

quently confined their researches to changes in the solids and fluids of the body, overlooking entirely the fact that the true difficulty lies in the magnetic condition of the nerves of the affected part. It is in taking cognisance of this that the FRENCH MAGNETIC OIL has its strength, and the remedy being used both internally and externally, the disease is attacked at all points at the one time, and quickly takes its departure.

A GENERAL LIST.

As those who comprehend the principles of the action of this remedy have already seen that the list of diseases cured by it is wonderful in number, variety and range. LOCAL MUSCULAR PAINS, GROWING PAINS IN CHILDREN, PAIN IN THE SIDE, BACK Ache, CRAMPS IN THE LIMES, BUNIONS, CHILLBLAINS and FROST-BITES, ENLARGED VEINS, CHRONIC ULCERS, STRAINS, CRAMPS, TOOTHACHE, EARACHE, and many others are all comprised in it.

MOTHERS' DISEASES.

But one class of ailment is too important hurriedly to be passed by. Ladies who have recently become mothers will find that the rubbing of the FRENCH MAGNETIC OIL upon their breasts will prevent the appearance of lumps and gatherings. If the breasts become at all hard and painful have them well rubbed from the root to the nipple with the FRENCH MAGNETIC OIL, and then apply it on a fold or two of flannel, repeating it every two or three hours. It will soon be found that the pain and heat are relieved; the glands are softened and the milk can be drawn thoroughly and without pain. MILK LEG also yields to the virtues of the FRENCH MAGNETIC OIL and loses its terrors.

AS A HOUSEHOLD REMEDY.

In fact, as a general household remedy the FRENCH MAGNETIC OIL hardly can be equalled. It is cheap, safe and effectual, and we have no hesitation in saying that each day the knowledge of its virtues is growing in every part of this continent.

FOR HORSES.

The FRENCH MAGNETIC OIL is also an excellent remedy for many diseases of cattle and horses. For BRUISES and STRAINS, GARGET, COLIC and BELLY-ACHE it is very effectual. The dose for a Horse is a bottle full, and may be repeated every hour or two until relief is obtained.

AN INTERESTING CASE.

TRACADIE, N.B., June 13th, 1879.

J. W. Brayley, Esq.:

DEAR SIR,—In the fall of 1875 my wife was taken sick with Asthma, and for three years she was an invalid, unable to do any housework, and many, many times so bad that we despaired of her recovering, or even surviving for many hours. We tried all the known remedies for Asthma, but without any avail. We consulted several good doctors, among them an eminent physician from one of the public hospitals in New York, who was here last summer for a while, who also prescribed for her, but without any permanently beneficial effect. In January last, when she was having one of her worst spells, a friend called to see us, and advised us to try British Oil; a few drops taken with sugar, it was said, would alleviate the suffering. When, providentially, I went to inquire for British Oil, your agent here told me he had none, but that he had what was much better—FRENCH MAGNETIC OIL. I got a bottle. On taking some she found immediate relief, and before she finished using the whole of it her health was completely restored. She took a heavy cold once since, and showed what we thought were slight symptoms of Asthma returning. We got another bottle, a few doses of which completely warded it off. In the interests of other sufferers I have much pleasure in forwarding you this certificate of the efficacy of your FRENCH MAGNETIC OIL, and hope that you will give it all the publicity possible.

Yours faithfully,

JUSTINIAN SAVOY, J.P.,
County Councillor.

RAPID SALES.
