The Subject of Closing the Canadian Exhibition at the Paris Exposition Brought Up-Bills Dealt With.

Ottawa, May 10 .- This afternoon Mr. John Charlton brought to the attention of the house the subject of closing the Canadian exhibit at the Paris Exposition on Sunday, and the minister of agriculture stated in reply that efforts had been made by the government in that direction, but so far without success. Mr. Taylor complained that a Canadian had been deported from Ogdensburg, N. Y., and Sir Wil-frid Laurier, in reply, stated that the grievance complained of arose from an abuse rather than the enforcement of the alien labor law, and might form the subject of diplomatic representations to the United States Government. The remainder of the day was spent in dis-cussing various government bills.

The papers relating to the steamer J. Barr were, at the request of Sir Charles Tupper, ordered to be printed.

Mr. Fielding introduced a bill from the senate to amend the loan com-

Sir Wilfrid Laurier, in moving that government business take precedence of general business on Mondays, said he did not anticipate any opposition to the motion at this stage of the session. On Monday last the order paper was cleared of private members' business with the exception of the prohibition resolution, for the consideration of which the government would give a

day.
The motion carried. The motion carried.

Mr. Charlton, referring to a dispatch announcing that the Canadian exhibit at the Paris Exposition was to be opened on Sunday, notwithstanding the protest of the Canadian Government, and that the United States exhibit was the only one that was closed on Sunday, inquired as to the character of the protest entered by the authorities of the Dominiom to the imperial authorities against the Canadian exhibit being opened on Sunday. He also asked why

opened on Sunday. He also asked why their protests were ineffectual, while those of the United States were apparently effectual; also whether the jurisdiction of the French authorities was the same in the case of the United States exhibit as in the case of the Canadian and imperial exhibits.

Mr. Fisher, in reply, said when the Paris Exposition was first proposed the Canadian Government took steps to find out whether it would be open on Sundays or not, and the first commissioner who went from Canada was instructed to obtain this information. The Canadian Government had, he explained, no power to act in connection plained, no power to act in connection with the exposition, but could only make its desires known through the British commissioners. An intimation was given that Canada desired that her exhibit should not be open to the public on Sunday, but the imperial commissioner reported that he found it impossible to secure that privilege. Another communication had been sent through Lord Strathcona, requesting that the desire of Canada be granted. that the desire of Canada be granted, but no definite reply had been received. Mr. Fisher said he had received a communication from Mr. Tarte stating that the British commission had decided that the British exhibit should be open on Sunday, and they could not undertake to make any distinction in the case of the Canadian exhibit. Fisher said he certainly had no information to show him that the United States exhibits were closed on Sunday, and the letter received yesterday, led him to believe that all exhibits would be open on Sundays.

Mr. Fisher's bill respecting the incorporation of live stock associations was passed through committee. provides for the establishment of Dominion herd books, as the United States will not recognize provincial

The bill introduced by Mr. Fisher to provide for the marking and inspecting of packages of apples' and fruits for export was taken up in committee and progress reported. The house adjourned at 12:45 a.m.

WHAT IS

is the question on the lips of many who are hearing of the wonderful cures brought about by this great restorative.

For a comprehensive answer to this question you must ask the scores of thousands of cured ones in Canada and the United States, who have test-ed and proven the merits of Dr. Chase's Nerve Food—the famous blood and nerve restorer. Ask the pale, weak, nervous, irritable and despondent women who have found new health, new hope and new vitality by its use.

Ask the overworked and worn-out

men, sufferers from brain-fag, nervous dyspepsia and nervous headache, who have felt new energy and vigor return to their bodies while using this famous treatment

Ask the puny, sickly children who have been made healthy and robust by using this prince of restoratives.

