

The Farmer's Car

A SOLID TIRE

"KENNEDY"

Season's price was \$840, but just now we have a few of this season's cars to clear at a special price.

We want to clear up our season's stock to get ready for next season's cars, so we're going to clear out the few we have at special terms to quick buyers.

Here's a rattling good chance for any farmer to pick up a really serviceable, hard-tire automobile at specially low cost.

Write us for more particulars, and ask for our Catalogue No. 9.

DRAUGHTS NEVER CAUSED A COLD

Stuffy Rooms Alone Responsible Says Dr. Treves.

Special Cable to The Mail and Empire Over Our Own Leased Wires.
London, June 26.—Dr. Sir Frederick Treves astonished the public last week by declaring that "the idea that colds are caused by draughts are absurd. No cold ever had such an origin. Colds are the origin not of draughts, but of stuffy rooms." Other famous London physicians back up Sir Frederick in holding that no cold was ever caused by draught.

You may question Sir Frederick's statement but there can be no doubt whatever as to the evil effects of a close stuffy atmosphere. In the winter-time, when storm doors and double windows help to make the house practically air-tight, we live in dealing atmosphere. Breathing air vitiated with the vapor elimination from the lungs of the occupants and the organic secretions and moisture from the pores

of the skin. There should be humidity, but it must be pure and refreshing as that of the outdoor air, and it is through the introduction of fresh outdoor air and its ample humidification by means of the large Circle Waterpan that the

"GOOD CHEER"

Circle Waterpan Warm Air Furnace

makes the atmosphere of the house in winter like that of a bright June morning—warm, refreshing and life giving.

The demand for our booklet "Humidity and Humanity" is taxing the capacity of our mailing staff, but we have a copy for you upon request, stating where you saw this advertisement.

Amatite ROOFING

Ideal for Farm Buildings

AMATITE is the ideal roof for farm buildings. No other approaches it in economy or durability. Here are some of its features:

1. *Low Price.* Amatite costs, weight for weight, about half as much as ordinary smooth-surfaced roofings.
2. *No Painting Required.* Amatite costs absolutely nothing to maintain because it has a real mineral surface.
3. *Absolutely Waterproof.* Amatite is waterproofed with coal tar pitch, the greatest waterproofing compound known.
4. *Easy to Lay.* No skilled labor is needed for Amatite. It is just a matter of nailing down.
5. *Stormproof.* Amatite is not a flimsy, paper-like felt. It is one the heaviest and the most substantial ready roofings made, weighing 90 lbs. to the square, against 40 to 50 of material in the ordinary "Rubber" roofings.

The three important points to be remembered are that Amatite has a real mineral surface, that it needs no painting, and is waterproofed with Coal Tar Pitch. You are only sure of getting them in Amatite.

We send samples free to everybody that asks for them. Drop a postal to our nearest office.
