## Sale Of Beer Placed Under Local Option

A provincial order in council gives the British Columbia Government the right to place in parts of the province beer dispensed by the glass and in other places the bottle only. The provincial government is the only legal seller of alcoholic drinks. The electoral riding of New Westminster has beseeched the British Columbia Cabinet to find some way for dispensation of beer there. The merchants of New Westminster, a city 12 miles west of Vancouver, complained that it drove people to the latter city and they did all their trading away from home. The order decreed that any of the eight ridings in the province shall vote on beer whenever forty per cent. of the registered voters petition for an election.

## Keep Children Well During Hot Weather

Every mother knows how fatal the summer months are to small children. Cholera infantum, diarrhoea, colic and stomach troubles are rife at this time and often a precious little life is lost after only a few hours' illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through.

They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet, "Care of the Baby in Health and Sickness," will be sent free to any mother on request.

## On The Road To Nelson

(1) A Canadian Pacific Lake Steamship plying between Nelson and Kaslo on the British Columbia lake district. (2) "The Canyon" near South Slokan on the Kootenay River. (3) Bonnington Falls. (4) "The Pool" near Nelson on the Kootenay Lakes, B.C.

On the road to Nelson, whether one enters from the east or west, new beauties charm the eye at every step. Morning pines and fir trees cast their shadows along sunny roads, while wayside flowers gladden the eye. Even in winter, it is equally picturesque, when snow crystals adorn the trees and shrubs, with flowery jewels, their shadows casting strange pictures across the soft snow covering the sleeping earth. For winter in the mountains of British Columbia is a season of joyous sport and out of door life! Along the way, as the Kootenay makes its downward dash to the Columbia, appear falls and rapids. Two of these are utilized for electric power, by the West Kootenay Power and Light Company, which distributes power for three hundred miles, and the City of Nelson power company, which provides its citizens with heat and light and power from this source. Beyond another of these rapids is the famous fishing ground, known as Slokan pool, where fishermen from all over the world have tried their luck through dark and sunny days. While the fishing may take time and patience, if the season or the bait is not just right, not so the scenery, for the beauty of the entire riverside may be seen from the car window when passing between Nelson and Castlegar, whence two routes are provided to the Pacific coast. —Mrs. W. Garland Foster.
