

hospital for further treatment because we were not in a position to treat these wounds ourselves.

Q- Yes. Did you see him again?

A- I saw him again about a day after that when he was all bandaged up, and he told us what sort of treatment he had received in the hospital.

Q- Did you do anything about it?

A- When he came back from the hospital we decided that he could not carry on with his duties and we gave him excused duties.

Q- How long was he away from his duty?

A- Four days.

CROSS-EXAMINED BY DEFENDING OFFICER :-

Q- Mr. ^{Selling} ~~Selling~~, did Cpl. Williams mention to you that he had been drinking the night before the accident or the night of the accident?

A- No.

Q- I would like to ask your opinion about drunkenness. I will put the question this way. In your opinion, is it possible for a person who has been drinking, say, beer and wine to walk about and commit certain acts or perform certain duties and not remember having performed those duties?

A- In my opinion -- this is theoretically possible. But I don't feel qualified to answer that question definitely.

Q- I would like your answer to this question: Would it be possible for a person to have committed certain acts or said certain things while under the influence of beer and wine or either of these and at a later time not remembering having done certain acts or said certain things?

A- This might be possible.
