HORSE CLASSES.

Will you please answer, through your valuable paper, the weight and height of all the classes of horses that are on the prize list for the Toronto Exhibition.

A. R. S.

Ans.—The only class in which weights are specified is the general purpose. At the Toronto Exhibition, the general purpose horse is understood to be a horse suitable for wagon, carriage, buggy, saddle or plow. The Exhibition rules say, mares or geldings, four years old and upwards, shall not exceed 1,350 lbs.; three years old, 1,200 lbs., and two years old, 1,000 lbs. The fancy harness horses have sections provided according to height, from eleven hands and under, for ponies, up to 16 hands. For fuller particulars, see the prize list for 1903. J. O. Orr, 70 King St. East, Toronto, will supply prize list for this year when printed.

FEEDING ENSILAGE—WIND WHEEL.

1. Would you recommend feeding ensilage to a breeding herd of registered beef cattle. Is it injurious to the teeth? Are there not more losses with cows and calves?

2. Do you think it advisable to put a 14-foot wheel on a power mill with the heaviest castings and gear, or a 15- or 16-foot wheel to do the work on a 150-acre farm?

3. What will remove tattoo marks from the arm?

A. F.

Ans.—1. When fed with other foods and judgment exercised in feeding, it is not injurious. It is in feeding an excess that trouble arises. Ensilage is not in itself a complete cattle food, but if fed judiciously in connection with such other foods as hay, cut straw or chaff, we do not think there are more losses than from feeding other fodders.

2. On a farm that size, a wheel not less than 15 feet in diameter should be used, and for all ordinary purposes it is just as satisfactory as a larger one.

3. Nothing.

SUMMER PASTURE.

Would like to know what kind of grain would be the best to sow on a few acres in a field that I want to seed down and pasture this summer? I expect I can keep the cattle off it till some time in June.

A. L.

Ans.—We would advise sowing part of the field in peas, oats and vetches, as soon as the ground is fit. About the middle of May, sow another portion with rape. When the weather is fit, sow about one quarter of the field with corn in drills three feet apart, and cultivate. About the middle of June, sow the remaining part of the field with rape. This assortment will give the largest possible amount of feed, but we would recommend cutting and feeding in the stable or paddock. The rape, however, could be pastured. There is no way of seeding the field with grasses to be used for pasture the first season. Sow the peas, oats and vetches about two and a half bushels per acre; the rape four pounds broadcast, or two pounds in drills twenty-four inches apart, and the corn, one-half bushel per acre. The seed for these may be had of seedmen in the cities and in most towns.

ELECTION OF SCHOOL OFFICIALS.

In school section No. — the ratepayers met at the annual meeting and appointed Mr. F— for section auditor for the next year, which he accepted, and was declared elected by the chairman. Later on, he was nominated for trustee, and having more votes than the other candidate, Mr. B—, he was again declared elected by the chairman, and accepted the second position. Mr. B—'s electors declared that he was elected trustee, as Mr. F— was not a legal candidate, on account of having the auditorship. The meeting was not adjourned, but a number of the ratepayers went home. Mr. F— and his three sons and some of his friends then agreed that he should resign the auditorship, and appointed Mr. J—, who positively refuses to act, as he was not legally elected.

1. Was this business legally transacted?

2. Has the inspector a right to settle this dispute when asked?

SUBSCRIBER.

Ans.—1. No. 2. Yes, under sub. sec. 8 of sec. 15 of chap. 39 of the Public Schools Act (1 Edw. VII.); but no complaint can legally be entertained by him unless made to him in writing within 20 days after the holding of the election or meeting.

Burton Holmes says that while he was in Seoul, the capital of Korea, recently, he asked an intelligent Korean what side his nation would take in a dispute between Japan and Russia.

"You have seen two dogs fight over a bone?" asked the Korean.

Mr. Holmes assented.

"Well," continued the Korean, "did you ever see the bone do any fighting?"
