ASSISTING IMMIGRANTS

Tents With Provisions Scattered Throughout the West.

Montreal, March 23.—How to take care of all the immigrants likely to reach Canada this year is a matter of no small consideration to the officials of the immigration branch of the department of the interior. But it seems that already much attention has been given to this matter, and that ample provision will be made. Hon. Clifford Sifton, Minister of the Interior, in his way to England, said that tents would be provided throughout the Northwest, stationed 20 miles apart, to be used as storehouses for provisions, etc. Speaking of the difficulties experienced, owing to the newcomers wishing to settle in colonies, as it were, Mr. Sifton said: "We certainly should have preferred the new-comers to be scattered throughout the Northwest, so that they might receive the benefit of the experience of their neighbors, but the demand for opportunity to settle in one locality was so insistent that it could not well be refused."

RATS ATTACK A BABY

Scores of Them Swarm Over the Crib—Child May Die.

New York, March 23.—Scores of hungry rats attacked a infant sleeping in its crib Monday. The child was the baby boy of Mrs. Sarah Stretch, who lives on the top floor of the apartment house at No. 39 Degraw street, Brooklyn.

She left him asleep and entered an adjoining room. The screams of the child sent her flying back. On the crib was a swarm of rats, some of them as large as a half-grown kitten. One of them was gnawing at the child's left forefinger, the end of which had been badly chewed. Its face, too, bore teeth marks. They fled when the mother ran up. She called Policeman Maguire, who had the child taken to the City Island College Hospital. The surgeons there said blood poisoning might appear. They had little faith of saving the little one's life.

MR. CASSIDY SPEAKS.

Well-Known Ottawa Man Tells How Dodd's Kidney Pills Cured Him of Stone in the Kidney.

Ottawa, March 23.—Mr. S. A. Cassidy, the genial proprietor of the Bijou Hotel, on Metcalfe street, is one of the best known and most popular men in the capital. A good word from "Sam" goes a long way in this city, and consequently his experience with Dodd's Kidney Pills is well worth repeating. "My friends all know," says Mr. Cassidy, "that I have been a martyr to stone in the kidney. They know that though I consulted the best physicians in the city and tried every medicine I could think of, I was unable to get better. Some time ago a friend told me that Dodd's Kidney Pills would cure me. As a last resort I tried them and they have cured me."

DEATH OF JOHN WARDLAW

He Was One of Galt's Oldest Manufacturers.

Galt, March 23.—One of Galt's oldest manufacturers passed away Monday, at his residence here, in the person of John Wardlaw, who was one of the best-known woolen yarn manufacturers in Canada. A native of Scotland, he came to this country in 1853, settled in Galt and established a yarn manufacturing, which he carried on till about fifteen years ago, since which time he has been a wool broker. His wife survives him, together with a family of four: Dr. J. S. Wardlaw, medical health officer, Galt; Mr. Thomas D. Wardlaw, Toronto; Dr. Henry Wardlaw, San Francisco, and Miss Wardlaw, at home.

Metal Workers' Strike.

Chicago, March 23.—A general strike of the building trades was ordered by the advisory board of the building trades Monday on all structures on which members of the International Association of Sheet Metal Workers are employed. This step was taken to support 500 sheet metal workers who went on strike March 19 because the Sheet Metal Contractors' Association had signed an agreement with another union.

Laxative Bromo Quinine
Cures a Cold in One Day, Grip in 2 Days

BROCK OBJECTS TO MINT

His Motion to Strike Out the Vote Defeated.

Ottawa, March 23.—The greater part of yesterday was spent by the House of Commons in Committee of Supply. Hon. William Paterson announced that owing to the increase of business in the Department of Customs, arising out of the growth of trade, which in six months now amounts to as much as it was a few years ago for the whole year, the position of Assistant Commissioner of Customs is to be re-established. He volunteered further information that he intended recommending Mr. John Bain as the new Assistant Commissioner. Mr. W. B. Brock, against the wishes of Hon. John Haggart, who was leading the Opposition, moved to strike out the item of \$50,000 on account of the cost of erecting a branch of the royal mint at Ottawa. The amendment was lost by 47 to 6, as many members of the Opposition voted in support of Mr. Brock's amendment.

CANCER OF THE LIP

Successfully Treated by the New Constitutional Remedy Without the Need of Knife or Plaster.

Cancer of the lip is often spoken of as "Smokers' Cancer," due to the frequency with which it attacks habitual users of the pipe. The disease usually starts as a crack or ulcer and spreads until it affects the surface of the lip, and often extends to the jawbone. Cutting the cancer away or drawing it out with the use of caustic is a method of treatment that has been in vogue for generations, and while painful in the extreme does not effect a cure, as the disease soon returns. The only safe, painless and permanent cure is to be found in our constitutional treatment, which rids the system of all cancer germs and poisons, promotes the absorption of the lymphatic glands and causes healthy flesh to form in place of the sore. Send 2 stamps for full particulars to A. STOTT & JURY, BOWMANVILLE, ONT.

