NOTES.

A large number of each issue will go to foreign countries. Importers should send us their ads.

Agents wanted in every village, town and city to get subscriptions and advertisements for this paper; liberal commission.

We wish to exchange with every Journal published in the interest of curiosities of any kind, publishers of which please send two copies, and we shall be pleased to do same.

Persons having curiosities of any kind to dispose of should send us their ads. We guarantee satisfaction.

Every dealer in or collector of curiosities should have this journal in his mail regularly every month. Send 25 cents and you will be sure to get it.

For a club of five subscribers and \$1.25 we will give a free subscription to club-raiser as well as a two-line rubber stamp, ink, pads, etc., all complete.

Mr. Jos. A. Leighton, of Orangeville, Ont., reports that he has been imposed on by the firm of J. W. Branford & Co., New York.

The above is the first account of a fraudulent transaction appearing in our columns, and we hope the last. We do not intend making a speciality of hunting up and exposing to the utmost any shady transactions occurring, more for the purpose of making capital out of it than any interest in the welfare of the public, but will only do so when the interests of our many readers are at stake.

Review.

The *Philatelic Herald* appears without a cover this month.

The *Southern Geologist* for January contains a great deal of useful and instructive information. This paper should be in the hands of every geologist, young or old.

The *Stamp* is the title of a new paper from Denver, Col. From it we clip the following:—"Some credit is due to the *Toronto Philatelic Journal*. Canada is too cold for the average stamp paper." The editor does not seem to be aware of our existence; but, we forgot, this paper is above the average, so, of course, he is right. As to Canada being too cold for stamp papers, we would say that editors of the same seem to live to an older age than most U. S. editors, probably through not having to apply wet towels to their craniums to enable them to get off their sparkling editorials.

The *Universal Collectors' Journal*, of which we have received the first number, is a large monthly, devoted to collecting in all its branches, and is well filled with advertisements for the first number.

The *National Capital Philatelist* has enlarged and is improved in appearance.

The *Philatelic Journal of America*, for February, appears in a new cover of very neat and tasty design; it also contains a portrait of the editor, Mr. Charles H. Mekeel.

No. 2 of the *Chemung Review* to hand, as spicy and interesting as the first.

The *Philatelic News* is a very neat paper from Chicago, we wish it long life and success.

The *Philatelic Tribune*, for February, appears in a greatly improved cover.

The publishers of the following papers will please accept thanks for copies sent us:—Quaker City Philatelist, Philatelic Tribune, Philatelic Magazine, Philatelic News, Philatelic World, Youth's Ledger, Bay State Advertiser, The L. I. Collector, Garden City Philatelist, Southern Geologist, Monthly Journal, Chemung Review, Philatelic Herald, Toronto Philatelic Journal, Capital City Philatelist, Stamp Collector's Journal, Philatelic Journal of America, Empire State Philatelist, etc., etc.

SPECIAL OFFER.—To introduce our paper we make following special offer:—To any one sending forty cents we will send a rubber stamp with name on, as well as C.P. & C.A. for one year.

Mr. Ph. Heinsberger, 151 Franklin street and 81 Delancey street, New York, is our authorized agent for the receipt of subscriptions and advertisements for this paper in United States.

We would direct the attention of our readers to the ads. in this number—they are worth noticing.
