Disgraceful Arrangements.

Yesterday we commented on the refusal of the authorities to allow candidates to appoint agents to watch ballot boxes while they were being carried from the polling booth to the Returning Officer at the place of count. We think such a precaution is only fair to the candidates in all cases, but more particularly in the case of the boxes in St. John's which have to be transferred to the outposts. We applied for permission for a candidate to go on the special train to Trinity in order to be in time for the count, and we were refused. Such a precaution as we have mentioned, becomes all the more necessary in view of the casual manner in which the ballot boxes are being collected in the Twillingate, Fortune and Burgeo Districts. We are now writing on Thursday morning, a week after Polling Day, and there is no information to hand yet that the boxes have been collected in these districts. In Twillingate District there are two steamers, and in face of this the Daily News, this morning, publishes the information that yesterday "the motor boat collecting the ballot boxes, was 'broken down' at Pilley's Island, with 32 boxes on board, and that it was impossible for the motor boat to complete the work." There are delays of a similar duration in Fortune Bay, Burgeo and St. Barbe. Yet in spite

of these delays, candidates are refused the means of watching ballot boxes. The arrangements made by the Government for the collection of these boxes, are disgraceful and deserve the strongest censure. It is an outrage that the arrangements should be so defective that on a Thursday morning after a Polling Day on the Thursday of the week previous, that a Government newspaper should be forced to announce these counts still delayed, coupled with the mild hope that the counts should be taken up during the day, but still unable to announce that the ballot boxes have been collected.

Pogie Fishers Make big Wages.

Twenty young men, belonging to various outlying settlements of St. John's East, who had been pogie fishing outside of Boston and New York, returned home to-day by the Stephano. These men met with much success the past summer and made remunerative wages. Pogie fishing is becoming more popular and profitable each year and quite a contingent of our St. John's fisher folks go abroad to engage in it.

Political Talk.

There is no end of worry that Sir Edward is being caused over the filling of the departmental offices. If Sir Edward has a majority when all the counts and accounts are squared up, it is said, he will take the portfolio of Minister of Justice himself.

The latest political rumor is that there is close competition on the Tory ranks for Minister of Agriculture and Mines. The competitors are various and several of the disappointed ones will get disgruntled and make a row in the camp. The announcement of Sir Edward's choice to fill this office will be awaited with much interest.

The Count.

Three days have elapsed since the count was discontinued and up to press hour to-day there were no results received of Fortune, Twillingate, Burgeo and St. Barbe. It is advanced that the work of collecting the ballot boxes was interrupted by stormy weather, but it must be remembered that the S.S. Fortis, which is collecting the Burgeo and LaPelle boxes this afternoon, finished picking up the Fortune Bay ballot boxes last evening and it is only reasonable to expect that the count for that district should have commenced hours ago.

Dray Collides With Express.

As Mr. Andrew McDonald of Kilbride, was driving to town this morning, in his express wagon with a load of vegetables, he met with an accident, and barely escaped serious injury. When opposite Callahan's grocery store, at the foot of Patrick Street, a horse, with dray attached, belonging to the Royal Stores, suddenly took charge of the driver, with the result that before anything could be done to avert a collision, the dray crashed into McDonald's wagon smashing it completely. Fortunately neither of the drivers were hurt, but Mr. McDonald had a very narrow escape.

The dray was considerably damaged, and the wagon is now at N. J. Murphy the wheelwright's for extensive repairs.

Killed in Chicago

Mr. J. B. Mitchell, Commission Agent, has received a message conveying the sad intelligence that his brother-in-law, Mr. Henry Wilson, who was a Commercial Traveller, accidentally fell from a train in Chicago city and was crushed to death. Although terribly mangled he lived for five hours after the train went over him. Deceased was a man, married, and leaves a widow and two children to survive. Three years ago he was here on a visit with his family.

Your Duty.

Nothing to do with the Custom House, good friend. Its only reference just now is to yourself. Let us suppose that you are a man of family, with sufficient of the world's goods to keep them in comfort. Very well. You did not reach this satisfactory state of affairs without care and labour—few men do. Suppose you are awakened some night with shouts of alarm ringing in your ears. Too late then to talk of prudence; too late then to say, "If I had only, etc., etc." That "If" means too much to many forgetful people. Is it not always the duty of a self-respecting citizen to protect his home and thus provide for those within it. Is it any more then his duty to those depending on him to protect them as far as possible? Can you call your property your own when it is not insured? The answer to this argument is to carry insurance with Percie Johnson's agency, the most popular office in Newfoundland and the least expensive.

Steamer on Fire.

BURNT TO WATER'S EDGE.
Deputy Minister of Customs LeMesurier received a message to-day to the effect that the refrigerating steamer Alcona, at Wood's Island, caught fire last night and is still burning. She is burnt to the water's edge from the foremast to the taffrail aft. The crew saved their belongings but the captain and officers lost all they possessed on board. The fire is supposed to have started in the engine room of the vessel.

TAKEN TO ASYLUM.—A young lady of Mullock Street, who until recently was working in one of the principal Water St. stores, was taken to the Asylum this morning suffering from mental derangement. She was working up to last Saturday, and showed no symptoms in that direction. The deepest sympathy is felt for her friends.

Morison or Squires?

Yesterday we published a rumor that was current, to the effect that Mr. J. S. Currie would retire from Burin to give an opening to Mr. Squires, to go there as Minister of Justice. The Daily News characterizes the rumor as "obviously a merely wild conjecture," and the editor intimates that Mr. Currie "too highly appreciates the honor conferred upon him to fail in his duty to his constituents." The inference from this declaration of the Morison organ is also obvious, and it is that the Morison organ considers that Mr. Currie would fail in his duty to his constituents should he retire to give an opening to Mr. Squires to go there as Minister of Justice. Mr. Morison is at present Minister of Justice, but he is without a constituency.

DON'T WAIT.

During changeable weather in Spring and Fall thousands of children contract Sore Throats as result of exposure, getting feet wet, etc. A neglected sore throat is likely to develop into Tonsillitis, Quinsy, Diphtheria, or a chronic state of Rheumatism that will impair hearing. Often operations on the Tonsils become necessary because a simple sore throat is neglected. Stafford's Phoradone is the best preparation known for all sore throat troubles.

To Dr. Stafford & Son, St. John's, Newfoundland.

Dear Sirs,—I received the medicine you sent me for my child. I thank you very much for sending it so quick and believe it had just arrived in time to save my child as he was nearly gone. After giving the child a few doses, it completely cured him and now he is as well and hearty as a child can be. It was genuine medicine for that complaint.
Wishing you prosperity,
Yours truly,
Signed.....
