

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrapper. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

NOTICE

Notice is hereby given that application will be made to the Legislative Assembly of the province of New Brunswick during its present session for the passage of an Act authorizing the town of Newcastle by a two-thirds vote of the Town Council to pay a subsidy not exceeding \$500 annually towards the maintenance of a ferry between the Town of Newcastle and Chatham Head. And further to authorize the said Town Council to submit the question of granting such subsidy to a vote of the ratepayers of the said Town. And to enable the Town to exempt from taxation the Company operating such ferry.

J. E. T. LINDON,
Town Clerk.

March 21-1911-4wks.

RAPID GROWTH OF A RESTIGOUCHE INDUSTRY

The McMillan Company, Limited, of Jacquet River,
One of the Largest Concerns of This County

---Started Business About Thirty-Five
Years Ago.

Push, upright and honest methods, combined with indefatigable work ever have their reward, and in the growth of a Restigouche firm these have had more than the usual success.

About thirty-five years ago Mr. W. R. McMillan commenced business in a little 20x24 store on the roadside, just north of the Jacquet River in what has since been called Durham Centre. The start was small, but the principles underlying that commencement were honest and upright.

From the start the enterprise showed the spirit of progress and today it is housed in a mammoth new building.

In 1894 Mr. McMillan bought the lumber business of Angus McLean, and this as well as his store business has grown. The mill during the summer season is running steadily giving employment to a large number of men. This business can almost be called a co-operative one in as much as any employee and employees only, can purchase stock at par, and thus participate in the handsome profits of the business.

In 1908, in order to keep pace with the growth of business as joint stock company with a provincial charter was formed, under the name of The McMillan Co. Limited, shares being put at \$200 each and are sold only to employees of the business.

of Nashes Creek, who also erected the frame, and is a very creditable job. The building has been finished under the supervision of Mr. Walter Morrell of Newcastle who is a careful workman of no mean order and the building is therefore up to date in every respect. Mr. Alex. DeGrasse of Jacquet River looked after the painting and delivers credit for his share in making such handsome quarters for this firm. The building is two storeys. The ground floor is occupied by the firm for the stores and offices. The entire front is taken up with four large plate glass windows. The interior is finished in southern pine and the fixtures are of oak.

The upper floor is fitted up as a residence for the manager, Mr. T. A. Clarke, formerly of Clarke & Co. of Newcastle.

For the use of the store it requires about five thousand square feet, while as a whole, in store-houses and store about 12,000 square feet of floor space are required. Last year the business of this firm exceeded \$70,000 and we are sure with the start on this year the amount will easily pass the \$100,000 mark.

To open the new store the firm inaugurated a grand bargain sale and all this week the store has been crowded. The sale lasts until Thursday April 6th.

In the meantime the little store had been added to until it had many departments, but it was found entirely inadequate to cope with increasing business, so in June of last year the foundation of the handsome store as set forth in our engraving was laid. This has a frontage on the street of ninety-one feet. The basement is of concrete, and furnishes large storage room. This work was carried out by Mr. Joseph Goulette

For the convenience of those arriving by train a stop is now made at the mill siding.

The Graphic predicts continued success for this enterprising firm and holds it as an example to others starting along the road to business fame as an instance of what can be accomplished by building upon the firm and solid foundation known as business honesty.

Ottawa, March 31.—In the House of Commons, to-day, R. S. Lake, of Qu' Appelle, the only Conservative member from the province of Saskatchewan, said that his constituents had forwarded three requests in the form of resolutions, viz: The ratification of the government proposals at the present session of parliament; further reduction in the duty on agricultural implements and an increase of the British preference to fifty per cent.

"I firmly believe," said the Conservative member, "that for a time great advantages will accrue to the farmers of the northwest by the present agreement, (Renewed Liberal applause and "hear, hear.")

"It will give them larger markets, better competition for their products and enable them to get true value for them. I am favorably disposed to the pact in itself. But we are told that we have to take as it stands, that it must be taken as a whole or left alone and it now appears from the premier's statement that it involves the retention of protection on manufactured goods."

From statistics which have been prepared by the department, it has been found that Montreal's infant mortality figures are probably amongst the highest of the continent, if not of the world. They show that of every hundred babies born into the world, upwards of 25 die before they have attained the age of one year. Thus during the year 1909, for instance, with 14,677 births, there were 3,288 deaths of children under one year of age. Figures for other years tell the same story.

Business Suits that help win the opportunity for \$15 to \$25.

Your Fondest Wish for 1911

Will be helped to materialization if you take advantage of Opportunity.

This is the year when we aim to double the number of our customers, and we can do it if you but give us a few moments to see whether we have not solved the problem of good tailoring for less than you have been paying.

Semi-ready is not cheap, but we offer you the very best value for the least money that such value can be had.
