EMPLOYMENT OPPORTUNITIES FOR STUDENTS

As the new year begins the time is approaching when students in search of knowledge will also join the ranks of the many Canadians in pursuit of a job.

Whether they are launching into a new career or simply hoping to obtain suitable work for the summer, the majority of students will want to find employment which will provide them with experience and challenge as well as financial reward.

The Public Service Commission of Canada has sponsored programs which are specifically designed to provide the students of Canadian universities and colleges with such opportunities.

Among these programs are the following: Career Oriented Summer Employment Program (COSEP) and Student Customs Officer Summer Program (SCOSPS) and Co-operative Education Program (CO-OP). Information concerning these programs is available at all university placement offices.

The Public Service Commission also recognizes that some students because of a physical disability have traditionally experienced greater difficulty in finding employment than have other students with similar qualifications. The Public Service Commission's Equal Opportunities Unit provides special assistance to disabled job seekers. Equal Opportunities Co-ordinators provide advice on existing and potential employment opportunities and will make certain that students applications are given fair consideration. The Public Service Commission has also produced special recruitment material on tape and in braille for visually impaired students.

For further information please contact Barbara LeGay, Co-ordinator, Program of Services to Handicapped People at (902) 426-7209.
