STATEMENTS DEFERRED.

LONDON, Oct. 12. The statement by Sir Edward Grey, Foreign Secretary, on the Balkan situation, was not made to-day in the Commons. It is deferred until Thursday. Asquith announced that he was unable to give the decision of the Government on the subject of re-appointing Herbert Samuel, Postmaster General, advised abandonment of the proposal to abolish halfpenny postage.

THE LOAN BILL PASSES.

LONDON, Oct. 12. The Bill authorizing the loan which has been negotiated in the States, passed all its stages in the Commons to-day. In the course of the debate there was some criticism of the rate of interest. John Dillon supporting the terms, declared that the success of the loan was an index to popular sentiment in America toward the Allies. It was a business transaction, but more than that, he said, and six, seven or eight per cent. would not have succeeded in obtaining the money, if it had not been for the deep wave of sympathy in America in favor of the Allies. It would therefore, be a mistake to criticize the loan, to which we are now committed, as if the people of the States had taken advantage of our necessities. Sir Henry Dalziel thought Dillon's interpretation of criticism of the loan unjustified. We are all one in our sentiments towards the American people, he said, based on financial considerations alone. The loan, said McKenna, is for the purpose of paying our trade debt and maintaining our exchange with the States. Our imports from North America have largely increased since the beginning of the war, and our exports have diminished. The increase in imports for the first six months of 1915, excluding Government supplies, not included in the Customs returns amounted to £58,500,000. The reduction of exports during the same period to £12,000,000, thus making an adverse balance of £70,500,000. Some relief for this balance against us may be obtained by the sale of American securities held in this country. Every effort has been made to obtain relief from this source, but in itself this will be insufficient. We should not be doing our duty, continued McKenna, if we neglected to take other means for maintaining the normal level of exchange. I am sure this House will desire to express thanks to the Commission. Its members have accomplished their task with skill and success. The American people are not accustomed to large external loans. I believe this is the first of any magnitude in the whole history of the States. We must not overlook the fact that there are many crosses of opinion in that country. Although the transaction is purely for the purposes of meeting liabilities already incurred, no little opposition was raised by some parties whose sympathies were not on the side of the Allies. I hope the existence of these parties will not be overlooked during the debate, and that care will be taken to avoid the use of any language that might be twisted by the hostile element to its advantage, and to the detriment of the Allies. The loan is a trade transaction, its terms are fair and reasonable. I confidently recommend its acceptance by the House.

"CAN YOU AFFORD TO TAKE CHANCES?"

A little cold may not seem a dangerous thing—you may feel inclined to let it go on hoping that to-morrow it will be better—but can you afford to take chances? Just as the little insignificant acorn grows if let alone, the mighty giant oak, that though if not stopped may grow to a very serious illness. When a cough starts there's no telling where it will end. You know no doubt, of cases right among people you have known where serious complications and fatal illnesses have had their start from a neglected cough or cold. It is dangerous—so the big thing is to find a reliable remedy—one that will give you quick, satisfactory relief. There are many treatments that are recommended for a cough or cold but "STAFFORD'S PHORATONE COUGH AND COLD CURE" is recommended to be the safest, surest and most satisfactory way to cure a cold, grippe, etc.

Price 25 cts.; Postage 5 cts. extra. Prepared only by DR. F. STAFFORD & SON, St. John's Nfld. Manufacturers of 3 Specialties: Stafford's Liniment, Stafford's Prescription "A," Stafford's Phoratone Cough & Cold Cure.

BRITISH SUCCESS.

LONDON, Oct. 12. Another success of the British arms in Kamerun, the German colony in Western Africa, where the allied troops have been fighting the Germans for several months, was officially announced to-day. The statement says: "Wumbagas, in the Kamerun, was captured by the British forces after a 30 hours engagement on Oct. 9th. The enemy in considerable numbers, is being pursued. The last previous British report of the campaign in Kamerun was on Sept. 2nd, when a German defeat near Gashama was reported. The Germans were then said to be retreating."

ARMENIAN ATROCITIES.