CHESS BY WIRELESS

A Novel Experience by Trans-Atlantic Travelers.

New York, March 23.—H. Hier Davies, the advance agent, so to speak, of Sir Thomas Lipton, arrived here Monday on the Atlantic transport, the *Edith Davies*, slender, smooth shaven and agreeable in manner. When seen at the Waldorf-Astoria, he said: "There is little I can tell you now. I have been sent here on special business by Sir Thomas Lipton and cannot speak in detail. The yachting expert will follow later." "Sir Thomas will follow on one of the regular liners." "On my voyage over I enjoyed an experience that was new to me. With Capt. Kennedy, a Fellow of the Royal Geographical Society, as a fellow-voyager, I played a game of chess over the Marconi wireless with two passengers on the Atlantic transport, the *Edith Davies*. I do not know their names. "We communicated with the Minnetonka when she was 50 miles off at 3 p.m., last Monday. The captain gave us permission to arrange a chess game if we could, and at 3:30 we began to play. The game lasted until 11 o'clock that night, when they beat us on the 72nd move. I made the first ten moves. "Once ten minutes elapsed between moves, but most of the moves were made inside of three minutes. The game took place inside the Marconi signaling house. Some of our passengers lost money in wagers on our playing. I am sorry for that."

Bible Sells for \$3,050.

London, March 23.—One of the rarest Bibles in existence was sold at Sotheby's Monday for £310. It is in three volumes, in splendid Anglo-Norman manuscript, written on vellum and richly illuminated. It was produced early in the thirteenth century.

Fighting in Bulgaria.

London, March 23.—The Sofia correspondent says that according to a telegram from Rila monastery a conflict has occurred between the Bulgarian gendarmes and a revolutionary band which was attempting to cross the frontier. Fifteen armed men were captured.

DON'T MISS MRS. ED. BURDICK CROSS-EXAMINED THEM.

BAYLEY'S

NICARAGUA'S TURN

Is the Latest South American Republic to Have Revolution.

Panama, Colombia, March 23.—Advices received here yesterday confirm the reports that a revolutionary outbreak has occurred in Nicaragua. Several departments of the republic are said to be affected, but no definite news is obtainable here. Only Government cable messages are allowed to leave Nicaragua. The following cable message has been received from Nicaragua: "Campo de Marte, March 24.—Public order has been disturbed in the department of Chinotales (east of Lake Nicaragua), but the Government has sent sufficient forces to crush the movement. Peace reigns throughout the rest of the republic. (Signed) Zeledón." It appears that the Nicaraguan Government has been expecting a revolution for some time past. Nicaragua refugees who have arrived here believe that revolutionists have captured Bluefields.

FOURTEEN WERE KILLED

In the Rioting at the Port-of-Spain, Trinidad.

Port-of-Spain, Island of Trinidad, March 23.—Fourteen natives were killed and forty wounded during yesterday's rioting. Quiet has been restored. The Government building was entirely destroyed by the rioters, and the police barracks were damaged by fire and water. All the Government records were destroyed. The blue-jackets services in patrolling the streets and guarding public buildings. Volunteers have been called on to help maintain order. It is said that no further rioting has occurred, although intense excitement prevails among the inhabitants.

Bloody Labor Fight.

Oxnard, Cal., March 23.—Two hundred shots were exchanged Monday in a labor fight between Japanese and Mexicans. The trouble arose over an attempt of union laborers to put a union sign on a wagon occupied by non-union men. Perfecto Ogas and Vasquez will die of pistol wounds. The Japanese and Mexicans were also shot. Six hundred Japanese and 400 Mexicans are on the verge of a bloody fight. The men are connected with the beet sugar industry.

Curious Court Case.

Chicago, March 23.—A dispatch to the Tribune from Mount Vernon, Ill., says: The Illinois appellate court for the fourth district, has decided that when a man is sent to prison for the murder of his wife, his children are entitled to the insurance on the life of the murdered woman, even if it was made out in favor of the wife. This is said to be a point of law never heretofore raised or passed upon by the supreme court or either of the appellate courts of this or any other state.

SPRING AILMENTS.

The Blood Needs Attention at This Season—Purgatives Should Be Avoided.

