#### Sir Sam Hughes Is Very Much Improved

Transfusion of Blood Has Proved Successful and He is Expected to Recover.

Ottawa, May 17.—Due largely to the transfusion of blood on two occasions made possible by the volunteering of a final year McGill medical student the condition of Gen. Sir Sam Hughes is now distinctly improved and in the opinion of his medical advisers he is well on the road to recovery.

Sir Sam's condition three weeks ago was a matter of grave alarm and the idea of blood transfusion was regarded more or less as one of the last resources.

Mr. L. Robertson, who is in his final year of the medical course at McGill, Montreal, volunteered and on May 1, a transfusion of twenty ounces of blood was made.

Sir Sam's condition showed almost immediate improvement. A second transfusion was decided on and this took place Sunday afternoon last. A like quantity of blood was transmitted from the medical student.

A few hours later Mr. Robertson left for Montreal, apparently little the worse of the sacrifice. Ten hours after he was sitting at his desk in the examination rooms of the university writing on one of his final year test papers.

Dr. N. McElbion, M. P., Muskoka, and Dr. Henry of Montreal, performed both the first and second operations.

#### Fear That The End Was Not Far

Old English Army Man Was Down to 98 Pounds But Now Weighs 146 and Feels Fine.

One of the most remarkable statements yet published in connection with Tanlac was given a few days ago by Robert Gill, well-known tallor of 1173 Dundas street, west, Toronto.

Mr. Gill served twenty-three years in the English Army, going through the Boer War in South Africa and the Burmah Campaign in India. "When I started taking Tanlac," Mr. Gill began, "I was just a living skeleton and didn't weigh but ninety-eight pounds. I had suffered with rheumatism all over my body for three years and had gone from bad to worse until I didn't think I could live much longer. I had pains all through my limbs, joints, back, every where, and even my bones seemed to ache to the very marrow. My kidneys worried the life out of me nearly and my stomach got out of order and I hardly knew what sleep was. I had no mind to eat or work, and I went down hill and lost weight until I was a physical wreck."

"A friend of mine advised me to try Tanlac, and when I began taking it that was the best thing I ever did in my life. I started picking right up—my appetite came back and I commenced gaining in weight. I have taken nine bottles now, and it's an honest fact, they have knocked my troubles sky high, and I feel as lively as a cricket. I actually weigh a hundred and forty-eight pounds and don't remember the day when I was ever in better health. There is nothing I can say about Tanlac that will be too strong. It beats the world."

Montreal, May 17.—Gerald M. Bruce, the former partner of the firm of Oswald Bros., stock brokers of this city, was sentenced today by Chief Justice DeCarrie, to two years imprisonment on each of the charges on which he was found guilty. The sentences are to run concurrently.

#### Requests Before Common Council

Half Pay for City Employees While Overseas—Routine Business Disposed of.

Two requests for half pay while serving overseas were received by the common council yesterday from members of the water for power department, and handed over to the mayor, who suggested that each commissioner furnish him with a list of men likely to make similar applications and then the matter could be more intelligently dealt with, and several matters of routine business were disposed of.

Mayor Schofield presided and Commissioners Bullock, Thornton, Frink and Jones were present.

The report of the committee of the whole, as published yesterday, was adopted, except that section relating to the sale of a lot to Thomas McGrath, which was referred back.

An application from Dr. F. C. Thomas for permission to erect an electric sign on Main street, was referred to the commissioner of public works, as was also the request of R. W. N. Johnston for permission to remove a building through the streets from Hazen street to Murray street.

Communication from Vancouver

A communication from the mayor of Vancouver asking the council to endorse some proposed amendments to the "Opium and Drugs Act," was referred to the commissioner of safety.

A communication from the Union of Canadian Municipalities regarding the 21st annual convention, which is to be held in Ottawa July 27, 28, 29, was referred to the mayor.

Commissioner Frink recommended that the application of the New Brunswick Telephone Co. for permission to lay a conduit in Duke street, west, be granted on condition that a number of poles be eliminated and the street be repaved to the satisfaction of the city engineer. Adopted.

On motion of Commissioner Jones, a bill of \$870.02 for excavating catch basins in Douglas Avenue was ordered paid.

Requests for Half Pay

Commissioner Jones presented requests from Thomas A. Ballantyne and John A. Guild for half pay while serving overseas. The action in paying this to members of the public works staff. Mr. Ballantyne claimed that when he enlisted he was given to understand that he would get full pay, and did not get it for three months. He asked for pay from December, 1916, until June 10, 1919, a total of \$586.25. Mr. Guild asked for three weeks, from October, 1917, to August, 1919, at \$7.50 per week, a total of \$675. The commissioner moved that the requests be referred to the Mayor for a report.

