WEAK BOYS AND GIRLS

It is a mistake to think that anemia is only a girl's complaint. Girls probably show the effect of weak, watery blood more plainly than boys. Delayed development, pale faces, headaches, palpitation, and a feeling of listlessness, call attention to weak blood in the case of girls. But many boys in their teens grow thin and "weedy" and have pimples on the face, showing that they have not enough blood. The anemic boy is just as likely to become a victim of consumption as the pale, breathless girl with her headaches and worn-out look. Let the boy in this condition catch cold and he will lose his strength and his health becomes precarious.

To prevent serious disaster to those of the rising generation, let both boys and girls be given the new rich blood which Dr. Williams' Pink Pills are famous for. When giving these pills, watch how soon the appetite returns and how the languid girl or the weak boy becomes full of activity and high spirits. Remember that the boy has to develop; too; if he is to make a strong healthy man. Give both the boys and girls a fair chance to develop strongly through the new rich blood Dr. Williams' Pink Pills actually make. You will then see active boys and girls, instead of weakly children around you.

Dr. Williams' Pink Pills are sold by all medicine dealers or may be obtained by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

EDITORIAL POINTERS

We have a gasless day once a week; but we must have wasteless days all the time.

Sacrifice should begin at home; don't leave it all to the soldiers.

By using a little less than he likes we can give the Kaiser a great deal more than he wants.

Patriotism and plain living go together during war time. The patriot who asks nothing more, he knows it is good at all times.

Don't mistake inconvenience for sacrifice; it is all of that and more. Save!

Saving is a mere matter of will, and where there's a will there's a way.

Consider saving as a service rather than loss by it.

Whoever competes with the nation by freely satisfying his own desires selfishly appropriates to his own use that which is so urgently required for our fighting men in France.

For the sake of your country and the boys "over there" spend cautiously. Ask yourself first: "Is this something I really need or can I do without it?"

Prudent men and women have always maintained a margin of saving. Today it is a matter of the greatest importance that each Canadian seek ways and means to economize by cutting down expenditures for unnecessary things, saving the money he spends on things he could do without, so that when the nation needs to borrow money he will be in a position to do his full duty.

There is war-shortening work waiting for every dollar that can be saved.

Newcastle Man Has Narrow Escape

Car Plunged Over Fifty Feet Embankment and Occupants Escaped With Few Bruises

(Gleaner Wednesday)
Messrs George Mullin of Newcastle and John McBean, the well known contractor of this city, had a most miraculous escape when the car in which they were coming to this city skidded and went over a fifty foot embankment at Durham bridge and dropped into the river.

On Friday last Mr. Mullin left Newcastle by auto for this city, accompanied by his wife and child and his father-in-law, Mr. McDonald, of this city. They journeyed along as far as McGivney Junction, where the roads were almost impassable after the previous heavy rain. They left the automobile at McGivney and took the train, and made the rest of the trip to the city.

Yesterday, Mr. Mullin went to McGivney Junction by train and started on the return trip to this city, in his auto. On the way he met Mr. John McBean, of this city who was coming to Fredericton, and they made the trip together. All went until they got to Durham Bridge when the car skidded in the mud and went over a 50 foot embankment turning over three times before it finally landed in the river, bottom side up. Both occupants of the car were pinned under, but Mr. Mullin in some way worked himself out and started in to try and get his companion out of his perilous position under the car. He kept pulling him by the legs until finally he was clear of the car and out of the water. They made their way to the road and sought assistance at the farm house and Dr. Mellin of this city was called and both men were conveyed to the city and to the hospital, where it was found that Mr. McBean had escaped without even a bruise and Mr. Mullin while badly shaken up and bruised, had no bones broken and today is resting quite easily at the hospital.

It was nothing short of a miracle that both men were not instantly killed when the car started on its way over the embankment, and today Messrs Mullin and McBean are congratulating themselves that they are not much the worse for their thrilling experience.

Hellam, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a displacement. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping house since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in this condition. I give you permission to publish this letter."—Mrs. E. R. CRUMMING, R. No. 1, Hellam, Pa.