Spring is the season when your system needs toning up. In the spring you must have new blood, just as the trees must have new sap. With new blood you will feel sprightly, happy and healthy. Many people take purgatives in spring, but this is a serious mistake. The tendency of all purgatives is to further weaken the system. The one and only sure way to get new blood and new strength is to take Dr. Williams' Pink Pills. They actually make new, rich, red blood—they are the greatest spring tonic in the world. Dr. Williams' Pink Pills speedily banish all spring ailments. Miss Belle Coloon, White Rock Mills, N. S., says: "I have found Dr. Williams' Pink Pills a splendid spring medicine. I was very much run down; the least exertion exhausted me and I had a constant feeling of languor and sluggishness. My appetite failed me and my sleep at night was disturbed and restless. After I began the use of Dr. Williams' Pink Pills there was a speedy change for the better, and after taking a few boxes I felt stronger than I had done for years."

Lindsay Brewery Burned.

Lindsay, Ont., March 23.—Early on Tuesday the Lindsay brewery was destroyed by fire. For the last two or three years the brewery had been the hands of Mr. Cornell, but it was formerly owned and operated by Mr. Haslam. The cause of the fire is unknown, but it is supposed to have been incendiary, as no fire had been in the building for some days. The building was insured for \$2,000. Loss about \$1,000.

Buffalo, March 24.

Upon the resumption of the examination of Mrs. Burdick at the afternoon session she was asked: "Have you received any information as to who killed your husband?" "No, sir."

"You swear you have no knowledge or information as to who killed him?" "I do."

The answers were returned by Mrs. Burdick in a calm, clear voice. The questions came abruptly while the district attorney was drawing from Mrs. Burdick information about her relations with Arthur R. Pennell. She had denied that Pennell took her key to the front door of the Burdick home and had several duplicates made of it. The district attorney put the question regarding the key to Mrs. Burdick in a number of different forms, but she always gave the same emphatic denials that she or Pennell had ever ordered duplicate keys made or that the key had left her possession during her last exile from the home.

Mrs. Burdick was calmer and more collected while testifying. She left the stand at 4:15. To complete the examination of everyone who was in the Burdick home on the night of Feb. 26, when Edwin L. Burdick was murdered, the district attorney called to the stand the youngest Burdick children, Carol and Alice, aged respectively 13 and 10 years. The district attorney spoke kindly to the children, but questioned them closely about the events that took place in their home on the night before and the morning after the murder of their father. The children displayed no more sign of emotion than did the grandmother and mother, and the older sister, while talking about the terrible death of their father, their recollection of the happenings at the time of the tragedy were rather hazy. "I don't remember," was usually the answer they gave when the district attorney pressed them closely on any point.

Mrs. Burdick's testimony covered the week in which Burdick was murdered and the name of Arthur R. Pennell was constantly upon her lips. She trusted him implicitly in everything. The district attorney read a number of letters written to Mrs. Burdick by Pennell, in which he said life was not worth living without her and that death would not be unwelcome. She knew nothing of a document found in her safety deposit vault bonding Pennell to pay her \$25,000 in the event of his being unable to marry her. Although it was among Mrs. Burdick's private papers in the vault she claimed to have been ignorant of its existence. Mrs. Burdick declared that the last time she saw Pennell was on the Tuesday before the murder. He left her that night in Atlantic City, arriving in Buffalo Wednesday. She was informed of Mr. Burdick's death on Friday, and hastened to Buffalo. She reached her home Saturday morning. A brief note of sympathy from Pennell came to the house that day. She never heard from him or saw him between that time and the day he was killed by his automobile plunging into the stone quarry. Before leaving the house Mrs. Burdick took occasion to say in reply to questions from her attorney that nothing improper or immoral had occurred between her and Pennell, and that she was not sure if her husband was fond of the society of other women, and for some reason not quite clear said that Mrs. Pennell was quite familiar with the district attorney's office in the Burdick home.

District Attorney Coatesworth read a letter from Mrs. Pennell to Burdick, in which she pleaded with him to take Mrs. Burdick from the house that day. Pennell might commit suicide and take Mrs. Burdick with him. Mrs. Burdick said she did not know what she meant by the statement that Pennell might commit suicide and take Mrs. Burdick with him. Several other letters written by Pennell, in which he intimated suicide, were read. The district attorney said the tone of all the letters were the same, expressive of extreme unhappiness because of his separation from Mrs. Burdick, and stating that if she was not living, and he would welcome death as a relief.

At the end of the examination of Alice Burdick, the inquest was postponed until Thursday morning at 10 o'clock.

A STRIKE SETTLED

The Collingwood Trouble Ends to the Men's Advantage.

Collingwood, Ont., March 23.—The strike of 600 men at the Collingwood steel shipbuilding yards has been settled after the men have been out two weeks. The men return to work this morning at a general advance of 2 1/2 cents per hour. The general opinion is that only about one-half of the number will go back, as fully half the original strikers have found other employment. The men have behaved themselves exceedingly well, not one arrest having taken place during the time they have been out.