Ask people of all ages how they rescued from nervous prostration, paralysis, locomotor ataxia, epi-lepsy. They may tell you of doctors failing, of medicines taken in vain, but one and all point to Dr. Chase's Nerve Food as the only hope of persons with thin, watery blood and ex-

hausted nerves. In appearance Dr. Chase's Nerve Food is an oval, chocolated-coated pill. It is easy to carry and easy to take. In this condensed form it contains all of nature's most strengthening and invigorating tonics and restoratives, and for this reason it is unapproached

and for this reason it is unapproached as a blood-builder for spring.

Dr. Chase's Nerve Food cures naturally and permanently by the building-up process. If used regularly and persistently it cannot fail to make the blood rich and life-sustaining, and to reconstruct the tissues of the body wasted by disease, overwork or worry. E. M. Teachers.

At yesterday afternoon's session of the East Middlesex Teachers' Association, Mr. John Dearness gave an interesting address. "Prospective and Retrospective." He expressed his pleasure at finding himself in his old surroundings. His connection with the East Middlesex Teachers' Association pioneer work in the educational field. Under its stimulation the first public kindergarten west of Hamilton was established, viz., in school section No. Westminster, then called New Brighton. At one of its meetings it gave the first exhibition in this city of the use of the telephone. Mr. Bell was present, and holders of reserved seats in the association hall, listened to a short concert given in the ffecumseh House. After a brief review of the chief legislative changes favorable and otherwise, which have been made, he reviewed the differences in conditions "then and now." Among these were the increased attention now paid to young pupils, the more rational and less rote methods of teaching, particularly in view of the increased cost of entering and remaining in the profession, and referred to intangible, but none the less real rewards that await the faithful teacher. At the morning session today, Mr. Dale gave an interesting address on

SUFFERING WOMEN

Who find life a burden, can have health and strength again by using Milburn's Heart and Nerve Pills.

The present generation of women and girls have more than their share of pain and misery. With some it's heart palpitation, nervousness and sleeplessness, with others anaemia, dyspepsia and constipation.

There are headaches and sidesches, weak spells and dizziness, hysteria and melancholis, and a dozen other ailments that unfit women for work or pleasure.

Let those women who suffer from any derangement of their heart or nerves, or whose blood is thin and watery, try Mil-burn's Heart and Nerve Pills. They will do as much for them as they did for Mrs. W. Barnes. West Gravenhurst, Ont., who wrote the following account of her case: "Some time ago I was very ill and did not know what to do for myself. I was

weak and tired all the time and frequently had a sensation of smothering, when everything would turn black before me and I would nearly lose consciousness. I got so bad at last that life was a burden

One day I received a book telling about Milburn's Heart and Nerve Pills, and

thought I would try a box. By the time that box of pills was finished I was like a new woman. I had regained my strength, my heart beat naturally and regularly and from that day, which is over a year ago, to this I have had splendid health."

Statement Wickham, Queen's County, N. B., May 7.-Mr. G. L. Worden, commissioner of the civil courts here, is emphatic in his indorsation of the great medicine, Dodd's Kidney Pills.

"Dodd's Kidney Pills," he says, "have been a wonder and surprise to myself. After over twenty years of suffering with my back and kidneys I am well. Not the least painful part of my trouble was the pain, frequency and poor success in urinating. using Dodd's Kidney Pills I enjoy the natural, comfortable feeling in the particulars above referred to. I feel like a young man, though 76 years of age. I recommend Dodd's Kidney Pills to sufferers, as they do as they are advertised to do."

Nature Has Provided

A remedy for every ache and pain, and science, through ceaseless activity and experiments constantly wresting the secrets of her domain. A new and wonderful discovery has recently been made by means of which tens of thousands will be freed from pain. Nerviline, or nerve pain cure, represents in very concentrated form the most potent pain relieving substitute known to medical science, and, strange to sav, it is composed of substances solely vegetable in origin. Polson's Nerviline is the most prompt, certain and pleasant pain remedy in the world. Sold in 10 and 25 cent bottles by all dealers in medicine.
