GURNEY-OXFORD

Save One Ton of Coal in Every Six

The Economizer will do it.

While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.

On every Gurney-Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat.

This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range.

The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.

The kitchen fire ceases to be a worry if the Economizer is on your stove.

The Gurney-Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment.

This Gurney-Oxford range is primarily a saver of money, time, and energy.

KENTVILLE

Negro Girl's \$120,000 a Year

Muskogee, Okla., Sept. 11th.—A negro girl 10 years old will pay the largest income tax in Oklahoma. Sarah Rector who lives just west of Muskogee, has an income of more than \$112,000 a year.

It is the old story of the lucky allottee and the oil well. Sarah is the descendant of a Creek freedman. She had nothing to do with the selection of her allotment and probably has never seen it and does not know where it is. But it is 160 acres of land and upon it has been drilled the biggest producing well in the mid-continent field. This is what is known as the Jones Gusher, near the town of Cushing. The well is producing more than \$2,500 a day and Sarah gets one-eighth as her share.

This is just the beginning. Arrangements are already made to drill other wells. There is no doubt but these will also be big producers.

Six Millions Loss

2500 left homeless

Hot Springs, Ark., Sept. 6th.—The fire which started in a negro shack yesterday afternoon at 1.30, has left a mile of wreckage from three to seven blocks in extent and has occasioned a property loss estimated at six million dollars.

Governor Hayes is on the ground and is assisting in directing the movement for the protection of exposed property and in finding relief for the more than two thousand people who were rendered homeless by the conflagration.

It is estimated about 2,500 persons were made homeless by the fire. The majority of these are being temporarily camped in the vicinity of the Oaklawn race track and state fair grounds.

St. Joseph, Mo., July 14, 1903 MINARD'S LINIMENT CO., LIMITED Gentlemen,—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet. I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured, so that I could start on the road.

JOS. DUBES, Commercial Traveler

Satisfactory conditions. Reports indicate that crops are much better than average, the only falling being in the apple crop which is considered a year's. The shortage will be made up in value by the more abundant crops which will be secured.

MANUFACTURING IN CANADA Manufacturing industries have been working briskly, many at over-time. The coal and iron output is expected to be up to a good standard and companies connected with this industry will no doubt benefit to a great extent as a result. On the whole, business conditions in the Maritime Provinces are reported to have stood the strain remarkably well, better so, perhaps than in the Western States where the tie-up in land operations has resulted so adversely in many instances, and it is most gratifying to investors in local securities to find that the prices of their holdings have suffered to no great extent as compared with those in other markets.

County Home for Poor at Shelburne Destroyed by Fire

Shelburne, N. S., Sept. 13.—The county institution for the poor and harmless insane was destroyed by fire, the loss is \$7,000, insurance \$4,500.

The fire originated from a defective flue and though the whole town's fire department was speedily on hand, nothing could be done. The building was comparatively isolated and too far from the harbor for salt water to be used.

Flying cinders from the burning building started a forest fire about 500 yards to the east which required the attention of a large number of men before it was finally under control.

There were only three cases of insanity and they were temporarily lodged in the county jail.

Milk Will Keep Sweet Longer in Bottles Made of Red Glass

That light is detrimental to the conservation of milk is well known, lately, however, it has been discovered that the violet rays are the most detrimental, while the red rays are beneficial. Sterilized and unsterilized milk, if in plain glass bottles, turn equally quick when exposed to sunlight.

The claim that the use of red glass or red paper wrappings is of advantage in conserving milk, could very easily be investigated by Canadian dairy companies, experimental farms and agricultural colleges. In future it may be found desirable to deliver milk in the coloured bottles which are now generally used for butter-milk. Investigation along these lines would be neither difficult nor expensive to carry on and might prove of advantage.—W. L. C. in Conservation.

CORNS CURED IN 24 HOURS You can completely remove any corn, without pain or bleeding, by applying Putnam's Corn Extractor. It never burns, leaves no scar, contains no acids, is harmless because composed of healing gums and balsam. Fifty years' use, sure guaranteed. Sold by all druggists, or direct from the inventor, Putnam's Painless Corn Extractor.

Ladies of Culture and Refinement use Salvia Hair Tonic. It Makes the Hair Beautiful.

At last a remedy has been discovered that will positively destroy the Pest Dandruff.

That Dandruff is caused by germs is accepted by every sensible person.

Dandruff is the root of all hair evils.

SALVIA will kill the dandruff germs and remove dandruff in ten days or money back. The manufacturer guarantees it. It will grow hair, stop itching scalp, falling hair, thick and abundant. It prevents hair from turning gray, and abundant. It prevents hair from turning gray, and adds life and lustre.

SALVIA is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only 50c. at leading druggists everywhere. The word "SALVIA" is on every bottle.

Sold at Clark's Drug Store.

The Ontario crop report for August records yields of fall wheat, peas and bran in advance of 1912, while the yields of spring wheat, oats, barley and rye are lower. Hay and clover is much lower, being placed at 1.09 tons per acre against 1.5 for 1912 and 1.46 the average for the past 31 years.

SPRAINED WRIST AND ANKLE

After Being Laid Up With Great Pain for Ten Days, Relief Was Gained Instantly by Applying

NERVILINE

One of the most soul-distressing accidents that can befall one is a bad ankle or wrist sprain. "If I had only known of 'Nerviline' earlier, I could have saved myself an enormous amount of pain, and many agonizing nights of sleeplessness." Thus writes P. P. Quinn, a young farmer living near Brockville. "I tumbled from a hay

loft to the barn floor and sprained my right ankle and left wrist. They swelled rapidly and caused excruciating pains. It was not convenient to go to the house as the pain was so bad. When I got Nerviline relief came quickly. It took down the swelling, relieved the pain, and gave me wonderful comfort.

"I can recommend Nerviline for strains, bruises, swellings, muscular aches, and sore back. I have proved it a sure cure in such cases."

Think what it might some day mean to you to have right in your home ready for an accident or emergency, a bottle or two of Nerviline. Let it to-day, 25c. or five for \$1.00, all dealers or The Catarthosone Co., Kingston, Ont.
