(4)

MEMORANDUM:

A Royal Commission to enquire into the conditions surrounding the production in Canada and transportation and the marketing of the natural products of this country overseas or abroad; and also to enquire into the cost and conditions under which manufactured products are transported and marketed abroad; and a report wherein changes in existing conditions may be affected with the object of promoting the interests of agricultural and industrial life of the Dominion and also to enquire and report upon the circumstances under which products of a similar nature, both natural and manufactured, and which enter into competition with Canadian products are transported and marketed abroad.