PHILIPPINE FRIARS

A Solution of the Unpleasant Difficulty at Hand.

Washington, D. C., March 23.—For several days secret negotiations have been going on looking to an immediate settlement of the religious questions in the Philippines. For all practical purposes the relation of the friars to the American Government were settled long ago by the refusal of the native Catholics to do with the members of the great church orders.

The question as to the ownership of the friar lands has been in process of adjustment for some time, but in the meanwhile the friars themselves have not been able to go back to the parish churches on account of the hostility of the people. The result has been that the parish churches in many cases have fallen into the hands of the newly organized Philippine church, which, of course, has no legal claims to the property.

In other classes, thousands of loyal Catholics have been forced to do without the administration of a priest.

The question at issue is whether the places of the friars should be filled by native priests, by priests from the United States or by imported delegations of Spanish and Italian priests. Understanding now has been reached that the places of the friars shall be filled either by natives or Americans, and that no more European priests shall be sent to the islands, either as members of orders or as parish pastors.

An old bachelor says that a marriage dowry is a lump of sugar intended to nullify the bitterness of the dose.

Catarrah and Bronchitis Eradicated

Contractor Ernest R. Cross. of Montreal, Was So Sick That He Could Not Walk and Was Reduced in Weight to Ninety-five Pounds.

Treated by Chicago Specialists, He Was Told He Had But Six Months to Live—Then He Resorted to Patent Medicines, But Continued to Grow Worse.

Hearing of Powley's Liquidized Ozone He Tried It—Soon He Notified a Relief in Breathing—Now He Eats Well, Sleeps Well, Works Daily, and Has Gained Thirty Pounds in Weight.

Five years ago, ago, when suffering from catarrah, a serious bronchitis, I could not walk, and I at once took steps to have it checked, employing a good physician for that purpose. I continued to grow worse and became very weak in the course of time. I had periods of severe coughing and expectoration, especially in the mornings, and from the second year of my sickness suffered much from night sweats.

I had the attention of nearly every specialist in Chicago, whose opinion was that I would not live another six months. I then fell back on patent medicines, in the vain hope that I would find something in them to meet my extreme case, but these also failed and I was brought to Canada and to Montreal. I was at length reduced in weight to ninety-five pounds, and last winter my life was considered not worth anything. However, I would rally a little at times and try and walk out. On one occasion I took an hour and a half to walk seven blocks and was then completely exhausted.

Last summer I took pneumonia, which seemed likely to prove the closing event of my long illness. Hailing from this, I could not walk across the room for the same of suffocation. At this juncture, in July last I heard of Powley's Liquidized Ozone. I sent for a bottle and began taking it according to directions. I soon began to notice relief in breathing, while the night sweats and coughs were less severe. I have now used in all four small and two large bottles, and I have no night events, but little cough, and am working hard every day without the least inconvenience. I sleep and eat well and have gained thirty pounds in weight.

I consider Powley's Liquidized Ozone a boon to humanity and can honestly and heartily endorse all that is claimed for it.

ERNEST R. CROSS, 821 Hypolite St., Montreal, Que.

New Spring Novelties for Spring Wear

From Now to Easter Every Day is Reception Day in Our Millinery Showrooms, Second Floor.

Only sixteen days to Good Friday. Now is the time to see our stocks at their best. Come in any day this week and view the latest Fashion Fancies for the coming season.

Our opening display of Paris, London and New York Trimmed Hats, and the productions of our own workrooms will win unstinted praise for elegance, novelty and good taste, as they reflect the most improved ideas of the Fashion Leaders in the Old World and the New. We invite your inspection.

Gloves and Millinery go hand in hand, they are so closely associated in the minds of fashionable women that no Millinery Event at this store would be considered complete unless mention were made of New Gloves. You run no risk in buying your Gloves here. We are justly proud of our Glove Stock and solicit your inspection.

You know how successful our past efforts have been in silk selling. This season we can promise you better satisfaction than ever before, because we think we have done better and bought to better advantage. In Dress Materials we have with great care selected the newest and most desirable makes and weaves from the most reliable makers. A mere glance at our rich displays is enough to convince you of the superiority of our Dress Fabrics.

WHISKARD'S "Three Busy Stores."

The annual report of the Leipzig Chamber of Commerce says in general of the business of Germany in the year 1902 that while a few branches of manufacture and trade experienced a partial recovery, the year as a whole belonged to the period of overproduction, collapse and panic that began in the summer of 1900 and has entailed the fatal condition which still exists, viz., prices of food and raw materials which are above all logical relation to the market values of finished products.
