### CAMARA'S SQUADRON

MUST STOP COALING AND LEAVE PORT SAID

On Receiving Crders to the Above Effect the Spaniards Claim Their Ships Need Repairs and Commence Discharging Cargo.

Port Said, June 30, 2.30 p. m.-The Spanish fleet under the command of Admiral Camara has not yet sailed. It is reported that he is awaiting the arrival of three colliers, and that the adhere. The Egyptian Government has given its sanction to the Spanish fleet oaling from its transports. It had previously prohibited the fleet from taking on board anything more than enough coal to return to Spain.

Washington, June 30 .- Secretary Long said this afternoon that he understood Camara's fleet had paid the canal dues. and the presumption, he added, is that they will continue their voyage. London, June 30 .- It was learned this afternoon that the Egyptian Government has decided to notify Admiral Camara that the continued presence of the Spanish fleet at Port Said is vio

lating neutrality, and that the warships must leave Cairo, June 30.—The following official announcement was made this afternoon:-The Spanish warships at Port Said began coaling from their own colliers, which arrived from Spain. The Egyptian Government has notified them that they could not allow this, The forces of the American army are and that it must be stopped forthwith being mobilized as rapidly as posible and that they must also leave Port Said as the 24 hours' limit has been greatly exceeded. The Spaniards then stated that their ships wanted repairs, and began discharging coal and other ma-

terial in coder to repair. Port Said, June 30.—The Government has instructed the Governor of Port Said to stop the transshipment of coal from the Spanish colliers here to the fleet under the comward rapidly, but the movemen of the mand of Admiral Camara. ## MOMENT.

Stirring News Expected from the Seat of War.

miral will also coal his torpedo boats With the Army in the Attack on Santiago de Cuba.

Established Between Shafter's Headquarters and Washington - The Second Expedition from Tampa - Watson's Squadron May Sail on Monday for the Spanish Coast.

Washington, June 30.-The situation at the close of the day was described battle and it might be precipitated by either side, and no one here knew what much more known respecting Gen. Shafter's plan of attack, although in his messages of yesterday he indicated a purpose to move early on the enemy, forcements could not reach him before he offered battle. Secretary Alger was very much gratified when he learned to-day that direct telegraphic communication now existed between Washington and Gen. Shafter's headquar-

The opinion is held here that the navy will co-operate in the attack on Santiago, and to that end part of Shafter's force is to move immediately upon Morro Castle to capture the forts and enable the naval launches to over and enable the naval launches to open the gateway into the harbor by re moving the mines. The experience of the vessels while in Guantanamo har-bor in pullling up the mines there is expected to very much facilitate similar work at Santiago.

and the understanding here is that he is employing his time to the best advantage in taking his artillery and making all ready for the final assault upon Santiago. It is not known how far the Spanish reinforcements have advanced since knowledge of their movements, and it is believed is not likely to delay his

No telegram came to the War De

attack until they have strengthened the garrisons at Santiago by uniting with Linares. The second expedition from Tampa to reinforce Shafter appears to have encountered almost as many difficulties as the original expedition in get ting away. It was confidently expected here that a start would be made from Tampa last Monday, but one difficulty after another has arisen to retard the movement so that it was with a feeling of relief that the news cam from Tampa that the flagship of the expedition, the Hudson, has swung out into the stream and is ready to lead the procession of transports, which it is

believed by this time are under way for Santiago It is calculated that the second installment of the reinforcements de spatched to Shafter from Camp Alger via steamer from Newport News, Va., reached him to-day on the Harvard. and the steamer Yale is expected at Newport News day after to-morrow, returning from her first trip with Duffield's soldiers to take more reinforcements. The steamers will be further availed of in pursuance of Secretary Alger's intention to continue to despatch reinforcements after reinforce ments to Shafter until he has an over powering force at his command. Major-General Coppinger will probably com-

mand the Porto Rican expedition. The advices from the Suez Canal only hasten the preparations making for the departure of Commodore Watson's eastern squadron. The Commodore has reported to the Navy Department his arrival off Santiago, and is in consultation with Admiral Sampson respect ing the details of the cruise, which it is expected will occupy fully four months, provided the war endures that length of time. The delays to which the Spaniards are subject at Port Said will redound very greatly to the advantage of Admiral Dewey, if Camara is still in reality bound for the Philipalmost the whole of General Merritt's military force and almost certainly of the cruiser Charleston and the monitors Montery and Monadnock before the Spanish squadron could reach Manila

"Commodore Watson's flying squad ron will sail for the coast of Spain next Monday," said an official to-day. "The Newark will be the flagship, as was the original intention. The squadron would be ready to sail to-day were it not for the fact that considerable time will be required to fill the colyour blood. You have come by it liers. All three colliers are taking on coal day and night, and I am confi-June 30.—Intercepted deatches from tite of earth-hunger, and you cannot dent the work will be completed by Sunday. The coast of Spain will be combarded in three weeks."

There is no doubt in navy circles that the Charleston and the first reinforcements for Admiral Dewey, sailed May 25, have reached Manila, The expedition consisted of 2,500 men With the addition of the Charleston and her 400 men and marines, Dewey will feel much safer. United States Consul Haywood, at Honolulu, has purchased about 12,000 tons of coal, some of which will be immediately forwarded to the Philippines.

cer, to-night received a despatch from fought at Santi Lieut. Col. Ailen, chief signal corps ably for the officer in Cuba, announcing that a unconfer

INTENDED AS A HINT TO POWERS

THE NAVY MAY CO-OPERATE Of Britain's Sympathy With the United State the Struggle With Spain.

London, June 30.—Though on casual reading the Marquis of Salisbury's speech at the United Club last night seems to have been an attempt to carry water on both shoulders, the di-plomatic body here construes it as a pronouncement of Great Britain's par-TELEGRAPHIC COMMUNICATION tiality. There is no doubt the Premier intended his remarks as a hint to the powers that Great Britain is in sympathy with the United States, and the intimation to that effect was called forth by Germany's alleged attitude in the question of the Philippine Isiands. The declaration that the United States is animated in the present war by "elevated philanthropy is the passage upon which stress is laid, and many people fing a connection between the Premier's speech and the recent visit of Col John Hay, the United States Ambassador, who again conferred with the Marquis of Salisbury yesterday. In the course of another visit to-day, Col. Hay officially informed the Marquis of Salisbury of the blockade of the southern coast of Cuba. It is known that the Spanish ambassador, Count Rascon, has cabled the Marquis of Salisbury's speech to Madrid, though it could not have been a surprise to him, as he recently informed a coleague that he had unquestionable information to the effect that there was an "ironclad alliance" between Great Britain and the United States befor

he war begun. A letter written by a Berlin diploma of the highest position asserts that it i due to the German Cabinet that Germany's attitude has been thus far correct; that the Emperor of Germany was determined to interject himself. into the war between Spain and the United States, and that he has only been restrained by the Imperial Chancellor, Prince Hohenlohe, and the Min-
