Elastic Chest Expanding Braces.

THE SUBSCRIBER, BEING acquainted with the construction of Chest Expanding BRACES, recommended as a principal means of the prevention and care of Consumption, by Dr. Fitch of Philadelphia, a phy sician celebrated for his success in the cure of that disease, and being urged by several of his friends whom he furnished with them, to make it knows

to the public, he therefore takes this apportunity of complying with their wishes. These BRACES are recommended to all slightly made or narrow chested persons; also for Round Shoulders or Diseased Spine, as a means of expanding the Chest, so as to give full play to the Lungs, straightening and strengthening the Back,

and giving uprightness and symmetry to the body.

They will be found beneficial to all ages,—baespecially to youth. They may be worn without the least inconvenience, precluding the necessity of Stays-for which Ladies would find it greatly to their advantage, as regards health and beauty, &

sub-titute them. The Subscriber will furnish the Braces whole sale or retail, at prices as moderate as possible.
