A STOCK COMPLETE.

# Dress Goods Trimmings,

We've just passed through the customs another lot of Dress Stuffs, Trimmings and Silks. This store follows the dictates of Dame Fashion very closely, and the stocks this year are more complete than ever before. Every new weave is here in every new shade, and among them are many novelties strictly exclusive. The New Trimmings are bewitching in their beauty. They are here from Switzerland and Germany. In Silks you'll find rare novelties here for Waists. Among the more popular silks are the Louisines, Tusson, Shah Tungs and Pongees, for gowns, linings and waists.

# MR. BORDEN'S SPEECH.

The Conservative Leader Advocates Higher Tariff.

Ottawa, April 18.-Mr. R. L. Borden, leader of the Opposition, replied to Mr. Fielding's budget speech. He spoke for about two and one-half hours, and was repeatedly applanded by his followers and by Mr. Tarte. Conservative members generally declared that it was the best speech. Mr. Borden has ever delivered. At the close of his address, Mr. Borden moved an amendment, calling for revision of the tariff during the present session, which would afford adequate protection to all Canadian industries. Sir Richard Cartwright adjourned the debate until Monday, after which day the debate will have precedence of other business. The House went into supply at 6 o'clock, but after passing a number of items a deadlock occurred over an item for the building of a wharf at Grand Vallee, Quebec, which the Opposition declared was built solely for the benefit of timber limits in which Mr. Lovell, member for Stanstead, is interested. They demanded that the item should stand, but Mr. S-therland would not accede to the demand, as he had an agreement with Mr. Borden that the Quebec items should be allowed to pass with a proviso that they should all be open for discussion at a later stage. It was nearly 1 o'clock before the item was carried on a vote.

The following bills were introduced:

—Respecting the Canadian Northern Railway Company—Mr. Davis. Respecting the Edmonton, Yukon & Pacific Railway Company; to incorporate the Canadian Industrial Corporation, Limited—Mr. Thompson. To incorporate the Canadian Industrial Corporation, Limited—Mr. Thompson. To incorporate the Canadian Industrial Corporation, Limited—Mr. Thompson. To incorporate the St. Louis Light & Power Company—Mr. Erb. den, leader of the Opposition, replied to Mr. Fielding's budget speech.

#### REST FOR TIRED MOTHERS

How many babies wake up just about the mother's bedtime and keep her busy for a good part of the night. The mother may not see anything apparently the matter with the child, but she may depend upon it that when baby is cross and sleepless there is something wrong, and the little one is taking the only means he has of telling it. Baby's Own Tablets will make him well and cheerful right away. There are no opiates in this medicine — they send baby to sleep simply because they remove the cause of his sleeplessness and make him feel good and comfortable. The Tablets are good for children of all ages, and they cure all the minor troubles of children. If you know a neighbor who is using the Tablets for her children ask what she thinks of them, and we are sure she will tell you they are the best medicine in the world for little ones. Mrs. James Levere, Spencerville, Ont., says: "I believe Baby's Own Tablets saved my haby's life, and I would not be without them."

Sold by druggists at 25 cents a box or sent by mail; post paid on receipt of price by writing direct to the Dr. Williams' Medicine Co.. Brockvilel, Ont.

Detroit will likely have a good lacrosse team this season. They have already organized and will have a practise game to-morrow morning. Brusso is manager and McDonald cap-

#### WHAT THE KIDNEYS DO. They Are the Filters of the Body-

Into everything we eat and drink, no matter how "pure" the food is labeled nor how careful we are, poisons enter. Were we not provided with or enter. Were we not provided with organs especially designed to look after these poisons, human life would soon perish. The kidneys are the filters of the blood. They catch the poison in the food and expel it from the system. That is, they do these things when they are in healthy and vigorous condition. When they are weak, or overworked, or clogged, or handicapped by the ravages of disease in even a slight degree, they do their assigned work degree, they do their assigned work more or less imperfectly, or not at all. When the kidneys are not working well, the poison which should pass from the system is returned to the blood, to circulate through the body. Excess of urle acid in the blood causes a demandary muscular or articular from the system is returned to the blood, to circulate through the body. Excess of uric acid in the blood causes inflammatory, muscular or articular rheumatism, for one thing, and those who have suffered from any of the forms of this distressing and dangerous malady will say that this is enough. The best authorities on the subject, however, believe that this is only a small part, and that to kidney irregularities are due a long train of bodily allments. The kidneys often give warning, though not always and not always in time, of the dangers which menace the body from their abnormal condition. Among these danfer signals are weakness of the back, pains or aches in the region of the kidneys, irregularity of the bowels and kidney action, chills, feverishness, nuffy eyes, brick dust deposit or cloudiness, and a dropsical appearance of the ankles or wrists. When any of these symptoms appear blood poisoning to a certain extent is undermining the fabric of life. The result of the latest research into kidney troubles and their cure is the vegetable preparation known as Bu-Ju, which is put forth by the Claflin Chemical Co., Ltd. of New York, N. Y., and Windsor, Oot. It may be purchased at any drug store in boxes of 50 pills at 50 cents. It were well to pay no heed to efforts to substitute other so-called remedies for this dangerous condition, as Bu-Ju embodies all that these have with the addition of the latest-upto-date discoveries and enhanced skill in preparation.

### A BAD BOY

Frank Doherty, a fifteen-year-old lad, was arrested last evening on the charge of breaking into James Rowin's barber shop last Saturday night. Doherty pleaded guilty, and elected to be tried by Judson Houston. As the lad had already three suspended sentences against him, the Magistrate felt that in the lad's own interests it was not wise to let him go again. Only last month the boy had been found guilty of stealing rubbers from the residence of Willis Sample, Adealide St. Judge Houston sentenced Doherty to three years in the Reed Doherty to three years in the Re-formatory at Penetanguishene.
