The new offices are ideal quarters for the transaction of a large business such as that done by Campbell & May. They are fitted up with all modern conveniences. In the rear is a spaciou and tastefully decorated board room for meetings of creditors, etc. The front offices are set apart for the clerks and stenographers, while in the rear is a large vault for books, papers, etc.

The Wonderful Talking Horse

THE MARVEL

The first sensation that the visitor to the Musee will experience upon hearing MA-HOMET, the Talking Horse, will be a startling surprise. The equine voice is not exactly human, but every word is pronounced with striking clearness and with a gusto of enjoyment that leaves no doubt of the pleasure which this wonderful animal derives from conversation with a human being. His accomplishment has baffled scientists everywhere, and intensely interested all who have witnessed it.

OWNERS OF RENTABLE HOUSES could put a much larger profit in their pockets every year if they would keep their property in better order and repair. About 50 per cent. of the vacant houses in the city are not fit for decent people to live in, but in too many instances are little less than vaults of death. It is a big mistake to think that any respectable agent will deceive people into an agreement to rent houses that have bad drainage, bad plumbing, filthy closets, leaky roofs, tumble-down fences, etc., etc.
