

THE REBELLION

The Situation Hourly Growing Graver.

AN INDIAN RISING FEARED.

The Chiefs Preparing for the War Path.

THE EDMONTON HALF-BREDS RISING.

A Second Engagement at Duck Lake Reported.

THE RUMOR NOT CONFIRMED.

Brief Biographical Sketches of the Victims of Thursday's Fight.

THE MILITARY PREPARATIONS

Of the Government Meeting With Universal Approbation—A Large Force Ready to Move.

(Saturday's Despatches.)

DETAILS EXPECTED.

Ottawa, March 28.—(Special.)—No further news from the North west has been received this morning, but details of the engagement are expected in the course of the day.

THE KILLED AND WOUNDED. Little is known personally of the killed and wounded. Constable Gibson was engaged in the service at Winnipeg about a year ago, and Arnold was an old United States scout from Oregon.

THE REBELS' STRENGTH. The total strength of Riel's force is not believed to be above five hundred, unless, as is feared by some, he has secured assistance from St. Joseph, south of the boundary, where upwards of one thousand turbulent half-breeds make their home, and where he is a general favorite.

THE INDIANS. All information received by the Government in reference to the Indians is of a most reassuring character, and indicates that they have continued loyal.

EXCITEMENT IN TORONTO. Toronto, March 28.—The excitement here continues unabated. From an early hour this morning approaches to the drill which have been crowded with people waiting in expectation of seeing the departure of the troops.

MUSTER OF THE FORCES. The Royal Grenadiers mustered at 8 o'clock, and notwithstanding the early hour and the fact that sergeants could not find time last night to notify all the members of the companies, they turned out nearly 300 strong. After they were dismissed, the Queen's Own mustered and showed the creditable turnout of 542, and it is no exaggeration to say that each is eager to be selected. There is the wildest excitement amongst them, and many who have left the regiment, when they heard Col. Otter was to take command, begged to be enrolled again. Both regiments are now in the Drill Shed anxiously awaiting orders when to start. The selection of 250 men from each regiment will not be made until definite orders are received. The Mayor has intimated that the city will look after the wives and families of any married men who may go to the front, which has lifted a heavy load from the minds of those who have families. Many prominent citizens are in the Drill Shed, chatting with the boys and giving them encouragement.

DESPATCHES THIS MORNING INDICATE THAT AN engagement near Fort Carlton took place on Wednesday afternoon.

DESPATCHES FROM THE FRONT. Despatches just received are now being deciphered, and it is considered the contents will be made known at two o'clock.

LATER.—No further news is yet to hand. Irvine telegraphs he has sent a long cypher despatch, giving full details, but it has not yet turned up.

A WARLIKE FEELING. The Department of Militia is deluged with applications from all parts of the country to be allowed to take part in the North-west expedition. Col. Williams, M. P., has undertaken to organize a regiment of 300 strong from among those who have offered either to go to assist in quelling the Riel rebellion or those who had previously offered their services to Williams to fight in the Sudan. He is arranging for a fair for the balance of the session and it is expected that he will be able to arrange his details. The names of other prominent military men are mentioned in connection with same movement, but no definite as to their movement has as yet been decided upon.

ACTIVITY AT TORONTO. Toronto, March 28.—(Special.)—This morning, about one o'clock, the Queen's Own and Tenth Royals were summoned by bugle call to assemble. The telephones to private residences of officers of both the regiments were kept in active service all through the night, and early this morning, from about midnight to daylight, patrols were scouring the city, calling up the men of both regiments by bugle and verbal instructions to respond to the call to arms, and calls were being sent over the stone and block pavements of the city all night between the garrison and the army. Col. Miller was on duty in the army all through the night. This morning at 8 o'clock hundreds of people were flocking around the gates of the army and down all the principal thoroughfares of the city. Citizens soldiers were hurrying to the call to active service. At 8 o'clock the Q. O. R. showed up nearly their full strength, fully six hundred. The army at 11 o'clock was crowded with probably at least one thousand soldiers, who after the preliminary muster and drill commenced to sing patriotic songs. Up to about 11.30 a. m. Col. Otter from the garrison was expected to

inspect the soldiers. At that time commissioned officers only were permitted to leave the armoury, and muster was called again for 2 o'clock, all the troops in meantime to await further orders. At noon

A COUNCIL OF WAR was held, D. A. G. Denison, B. M. Wilson, Lieut. Col. Otter, Lieut. Col. Grassie and Col. Miller being present. Major Manning was in the armoury at the first muster this morning, and remained nearly all the forenoon. Capt. McMaster and Mr. Kennedy, of Sanson, Kennedy & Co., representative merchants, were also on hand, and Mr. D. McNeill, passenger agent of the C. P. In this city, was in close communication with the military heads in the Drill Shed. Business generally, more particularly in the wholesale, is crippled, a great many of the clerks being called out. The most expected to leave here to-night. Quite a few women were scattered among the soldiers in the armoury wearing very grief-stricken faces. The men are all in high spirits.

Toronto, Ont., March 28, 2.30 p. m.—The band in full strength is now playing martial tunes in the armoury. Those for active service have been called up, 20 men from each Company of the Q. O. R., and 25 men from each Company of the 10th Royals, with officers. They leave to-morrow.

MONTREAL VOLUNTEERS IN READINESS. Montreal, March 28.—The whole of the city volunteer force have received orders to hold themselves in readiness to proceed to the North-west. Most of the regiments will muster to-night for the purpose of stores being issued.

