

## THE ACADIAN.

WOLFVILLE, N.S., JULY 7, 1911.

### The Exhibition.

It has finally been decided that the Nova Scotia Horticultural Exhibition is to be held in Wolfville this season. The dates fixed are Oct. 10th, 11th and 12th. Although late in getting started arrangements are now pretty well in progress and it is confidently hoped that the exhibition may be the best of the kind yet held. In order to make it such the combined efforts of all our people will be necessary. This ACADIAN will undertake to do its full share, and solicits the co-operation of all interested in the progress of our town and community. During the twenty-eight years of its history this paper has sought by every legitimate means to aid in every movement calculated to advance the interests of the people of its constituency. This will be its policy in the coming show. The fact that already printing in connection with the exhibition, which could just as well have been done at this office, has been sent to other towns will not hinder us in doing what we believe to be our duty in connection with the exhibition. At the same time we may say that such a narrow and childish procedure is hard to understand, and has never so far as we know been followed in any other town in the three counties where such an exhibition has been held.

### Town Council.

The regular monthly meeting of the Council was held on Wednesday evening, at which Mayor Harvey and Councillors Hales, Stagg, Regan and Sleep were present.

Streets Committee reported that the work on Main street had been begun and was going satisfactorily forward. Plans and specifications had been prepared and the engineer was expected to be here next week to superintend the construction of the street.

Water Committee reported that the dam had been thoroughly cleaned, new hydrants had been put in on Main street, and other work done.

Finance Committee reported receipts for month \$705.75 and expenditure during the same time \$1446.13. The debit bank balance at the end of June was \$1937.38.

Petition was read from J. W. Williams asking permission to hang a sign to project on street. On motion permission was granted.

The following accounts were read and ordered to be paid:

Petty Cash	\$ 3.39
Wm. Stairs, Son & Morrow	62.72
Rebecca Gould	12.00
James T. Thomson	5.00
Frank Toney	1.20
P. S. Powell	2.00
Five Points Lumber Co.	83.95
Hennigan, Bros.	4.95
James Woodman	2.35
Valley Telephone Co.	.98
L. W. Sleep	2.48
Arthur C. Johnson	76.64

### Safety For Children During Hot Weather.

Every mother knows, or should know, the danger her baby runs during the hot summer months. Summertime complaints come quickly and develop so rapidly that often before the mother realizes her baby is ill he is beyond all help. Every mother of small children should keep a box of Baby's Own Tablets in the house. A Tablet now and then will keep baby's bowels working regularly and his little stomach sweet—this is the secret of keeping baby healthy and of warding off cholera infantum, diarrhoea, dysentery and all other dreaded summer complaints. The Tablets are guaranteed free from all injurious drugs and may be given to the newborn babe with perfect safety. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Worth Thinking About.

President Taft in submitting the Reciprocity agreement to Congress, asked in its justification—"Ought we not, then, to arrange a commercial agreement with Canada, if we can, by which we shall have direct access to her great supply of natural products? Should we not now, therefore, before their policy has become too crystallized and fixed for change, meet them in a spirit of real concession, facilitate commerce between the two countries, and thus greatly increase the natural resources available to our people?"

And again he said—"By giving our people access to Canadian forests we shall reduce the consumption of our own, which, in the hands of comparatively few owners, now have a value that requires the enlargement of our available timber resources."

And finally—"The reduction in the duties imposed by Canada will give us even a larger share of her market than we now enjoy, great as that is. These are good arguments for the United States and are having their proper effects, but the question for Canadians to consider is this—If our natural products and natural resources and our market is regarded as so valuable to the United States, who should they not be of infinitely more value to our own people in Canada? Why should Canadians chase after a shadow, and lose to the United States the substance which they have here at home?"

William Jennings Bryan, the great U. S. Senator, will visit the Maritime Provinces this fall and deliver a number of addresses. Arrangements may possibly be made to have him speak in Wolfville.