Commissioner Thornton called attention to the fact that the payment to Mr. Goodwin was not a moral obligation, but a legal one, and these would not be the only ones of like nature to come in. The mayor suggested that each commissioner make a list of the men who might apply and then the matter could be taken up in committee. This was agreed to.

#### GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catarrhal Deafness or if you have roaring, rumbling, hissing noises in your ears go to your drugist and get 1 ounce of Parmit (double strength), and add to it 1/4 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing becomes easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

OBJECT TO TAX.

Ottawa, May 17.—A delegation of importers today waited upon Sir Henry Drayton, Minister of Finance, to state their objections to the provision of the budget, in customs valuations, proposed to disregard depreciation in foreign currency below 50 per cent. The Minister promised consideration.

#### TO BE DYSPPEPTIC IS TO BE MISERABLE

The poor dyspeptic suffers untold agony after every meal, and any one who has dyspepsia knows what joy it would give to eat three square meals a day and not be punished for it after. Nearly everything that enters the weak stomach acts as an irritant, and even the little that is eaten causes such torture and is digested so imperfectly that it does little good.

Before you can eat heartily, and not pick and choose your food, you must put your stomach in such condition that it will manufacture its own digestive ferments.

For over forty years Burdock Blood Bitters has been toning up and restoring weak stomachs to a normal healthy condition, so that the food no longer causes distress, but is thoroughly digested and assimilated, and enables one to partake of all the wholesome food required without fear of any unpleasant after effects.

Mrs. Alice Beckwith, Peterson, Ont., writes: "I have been a great sufferer from indigestion and dyspepsia for several years. I could not eat anything without almost dying from the pain in the pit of my stomach. Seeing Burdock Blood Bitters highly recommended, I tried a bottle, and can gladly say it relieved me. I can eat anything now, and am in perfect health."

B. B. is manufactured only by The T. Millers Co., Limited, Toronto, Ont.

## Wanted Two million husbands

DO YOU know there are two million women in England today compelled to go through life unmarried because there are no men for them to marry?

What are they going to do with themselves? All England is talking about it.

Is the "right to motherhood" doctrine gaining ground? Or will these two million surplus women find happiness in a "transmuted" motherhood?

What of the women who are married and don't want babies?

How much are the marriage and divorce laws to blame?

And how about the surplus men—the inferior men whom women won't marry?

Ida Clyde Clarke, who has just returned from England, discusses the whole burning question in Pictorial Review for June. She gives you the viewpoint of a member of England's Birth Rate Commission, the protests of The Mothers' Union and a solution offered by a famous woman scientist! See what you think of it!

#### Kissing can't be shown on the screen in Japan

JAPANESE censors consider kissing highly improper. And yet their bathing customs would shock us. Opinions differ, that's all.

For instance, what do you mean by "sex plays."

Norma Talmadge, the famous screen actress, asks this question in Pictorial Review for June. She shows clearly the difference between wholesome romance and suggestive sex appeal.

Miss Talmadge also tells you what a movie actress's life really is. Read her intensely interesting article. This is the fourth article in Pictorial Review's campaign for cleaner movies.

"What Do You Mean by 'Sex Plays'?"

Did horrible dreams of yours ever come true?

DID you ever dream that your mother was dying?

That a brother—or a sister—had met with a terrible accident and been killed?

That a man you knew was in danger of being murdered?

That your child was being run over by an automobile? And have your dream come true afterwards in every detail exactly as you dreamt it?

Science says these are not mere chance happenings and H. Addington Bruce explains the laws that govern these extraordinary dreams of prophecy. See his article in Pictorial Review for June, entitled—

"Dreams that come from afar"

And all New York was looking for her

WOULD you enjoy being flung from your cozy Pullman on to the flinty soil of a Western prairie? And yet that's how a beautiful New York Society girl found the great romance of her life! Spoiled and pampered, with hosts of admirers, lo Weland, finds herself alone—bruised and cut when the train overturns.

There she meets a new kind of man in Errol Banneker—and begs him to keep her identity unknown. This provides one of the most fascinating novels of love and adventure we have yet published—

"ENCHANTMENT"

A new sort of love story by Samuel Hopkins Adams, Author of "The Clarion."