NEWS PARTIALLY CONFIRMED. The reported killing of Mr. S. C. Elliot, a son of Judge Elliot, of this city, in the North-west troubles, was received very doubtfully in this city Saturday morning, most of his numerous friends at first hoping that the report might prove untrue. It is a gentleman of ability, first joining the militia in 1862, and was in the 10th Regiment of the Queen's Own, and was in the North-west in 1870. He only practiced here a short time, and has been living in Prince Albert for a year or two since the outbreak of the rebellion. He was a member of the law firm of McLean & Elliot. He belonged to the local volunteer corps, and was one of the first to take up arms against the rebels. He was a gentleman of ability, excellent character, and stood very high in the estimation of the citizens of London.

Messrs. Hume Elliot and James H. P. Crozier, barrister, Saturday morning, in consequence of the reported death or wounding of Mr. S. C. Elliot in the action with rebels.

Winnipeg, March 28.—The situation here grows hourly more desperate. It is indicated that the Indian chiefs throughout the territories are holding war councils, and preparing to rise. Piapot and three prominent chiefs were counselled by Qu'Appelle all day. Indian officials are thoroughly alarmed, as once the Indians rise, no knowing where the trouble will end.

An Edmonton dispatch indicated that the half-breeds there have complete organization, and are ready to rise at a moment's warning. They have supplied themselves with ammunition and provisions.

ACTION OF THE HUDSON BAY COMPANY. The Hudson Bay Company has undertaken to transport the entire army from Qu'Appelle to Prince Albert, 208 miles. The company has also a contract to supply all provisions and pay all troops. The company has sent agents to various cities in the States to purchase supplies and have them forwarded to the North-West immediately. Winnipeg will not be able to furnish a sufficient quantity. Already the principal provision stores have been closed.

WAITING FOR THE REBELS. In consequence of the very grave condition of affairs at Fort Carlton, and of the extent of the rebellion, the magnitude of the rebel army, Gen. Middleton has decided not to advance until the regulars arrive and the whole army can move together. He believes, however, that the limb was amputated with great readiness. Moore was once a Captain in the British army, and had amassed a fortune in this country.

There is a report that Maj. Crozier has been shot.

ARRIVAL OF TROOPS. A special train has just arrived with troops. A general advance will probably not take place before Monday.

The train was made up by S. McLean's stable last night. The incendiary was one of Riel's emissaries. A special train of twenty cars, provisions, horses, &c., leaves for Qu'Appelle in the morning.

Gen. Middleton has sanctioned for the formation of a new battalion of eight companies here. Officers were elected and the men are being drilled.

Lord Selkirk, the Governor General's Private Secretary, who arrives here Monday, will be second in command of the militia. He is a native of Ontario, and has long been in the army, and has the assistance possible to forward arrangements.

RELIABLE INFORMATION SCARCE. Winnipeg, March 28.—Only two or three officials here can get any reliable information from the seat of war. The news received here is from Ottawa, and the government officials now have full control of the wires. Posters are up in all public places, calling for volunteers, and the limb was amputated with great readiness. Moore was once a Captain in the British army, and had amassed a fortune in this country.

There is a report that Maj. Crozier has been shot.

Showing the relative positions of the prominent places alluded to in the telegraphic despatches. The line connects the Hudson Bay Company's route from Qu'Appelle to Prince Albert, and is said to contain 1,000 male adults. Riel has made his headquarters at Batoche's Crossing, which is on the South Branch.

trip East, passing through Detroit, Minn., was met by the ex-Mayor, who warned him that a meeting had been held in that city and arrangements made to send the rebels to the North-west in the event of war. Great uneasiness is felt here. Many believe there will be a Fenian raid, as one has been threatened from various sources for some time back.

The following is the latest received to-night from Qu'Appelle.—Lieut.-Governor Dewdney and Col. Horchler are back here from Regina in forward arrangements. Seventy-five teams have been engaged for transport. A number of citizens will accompany the troops. The men are greatly excited over the news from Duck Lake and anxious for an advance. We expect a general forward movement soon as the main body arrives. Piapot and three other prominent and influential Indian chiefs are in war council to-day. Trouble is feared, as the limb was amputated with great readiness. Moore was once a Captain in the British army, and had amassed a fortune in this country.

There is a report that Maj. Crozier has been shot.

IN THE SUDAN.

OSMAN DIGNA REPORTED READY TO SURRENDER.

20,000 Rebels Entrenched at Tamal—Haddendow, Defeated Near Kassala—Rebel Disasters—An Inquiry Into Gen. McNeill's Conduct.

Saturday Afternoon's Cable Despatches to the London, March 28.—It is reported at Cairo that Bismarck and Golems have attacked and severely defeated Haddendow near Kassala.

It is rumored that the Government will take the one further step as a necessary corollary to what they had already done of making the Bill which the Special Committee had recommended a Government measure. Sir John said the Government do everything in their power to bring about the desired end. The Cabinet hoped that the Government would take the one further step as a necessary corollary to what they had already done of making the Bill which the Special Committee had recommended a Government measure. Sir John said the Government do everything in their power to bring about the desired end. The Cabinet hoped that the Government would take the one further step as a necessary corollary to what they had already done of making the Bill which the Special Committee had recommended a Government measure. Sir John said the Government do everything in their power to bring about the desired end.