Minard's Lignit Lumberman's Friend.

## Attractions for the Provincial Exhibition.

As the Exhibition opens August 30th which should insure pleasant weather, the management have secured one of the best programmes of attractions ever presented before the grandstand.

Read the list:—  
"THE AUTOS THAT PASS IN THE AIR."—A wonderful and sensational attraction built on mathematical precision, and it cannot but elicit wonder and admiration.

Watch the two handsomely attired ladies, seated in two automobiles weighing 1200 pounds each, dash down an almost perpendicular incline at terrific speed and the race of daring is on. So great is the velocity obtained that an express train is slow beside them. At a critical point in circuit both automobiles are shot wildly in the air the foremost car turning a complete somersault the second car shooting directly under the first car, missing it by a hair's breadth. Both automobiles finish up the mad race landing one after another on a spring platform. A written description can never do this attraction justice and you will have to see it to appreciate it.

"THE AERIAL WEAVERS."—As their name implies have woven one of the most wonderful and original aerial acts before the public to-day and rank among the most daring performances known. Their work consists of daredevil feats while swinging in mid air with nothing but their teeth to hold them. They do dances and various other gyrations and conclude with a cyclonic whirl which resembles the aerial swing at a big summer park, when the car and occupants swirl around at lightning rapidity and in almost a horizontal position. The act is so different and daring from other aerial acts that it commands attention, entraining the spectator with the intrepidity of the performers and the nonchalance with which they execute the many hazardous feats.

"THE MACNALLY TROUPE."—These clever artists perform a potpourri of comedy and an act excelled for its variety which is considered the essence of entertainment. It consists of acrobats, tight wire and balancing feats interspersed with good comedy. There is one lady and three gentlemen in this cast and one is equally as clever as the other in his or her particular line, in fact they are voted tip top wherever they are seen. There is not a country on the globe in which the wonderful troupe has not appeared and it would be well for you not to miss them.

"THE MACNALLY TROUPE."—Six as perfect acrobats as the world has produced comprise this act, four men and two women, and their work presents a sensation after sensation. They do part of their work from a spring board and with the impetus derived from this they do all kinds of difficult stunts in the somersault line, singles, doubles are performed and so gracefully do their bodies fly through the air that wings, did they have them, could not add to their excellent work. They land on the shoulders of the men two and three high with a precision that makes the average man or woman sit up and take notice. The work of the top-master, who is one of the women, is highly sensational.

"DUPPY AND CHERRY."—The comedy gymnast of to-day is required to be not only a comedian but an expert gymnast as well, for the reason that he must to a certain degree burlesque the straight work of his fellow artist associated with him in the act. They are both expert performers and their work on the horizontal bars has reached a point of later day perfection which is hard to equal.

"TWO JUGGLING ORONS."—We all like to be clever in anything. Next to being clever we admire cleverness in others. The subject of this article certainly commands our admiration for they rank among the cleverest in their line, which is that of juggling. "THE TWO FRANKS."—It is good to laugh; it is an appropriate saying when applied to this duo of eccentric comedians. They are funnier than the funniest. Their tricks keep house stunts and know about tricks keep the comedy going from start to finish, and of such spontaneous and unctuous kind as to make it irresistible. Come and have a laugh at their antics, for laugh you certainly will.

### Acadia at the Baptist World Alliance.

One of the pleasant functions of the Alliance week was a gathering of the graduates and friends of Acadia. This was held at Wansmaker's on Thursday. By this we missed a reception at the Crozer Theological Seminary, but no one felt any special deprivation in that. About forty were present, with Dr. Cutten presiding. Rev. H. P. Whidden was elected toast master. A toast to the newly crowned king was honored in the usual way. Then the following toasts were proposed:—The Old Acadia, proposed by Rev. E. D. Webster, responded to by Rev. G. O. Gates, D. D.; Acadia in the U. S. B. by Rev. J. Austin Hantley, responded to by Rev. C. A. Eaton; Acadia in the last great West, by Rev. A. A. Shaw, responded to by Rev. M. A. McLean; the New Acadia, by Rev. W. B. Wallace, responded to by President Cutten.

