WATFORD, MAY 25, 1906.

Not for Daily Wear.

King Edward's crown is not the most costly in the world, but by virtue of its old and glorious associations it is the most valuable Royal relic known. It weighs forty ounces. In front of it is a ruby measuring two inches in length, which has been valued at £110,000. Without counting this ruby or a huge sapphire which is in the center of the cross-piece at the top, the crown contains four rubies, eleven emeralds, sixteen sapphires, 277 pearls, and 2,783 diamonds.

The first orb is called the King's orb, and is set with 266 diamonds, 511 pearls, eighteen rubies, nine emeralds, and seven sapphires. The Queen's orb, as the second orb is called is smaller, and not so valuable. It was made for the Coronation of William and Mary.

The sceptre, one of five in the possession of the Sovereign, is of gold ornamented with colored enamel, and set with precious stones in the pomel. The stones consist of 301 diamonds, twenty-five rubies, twelve emeralds and eight sapphires. It cost for gold, jewels, and workmanship, £1,025.

A Domestic Problem.

A remarkable state of affairs is disclosed by reading the heartrending columns in the evening papers of Toronto wherein women are advertising for household help. The situation grows desperate and never were more object appeals put into print than are now appearing. Salted among the other advertisements are some sent in by the employment agencies offering house maids and general servants such high wages and light duties as would seem certain to attract any girl seeking service, to the offices of these agencies. But the genuine advs. are in many cases tragically appealing. One lady tries to secure a general servant by offering "the highest wages, no washing, every Wednesday and Sunday afternoon and every night off." Each advertiser tries to put in some little touch that will attract an applicant. No washing, no ironing, no children," says one. "A good Christian home," says another. "Light, easy place," coaxes a third. Stories float around to the effect that Mrs. So-and-so has been advertising off and on for six months and has not yet been able to get a maid. Another woman pays much less and has no trouble whatever in getting help. The end of it will probably be that many families

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. Get rid of any constipation by giving small babies a dose of Ayer's Pills. All vegetable, sugar coated.

Made by J. C. Ayer Co., Lowell, Mass.

HAIR VIGOR,
AGUE CURE,
CHERRY PECTORAL.

We have no secrets! We publish the formulas of all our medicines.

will be driven into flats, where much of the work will be done by contract.—Saturday Night.

A Bulletin on the Bacon Hog.

An exhaustive bulletin on the production of hogs in Canada for the British bacon trade is ready for distribution from the office of the live stock commissioner at Ottawa. It is divided into fourteen parts each dealing with a section of the bacon industry under the following heads: Introduction; The Standard Bacon Type; Undesirable Hogs for Bacon Production; Breeds and Breeding; Care of Breeding Animals; Rearing and finishing; Cost of Grain at Different Stages of Growth; Soft Bacon; Foods; Preparation of Food; Composition of Foods used in Swine Feeding; Value of Hog Manure; Gestation Table; The Present and Future of the Canadian Bacon Industry.

Besides the personal experience of the live stock commissioner and members of his staff, every reliable source of information within reach was drawn upon in securing data for the bulletin. After describing the type and breeds of hog suitable for the bacon trade and discussing the best and most economical methods of rearing and feeding the bulletin points out that the bacon industry of Canada worth some thirteen million dollars per year is worthy of the earnest support of the farmers of Canada. In order to encourage and assist this valuable trade this bulletin has been prepared with great care and exactness as to teaching. It is helpfully illustrated by half tone cuts of swine of different pure breeds, correct and incorrect types of hogs, ideal and faulty sides of bacon, besides plans and description of the moveable pen which is becoming very popular. The bulletin is No. 10 of the live stock branch. Copies may be secured free by application to the live stock commissioner, Ottawa.

The Coon Came Down.

The decision of Turkey to accept the ultimatum of Great Britain and evacuate Egyptian territory was to be expected. The Sultan is in the habit of making "bluffs" of this character, and then throwing up his hand, though usually the situation created by him has some effect on European diplomacy. This time it is difficult to see what possible advantage he could gain by embroiling himself with Great Britain. The Anglo-French entente renders any further dispute concerning Egypt extremely problematical, and certainly Germany would be ill-advised immediately after the Morocco incident to meddle with the status quo in the Near East. Above all this stands the ideal administration of Egypt by Lord Cromer, an administration with which not even Germany can find fault. It may be, of course, that the Sultan thought the Campbell-Bannerman Government was for peace at any price. No doubt many Englishmen thought so. The firm attitude displayed in this matter undoubtedly will strengthen public confidence in the Ministry.—News.

Cutting Across Lawns.

If there is one thing more aggravating than another to the lover of a well-kept lawn, it is said to have thoughtless pedestrians cut across the corner and cut the lawn into a path. There are few who live on corner lots who are not made victims of such trespassers. This is the time of year when people should consider what they are doing towards destroying the beauty of a lawn by wearing a path across one corner. It is not a pleasant duty for those whose lawns are thus trampled upon to have to tell a neighbor of his negligence, but is something that every man ought to make clear to the "short-cutter." He should be given to understand that he cannot with impunity mar the appearance of property. Should an offender persist in paying no attention to friendly admonition then the law should be evoked and the offender punished for his wilfulness. If we are to have an attractive town every green spot should be made the best of by residents. If you are a short-cutter discontinue the practice at once and have some consideration for your neighbor's property.

Tunnel Plant.

It is expected that the electrical equipment for the tunnel will arrive in Port Huron next week. A gentleman connected with the Grand Trunk railway says: "The entire machinery, engines, poles, wires and motors will come on a special train. The work will be done by a large gang of men directly from the Westinghouse Company, and will not interfere with tunnel traffic. In other words the work will be done between trains."

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

100 DROPS

CASTORIA

Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS CHILDREN

Royal Household Flour

THE success of pastry depends upon the flour. Bread and pastry must be more than merely appetising; they must be wholesome, digestible, nourishing. The flour depends upon the wheat and the way it is milled.

is made from spring wheat only. It is milled by the newest and best machinery. It is purified by electricity.

Use it and you get bread not only light, crisp and appetising, but also wholesome, digestible and nourishing.

You will better your baking by buying Ogilvie's Royal Household Flour from your grocer.

Ogilvie Flour Mills Co., Ltd.
Montreal.

"Ogilvie's Book for a Cook," contains 130 pages of excellent recipes, some never published before. Your grocer can tell you how to get it FREE.

PAGE FENCING

THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the quality of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength of steel in fence wire as there is in a knife blade or razor. The Page Co. use a high carbon steel wire, which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes. Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that others are imitating it. That is a good recommendation for it. Where we lead others follow. All PAGE wire is "COILED," not crimped. Get prices before placing your order for Fence Gates or Lawn Fence.

THE LOCK IN PAGE "EMPIRE" FENCES.

Besides the extra strength and superior workmanship, PAGE FENCES are dipped in a special white paint, which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, one-third less posts are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES one-half more fence strength, greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really ours cost you little, if any more.