LONDON, Oct. 12. A bill authorizing the loan which has been arranged in the United States, was introduced into the Commons to-day by Mr. McKenna, who defended it as fair and reasonable, the terms of the loan, arranged by the Commission. He said the true value of these terms could be estimated only by comparing them with the rate of interest paid in this country. Deducting accrued interest, he remarked that the British 4 1/2 per cent. loan now stands at 98 1/2%. As American underwriters have been fighting the loan, it is argued that Britain is paying one half of one per cent. more than the market rate. All information in possession of the British Government on the subject of massacres and deportations of Armenians by Turkey, was made public by the Marquis of Crewe, in his recent speech in the Lords. Sir Edward Grey told the Commons this afternoon. There can be but one feeling of horror and indignation about it, the Foreign Secretary added.

SUCCESSFUL RAID.

AMSTERDAM, Oct. 12. Despatches state that the recent raid by allied aviators on Ghent and the neighboring town of Genève, was so successful that not a single hangar on the German aviation grounds was left standing. All of

AUSTRIAN CITY ABOUT TO FALL.

GENEVA, Oct. 12. The Austrian city of Gorizia, twenty miles northwest of Trieste, is about to fall, according to a telegram received here to-day, from Brezicia. The Italians, the despatch says, have brought up a large number of heavy guns, and are bombarding the town from five different points. At the same time the Italians are attacking the inner defences of Tolmino, while on the Carso the Austrians are said to have been forced to abandon several miles of trenches. Heavy snows in the Carnic Alps are reported to have buried the Austrian gun positions in deep drifts.

PREMIER VIVIANI'S STATEMENT.

PARIS, Oct. 12. In addressing the Chamber of Deputies to-day, Premier Viviani said Russian troops to-morrow would be fighting alongside the French and British troops in the Balkans. SEMENDRIA CAPTURED.

BERLIN, Oct. 12. The War Office announced to-day that both the town and fortress of Semendria were captured yesterday.

BULGARIA DOES NOT DESIRE WAR.

SOFIA, Oct. 12. General Jecoff, the Bulgarian Minister of War, who has just been appointed Commander-in-Chief of the Bulgarian forces, said to-day in a statement to representatives of the foreign press, that Bulgaria does not desire war. We mobilized only when the Serbians, instead of giving up Macedonia, concentrated troops on the Bulgarian frontier. Instead of compelling the Serbians to adopt a compliant attitude, the Quadruple Entente presented an ultimatum to Bulgaria, demanding an immediate breach with the Central Powers. This would have meant suicide to us.

BULGARIAN MINISTER DISMISSED.

LONDON, Oct. 12. The following official announcement was issued to-night: His Majesty's Government announces that the Bulgarian Minister has been handed his passports. Diplomatic relations between Britain and Bulgaria are broken off.

PREMIER ZAIMIS' REPLY.

NOTE TO GERMANY.

WASHINGTON, Oct. 12. In a note despatched to Germany

CONSTIPATENTS

Read This—

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning. The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 60c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

What Dyspeptics Should Eat

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, should try a meal of any food of foods in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and antacid known. It has direct action on the stomach; by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than eat possibly done by any drug but get rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal, take some of the bisurated magnesia as directed above, and note remarkable results.

WET WEATHER.

The rain still falls, whenever it can, and breaks the heart of modern man. The rain-drops slug me in the eye, and from my whiskers wash the dye, t h e y spoil the colors of my shirt, and still they splash and drop a n d drop and squirt! One fact keeps running in my brain—that people used to pray for rain! The streets are running ankle deep, and in the basement waletlets creep; the roof is leaking, and the walls are dripping, as the torrent falls. The water streams adown the pane—and people used to pray for rain! The windows in their frames are jammed, and can't be raised and can't be slammed; the doors won't shut, or, if they will, they stick like beeswax to the sill, and one must find a crowbar, then, if he would open them again! Such weather gives a man a pain; and people used to pray for rain. I bless the weather man, his luck; the drawers in all my desks are stuck; the grass is drowned upon the lawn, the flowers to sailors' graves have gone. One fact is driving me insane: The people used to pray for rain!
