We Tust that Mr. Macdonald's lead the cl.f.k. Cl. Mickwan is

for what he best does. If he had does not he had been control to the high waterful to at least been control to be proved the light with the throughout the property the light in which they meaning the property than the property the light in which they meaning the property than the property than the property than the property the light in which they meaning the property than the property than the property than the property than the property the light in which they meaning the property than the property that the property the light in which they meaning the property than the property the light in which they meaning the property than the property than the property than the property than the property that the property than the property that the property that the property than the p enough, but the most singular feature of it is that the facts exist mopen defiance of the teachings of medical science and of experiments made upon individuals. The athlete who trains himself for a supreme effort shuns liquor as that which would cause his shuns liquor as that which would cause his sure defeat. We are told that Havelock and endured more than whisky-drinking associates could. Again, recently published statistics show that in England the statistics show that in England the average age attained by habitual drinkers exceeds that of total abstainers, while moderate drinkers considerably outlive the other two classes. It is

on an average to a little more than half a Council. ton, while in Germany the average of production is a little less than half a ton. At this time of year when new potatoes have a be read with much interest, flavor that no other vegetable or article of \$1.50, which means that the poorer to use tion with the matter.

the working people cannot afford to use tion with the matter.

Senator Sanford's window will be indicated.

terfere with traffic, but the Metropolitan Company lays a rail along the road that stands up in a stalwart way and claims everything in sight, making vehicular traffic take to the fields. The company claims exclusively contributed to insure its success? With kind regards, Yours very truly, sive right to run a car service on that part of Yonge-street referred to, and refused to allow the Toronto Street Railway to encroach by a single foot upon its territory. This position it will defend on the strength of privilege accorded it before that piece of readway was incorporated by the attr. Then roadway was incorporated by the city. There may be room for legal argument on this

point of exclusive control, but one thing is chil ure: the city has the power to regulate such new favors as the company may sue for. No matter when you visit this store it is mitted in the city limits. While this railway maintains a separate existence and is undisturbed in its claim of exclusive rights on that piece of road, the people of the city in visiting the cemetery are forced to nay double car force. On this run forced to pay double car fare. On this run the company claims to make its revenue, Many moons ago a largely-signed petition was sent to the council urging that the Toronto street car tracks be extended to the present city limits, but it was evidently suppressed. If the contention of the Metropolitans of the contention of the Metropolitans of the support of the sup pressed. If the contention of the Metropolitan Company is sound and the city cannot extend its car lines to its limits and give the

should be taken not to permit the disfigurement of the street with cutlandish rails, to the annoyance of the public and the injury of business people along the route. If the private company is in possessions. of business people along the route. If the private company is in no frame of mind to think of a compromise the city should not be think of a compromise the city should not be think of a compromise the city should not be in the frame of mind to plaster it with executive favors. No T rail in the city limits, because of four years of followed through the course of four years.

The reunion of aldermen and park preachers at the City Hall yesterday came to an end on the understanding that the bylaw must stand until such times as its validity is tested, and in the meantime will be enforced with all necessary vigor. The City Solicitor tested, and in the meantime will be enforced with all necessary vigor. The City Solicitor stated that the ordinary bylaw was not equal to the occasion and that to attempt to discriminate between those who wish to speak in the parks would cause no end of trouble. The special committee of aldermen who met the representatives of "free speech" did exactly the right thing under the circumstances.

deed, a wild set, but could endure hardships with a fortitude never surpassed by any other soldiery. Again, "the indolent southern peasant drinks little, the muscular genius of the coke oven and blast furnace very much. The idle, dreaming, standstill nations of Asia are teetotal; the working nations of the West are drunken." This is true

ably outlive the other two classes. It is necessary to take some account, when referring to eastern countries, of the other habits that in the absence of liquor have a hold on the people. Those who contend that a superiority of race explains why the whisky-drinking nations are the working nations, can frame an argument from the fact that whisky administered to an indolent people, whether in Asia, Africa or America, has never instilled them with snap or industry. It always intensifies their uselessness.

Potato Eaters.

Mission. Mr. Tomlinson says that "the dogman of transubstantiation eo nomine was first formulated at the Fourth Lateran Council, and its president, Innocent III., was the first person to speak of lights set on the altar itself. Thus both the genesis of the custom and its introduction into England are alike bound up with the localized worshipable presence." It was stout Bishop Latimer who said that when the devil enters a church then up go candles and out goes preaching. It is an illegal act to wear the Mass vestments in the English Church. Carter, in his notes on the Sarum Office, describes the chasuble as the principal vestment. It is the distinctive dress of the "sacrificer" at mass. The Romish bishop in ordination puts the

City Road Chapel, London, Eng. The following letter to Rev. Dr. Potts will

MY DEAR FRIEND: I beg to acknowledge flavor that no other vegetable or article of food possesses one is apt to think that there is distinction for North Germany in being the banner country for consuming potatoes. However, it is not all sunshine. Potatoes being in such general use in Germany we to be the provided of the respective church by a strength that the provided of the respective church by a construct that the provided of the being in such general use in Germany we can imagine the gravity of the report that what may almost be called a potato famine exists there. The price per bushel, which usually is about 35 cents, has jumped up to \$1.50, which means that the poorer among \$1.50, which means that the poorer among the such as the gift of the respective cauren by a small plate let into the enameled pavement, and the furthermore completely set out on a large brass tablet in the handsome entrance lobby, which will give the name of the church and the representative who has kindly acted for us in connection with the matter.

Senator Sanford's window will be indicated by a special inscription stating the name of the donor. This window will be very beautiful. It is being executed by Mr. Holliday, who is one of the very best artists in this line in this country. The central figure will be suitable emblems indicating its connection with Canadian Methodism, and portraits of the C.P.R. tracks, and residents along there object. It is urged that where the electric system is operated in other cities a special style of rail is used that does not interfere with traffic, but the Metropolitan of conveying the thanks of the committee of

T. B. STEPHENSON. 84 Bonner-road, London, E., July 9, 1891. ties. It is acknowledged by those who have used it as being the best medicine sold for coughs, colds, inflammation of the lungs and all affec-tions of the throat and chest. Its agreeableness to the taste makes it a favorite with ladies and

barbarous style of rail that will interfere with ordinary street traffic should be permitted in the city limits. While this railway bond at 40 caute on the dellar related in
