Lord Clinton returned recently to England from Canada having visited the Dominion for a few weeks on business connected with the estate which he recently purchased there.

Early in August Lord and Lady Clinton proceeded to Scotland for a residence of several months at Fetteringham House. Since Easter Lady Clinton has been staying principally at Bieton, the old estate of the Rolles in East Devon.

An interesting visitor from the British Isles was Mr. Philip Snowden, Independent Labor M.P. who spent last week seeing Toronto and its environs. He was accompanied by his wife, a lady whose views on the feminist movement are as pronounced, and almost as well known, as is the political creed of her distinguished husband. Mr. and Mrs. Snowden left town the end of the week and will spend some time seeing our Canadian West prior to sailing for Australia.

Professor and Mrs. Wrong of Toronto, whose recent trip abroad was spent in the Isle of Elba, and many delightful and out of the way spots on the Continent, are summering as usual at Murray Bay, despite the loss of their house which was burned shortly after their return. Mrs. Edward Blake was occupying the cottage at the time, and her own house was not destroyed, as has been erroneously stated elsewhere. Speaking of dances, one of the prettiest and newest, the "Twinkle," was being introduced by some New York guests at a Georgian Bay resort earlier in the season. While graceful, and entirely unobjectionable, it is distinctly a young person's step and the middle-aged gentleman of redundant figure who have favored and colluded with their long suffering partners through the mazes of the Tango, one-step, and Hesitation, are reluctantly compelled to become fixed stars when it is a question of "twinkling."

Prince and Princess Arthur of Connaught have been staying for a few days at Shoreham Place, near Sevendals on a visit to Mr. and Mrs. F. B. Midway, who are now entertaining week-end parties there. King Edward once stayed at Shoreham Place when it was rented by Lord James of Hereford. The modern well-arranged house is most pleasantly situated and is surrounded by beautiful grounds, which slope to the Darenth. There was formerly a very fine collection of Dutch pictures in the house which had been purchased in the Netherlands.

OLD MOTHER HUBBARD

Old Mother Hubbard, she went to the cupboard, to get her poor dog a bone, but when she got there the cupboard was bare, and so the poor dog had none. Then Old Mother Hubbard she sat down and biabbered, and roared the scandalous trusts: "They're surely inhuman, to rob a poor woman of even the bones and the crusts. I'll write to the papers and show up their capers, and prove that we need a reform; I'll skin them completely, and do it up neatly, while I am indignant and warm." The old woman's neighbors, who stuck to their labors, had plenty of grub in their fat, they promptly made payment for bonnets and raiment. Their bow wows were rolling in fat. But Old Mother Hubbard, she idled and rubbered, at suffragist meetings, and show up their capers, and prove that we need a reform; I'll skin them completely, and do it up neatly, while I am indignant and warm.

FIVE-FOOT STURGEON

WASHPED UP AT PORT STANLEY, Aug. 1.—A finny creature five feet long was washed up on Stanley Beach yesterday afternoon. Bathing, and guests of the Casino hastened to the scene and some declared the 'beast' to be a whale, while one old salt proclaimed it a shark. All theories were shattered by Chief Constable Fulton, who termed it a sturgeon. The fish had apparently suffered a blow from a vessel.

COMPLETE DOUBLE TRACK

ON G. P. & H. AT PRESTON. PRESTON, Aug. 1.—The second trolley wire for the double track system of the G. ST. PETERSBURG, Aug. 1.—Enrollment of the reservists of the Russian army started at a hundred centres in the Russian capital at six o'clock this morning and was accompanied by stirring scenes. WATTS-DUNTON, Link With the Great Victorians

With the death of Theodore Watts-Dunton, the celebrated English poet, critic and author, disappears almost the last link with the great Victorians.

His friendship with Swinburne has become almost legendary. They lived together, like brothers who had chosen each other, thirty years in the Putney house; walked together over the heath in the early hours of the morning and sat up late at night together in the dining-room discussing literary matters; they holidayed abroad together, and swam in the Channel or North Sea side by side. It was at Rossetti's house in 1872 that Watts-Dunton met Swinburne, Browning, Borrow, Morris, Whistler and Ford Madox Brown were other members of the great literary circle in which Watts-Dunton fulfilled a well-defined position. It has been said of him that "of all men it was he who most influenced his brother poets while he himself remained least influenced by them." They listened to his words and were swayed by his critical bent.

One who knew him intimately and was with him not long before his death writes: "A line by Theodore Watts-Dunton, my old friend and fellow poet, Alfred Tennyson, well describes the end

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Grandma's Recipe of Sage Tea and Sulphur Darkens so Naturally That Nobody Can Tell.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair taking one small strand at a time; by morning the gray is disappeared, and after another application or two, your hair becomes beautifully dark, thick and glossy.

The Magnetic Girl

How She Compels Others to Obey Her Will.

100,000 Copies of Remarkable Book describing peculiar Psychic Powers to be distributed Post Free to readers of "The Brantford Courier."

"The wonderful power of Personal Influence, Magnetism, Fascination, Mind Control, call it what you will, can surely be taught by everyone, no matter how unattractive or unsuccessful," says Mr. Elmer Ellsworth Knowles, author of the new book entitled "The Key to the Development of the Mind." This book is a simple, though effective, system of controlling the thoughts and acts of others; how one may gain the love and friendship of those who might otherwise remain indifferent; how to quickly and accurately judge the character and disposition of an individual; how to cure the most obstinate diseases and habits without drugs or medicine; the "Inner Forces." The book has been many, astounding "facts" concerning the complex subject of protecting thoughts (telepathy) to the "faded" state, whose portrait appears here, declares that "The Key" book opens the door to success, health and happiness to every mortal, no matter what his or her position in life. She believes that Dr. Knowles has discovered "principles" which, if universally adopted, will revolutionize the mental status of the human race.

The book, which is being distributed broadcast free of charge, is full of photographic reproductions showing how these unseen forces are being used by thousands who have developed powers which they little dreamed of. The book is being distributed by a large London Institution, and a copy will be sent post free to anyone interested. No money need be sent, but those who wish to receive the book should send a request for the free copy (stamps of your own country) to copy books should be addressed to: National Institute of Science, Free Distribution Dept., 1015-2, No. 101, Wellington Street, London, Ont.
