The rapid growth of the population of India is shown by the fact that in the last ten years the natural increase has been 27,500,000. The population now numbers 286,000,000. One tion now numbers 286,000,000. One can hardly appreciate what these figures mean except by comparison. India contains more people than all Europe, exclusive of Russia. Its provinces are as populous as great European States, Bengal contains a population larger than that of the United States and all British North Awerica, and fully one fifth of the entire human race live upon this little peninsula jutting out form the coast of Asia into the Indian Ocean.
