acting for a number of members of the Provincial Opposition, testified that Mr. Cavicchi had come to his office one day during the summer and had said, "here, take this," proffering him a package of money. The witness refused the money, and Cavicchi thereupon attempted to thrust it into his pocket. Unsuccessful in this he tossed it into a drawer of his desk with the words: "Don't touch that money." Roland's reply was to pick up the money and throw it at Cavicchi with the request that he get out. Cavicchi, he said, had picked up the money and left the office.

Suggests Padding Lists

Kennedy swore that Cavicchi had told him that if he employed five men in his work of clearing the St. Margaret's Bay right of way, he could return ten or fifteen, in making his returns to the Bedford Construction Co., but the witness had refused to do this. Other witnesses examined at this afternoon's session, were: Bruce Diobbe, the engineer employed by the Bedford Construction Co., on the Port Joli-Sable River road, who swore that the sub-contractors had actually measured the boulders in making out their returns, which previous witnesses had testified had been used by the resident engineer employed by the Provincial Highways Board as the basis for his progress estimates, and Geo. Bond, the timekeeper, employed by the contractors, who swore that he had never seen the sub-contractors make any such measurements.

An adjournment was taken until Thursday morning.
