ALBERTA HELD CENTRE OF STAGE

Province Was in the Limelight at Dry Farming Congress in Billings, Montana. "Alberta was well to the fore at all times," said George Harcourt, deputy minister of agriculture, this morning on his return from Billings, Montana, where he went a week ago last Friday to attend the Fourth International Dry Farming Congress.

The province has taken advantage of a good opportunity to advertise itself among people who as yet know comparatively little of the possibilities which agriculture holds out to the farmer in this province.

There were between 2,500 and 3,000 delegates present from all the inter-mountain and trans-Mississippi states as far south as Texas. The international character of the convention was shown in that there were present twenty-three delegates from Alberta, two from Saskatchewan, several from Mexico, one from Germany, two from Hungary, one from Russia, one from Turkey and Dr. Aronshau, agronomist and agricultural explorer, of Palestine, who gave a very instructive address on the specimens of wild wheat found in the Holy Land.

Among the Alberta delegates were: George Harcourt, deputy minister of agriculture; D. W. Warner, Clover Bar; W. H. Fairfield, superintendent of Lacombe experimental farm; G. M. Hatch, W. Henderson, E. W. Downer, E. Adams, G. C. McDonald, C. R. Daniels, A. D. Austin, James Milligan, H. E. Mielch, Wm. Oliver and W. McNeche, Lethbridge; S. M. Wolf, Wm. Pilling and Thomas H. Wolford, of Cardston; Hugh McIntosh and E. Hooper, of Macleod; C. S. Deale, of Claresholm; G. C. Miller and J. Irvine, of Taber; W. C. McKillop, of Calgary, and Mr. and Mrs. Sayre, of Calgary.

The Saskatchewan representatives were Hon. W. R. Motherwell, commissioner of agriculture, and John Bracken, superintendent of agriculture, Wyoming, last week. Alberta's representation was only two, W. H. Fairfield and D. W. Warner. The special train organized by the Lethbridge Board of Trade, which was the province to Alberta.

As an indication of the prominence which was given to the presence of the Alberta delegates, Mr. Harcourt said that he, as vice president for Alberta on the congress board, was called upon at the opening of the exposition for an address. He was the only delegate who had an opportunity to reply to the address of welcome given by the convention.

Mr. Magrath's opinion. Mr. Magrath declared that within the next few years either a climax must come in Europe, as a result of the enormous expenditures on armaments, or by some means the nations must recede from their ruinous policy. British naval supremacy would be maintained in the interests of the peace of the world and Canada could give the best help by a money contribution of say ten million dollars per annum, to be returned in ships to Canada at some future date, should the Dominion then desire to acquire a fleet.

Development of waterways. Mr. Magrath spoke of the development of Western Canada, in which the Dominion government might with advantage spend money, which would otherwise be wasted in naval experiments. Mr. Magrath's speech met with enthusiastic approval and at the close of his address a unanimous vote of confidence was passed by the members of this riding on the stand he has taken.

Medicine Hat, Alta., Nov. 1.—At the annual meeting of the Medicine Hat Conservative Association, held in Scott's Hall this evening, short speeches were made by C. A. Magrath, M.P. for Medicine Hat, and John Herron, M.P. for Southern Alberta.

Mr. Herron declared himself emphatically opposed to the proposed Canadian navy, which would be nothing more than an expensive luxury and a little ability to equip a fleet of a few battleships.

Mr. Magrath declared that within the next few years either a climax must come in Europe, as a result of the enormous expenditures on armaments, or by some means the nations must recede from their ruinous policy.

ENGLAND FACING CRITICAL PERIOD

T. P. O'Connor Fears Result of Possible Rejection of Budget by House of Lords. Chicago, Ill., Nov. 2.—"If the House of Lords rejects the budget the situation in Great Britain will be very much strained. In fact, England is now facing one of the most critical periods in her history."

T. P. O'Connor, the famous Irish member of parliament, made this statement last night when driving from the Union station to the residence of Medill McCormick, where he was a guest of honor at a dinner.

Mr. O'Connor said that his action in the present crisis will have very much to do with its future power.

Lords Will Be Shorn. "Reject the budget and the House of Lords will find itself shorn of its present power. There will almost immediately follow a general election in Ireland, when we will increase our Irish representatives from 11 to 18 members."

Expressing the greatest satisfaction and pleasure with the reception thus far accorded him in this country, Mr. O'Connor said that \$15,000 has already been subscribed for Ireland and his intended stay of two weeks probably will have to be extended to seven or eight weeks in order to visit a few other cities to which he has been invited.

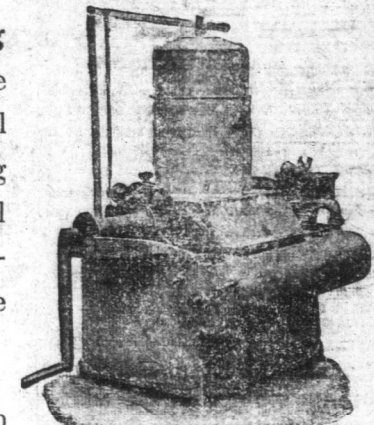

O'Connor's late arrival at a reception scheduled to be held at the Congress Hotel was abandoned. Addressing the guests at a dinner in his honor at the McCormick residence late in the evening, Mr. O'Connor said:

"Ireland's Chance Now. "I remember once when I was a boy, forty years ago, that a man came over to within ten miles of my home and seized 30,000 acres of land. But now, Ireland, by their own actions, are the owners of many thousands of acres of soil, and within ten or fifteen years the name of landlord in Ireland will have a strange, exciting sound."

"All of this has been brought about by the energy of the Irish people. They have already succeeded in almost every project save that of Home Rule, and today they have a better chance of Home Rule than ever before."

MORINVILLE HAS A PROBLEM.

Editor Bulletin. Sir,—Will you kindly allow me a little space in your paper in order that I may bring before the ratepayers of Morinville a condition of affairs which is an unsound financial as it is a social one.

It has come to my notice that the council is making endeavors to secure authority to borrow the sum of \$2,000, ostensibly to pay off old debts, and that this money will be used for the purpose of paying off old debts, and no banking institution would for a moment consider such a transaction.