The Acadia spirit was much in evidence. Though the memories evoked were often in lighter vein, there was ever present an undertone of grateful appreciation. The pervading tone was one of confident expectation for greater things in the future. President Cutten's address on the New Acadia was a clear and succinct

## THIS STORES POLICY.

To represent goods exactly as to their quality; to sell to those who know and to those who don't know, at a uniform fair price; to fulfil all guarantees; and to cheerfully correct all mistakes; to deserve your confidence by always giving you "a square deal."

**J. W. Williams**  
JEWELER & OPTICIAN.

settling forth of what has been done, and what still remains to be done, the new Acadia has fully come to her own. That even the successful completion of the 75th Anniversary Fund will not provide for all the needs which will soon arise is not surprising to anyone who knows how needs multiply in a growing University. A library building and a new manual training building are promised, and the outlook is most encouraging. Cor. Maritime Baptist.

Judge Laurance, addressing the jury at Sydney in the case of the King vs. Richards, in which the charge is perjury in a liquor case, criticized the present liquor laws. The laws regarding the sale of liquor are becoming very severe indeed, and now look like an infringement upon personal rights and liberties, dealing as they do with the selling and keeping of liquor and with such cases as a man going to another town and getting liquor from a friend to bring it home.

but we have no doubt the Judge will admit that intoxicating liquor is poor stuff.—B. Western Chronicle.

During the present week we have experienced the warmest weather of the summer. The highest point reached by the mercury here was 88 degrees while other parts of the province report 95 degrees. In Boston the temperature is said to have registered 100 on Monday, which beat all previous records. In New York, Philadelphia, Chicago, Boston, Montreal and other cities many persons succumbed to the awful heat.

A barn near the Look Off, on the Scott's Bay Road, owned by Mr. George Curcum, was burned with its contents on Sunday last. The building is supposed to have been set on fire by a little five-year-old son of the owner, who perished in the building. Much sympathy is felt for the bereaved parents.

### Ask Prohibition for Halifax City.

Sydney, July 5.—The annual convention of the United Baptist churches of Nova Scotia, in its session here this week, there is a large attendance of clergy and delegates and the discussions are most interesting. Rev. J. H. Jenner, of North Sydney, preached the association sermon this morning, after which the business session was opened. Among the matters a resolution expressing the official opinion of the association in regard to the temperance act was passed by an unanimous vote. The resolution reiterated the views of the Baptist association of the province, that strict amendments should be made to the Nova Scotia Temperance act, and that there should be absolute prohibition throughout the province including Halifax. The convention represents 78 churches and over 7,000 church members.

### TEA ROOM

### Poultry Raising That Pay It All Back-And More

Many a dollar is invested in poultry raising and never comes back—for the simple reason that the necessary knowledge has not also been invested. The way to get your money back, and a lot more with it, is to know exactly what to do, and how to do it.

You cannot get this practical knowledge from a book. You have to get it from those who have made big money raising poultry through right methods. The help and guidance of such experts are given you in the Poultry Course of the International Correspondence Schools. Every phase of successful poultry raising is covered in a clear, concise, practical way. He is served of the subjects.

How to select most profitable breeds; feeding; marketing; eggs and poultry for profit; natural and artificial incubation; hygienic systems; combination plants; poultry appliances; enemies of poultry; poultry houses and management; turkeys; water fowls; squabs; etc.

Besides all this, the I. C. S. is associated with the largest poultry farm in the world—the Rancoona Poultry Farm—where experiments of every kind are made for the benefit of those taking this Course.

The attached coupon will bring you descriptive circular of this great Poultry-Raising Course. Fill it in and mail it today.
