**THE HYDROMAGEN,  
OR  
WATERPROOF, ANTI-CONSUMPTIVE,  
CORK SOLES.**  
Manufactured by  
**HARCOURT, BRADLEY & CO.,**  
Principal Warehouse, 162 Wood Street,  
Cheshire, London, England.  
American Establishments, 35 Ann Street,  
and 102 Nassau Street, New York,  
United States.

The Hydromagen is a valuable discovery for  
protecting the feet from damp or cold, and there-  
fore a preventive of many Lung diseases, such  
as the "Coughing" habit. The Hydromagen is  
in the form of a sole, and worn under the foot or  
shoe. Its indicated character is a powerful anti-  
dote to rheumatism, &c.  
For Gentlemen it will be found agreeable, warm,  
and healthy; to wear in the coldest or rainiest  
weather, as the feet cannot become wet if the Hy-  
dromagen is inserted. Ladies may wear the light-  
est soled, boots or shoes in the most inclement  
weather with impunity; while Consumption, so  
prevalent among the young of our country, may  
be prevented by its general adoption. They en-  
tirely supersede over shoes, as the latter cause the  
feet to perspire in a very unhealthy manner; and,  
besides, are not dangerous wear to pedestrians in  
icy weather, like India rubber. While the latter  
cause the feet to appear extremely large, the Hy-  
dromagen, being a mere thin slice of cork, pre-  
served, peculiarly placed inside, does not increase  
the size of the foot, or cause the foot to appear  
unduly. To Children they are extremely valuable,  
as they may engage in exercise with comfort and  
healthful effects. Their expense is so slight as to  
be scarcely noticed. Besides, those who patron-  
ize them will find their yearly doctor's bills much  
diminished thereby.  
As the Hydromagen is becoming more known,  
its sale is increasing to an almost incredible extent.  
Last year in London, Manchester, Birmingham,  
Liverpool, Glasgow, Leeds, Dublin, Paris, Ant-  
werp, Hamburg and Berlin, our sales reached  
70 pairs of Cork soles. This year the num-  
ber surpasses that.  
A Faculty of opinion of their value is  
a recommendation for Gout, Colic, Bronchitis,  
Asthma, and Consumption.

Notice.—From the Retail Prices we make a  
very liberal allowance to Jobbers and Wholes-  
alers, so that any storekeeper may make a fine pro-

may be kept in any store, among any class of  
goods.

**THE CHEST.**  
**Sir Astley Cooper, Bart.,  
M.D.**  
THE ESSENTIAL MEDICAL FACTOR, HAS LEFT A  
VALUABLE LEGACY TO THE WORLD IN HIS  
Great Preventative of Consumption,  
AND  
UNFAILING CURB FOR TUBERCULAR DISEASES  
WITHOUT THE USE OF MEDICINE.  
Sir A. C. Bart. invented and advised it.  
**MEDICATED PURCHES.**

**PROTECTOR**  
To all persons of all ages, and conditions  
a certain and safe shield against all  
feverish diseases, Consumption, Bron-  
chitis, Coughs, Colds, and all  
diseases of the Lungs, which arise from the  
poor state of the chest, according to fashion,  
and the continual changes of our climate.  
The Protector is simply a chemically pre-  
pared fabric, with silk and padding, which, sus-  
pended from the neck, covers the chest, in so a-  
greeable a manner, that, once worn, it becomes a  
necessity and a comfort.  
The Protector, although but recently  
introduced into America, is making rapid  
progress through the United States, the  
Canadas, South America, and the West  
Indies. It has for a long time been a staple  
article in England and on the Continent of  
Europe, while it has grown in many coun-  
tries to the position of an article of dress.

To demonstrate these facts enquire of any En-  
lish resident in your vicinity of his knowledge  
the beneficial effects of wearing the Pro-  
tector, without recourse to doctoring of any kind.  
The cost of wearing these articles is a mere trifle, and  
one will last some years. No one who values the  
health of himself or his family will be without  
them. The Hospitals in this country are not alone  
recommending them, but rapidly introducing them.  
Harcourt, Bradley & Co. of London, and Man-  
chester, England, were originally entrusted with  
the manufacture of the Protectors, by the (vener-  
able) Dr. Cooper, and continue to manufacture ac-  
cording to his original instructions, and therefore  
recommend those who would wear "The Pro-  
tectors," to see to their being genuine.  
REMEMBER THIS IS A STAPLE ARTICLE, and  
Patent Medicine.

**AYER'S  
FAMILY PHYSIC.**

"There has been a great demand for an  
effective purgative, pill which could be relied upon  
and perfectly safe in its operation. This has  
been prepared to meet this demand, and its exten-  
sive trial of its virtues has conclusively shown that  
what it does it accomplishes the purpose designed.  
It is easy to make a physical pill, but not easy to  
make the best of all pills—one which should have  
none of the objections, but all the advantages, of  
every other. This has been attempted, and  
with what success we would respectfully submit to  
the public decision. It has been unfortunate for  
the patient's liberty that almost every purgative  
medicine is acrimonious and irritating to the bow-  
els. This Family Physic, however, produces no such  
gripping pain and irritation in the system as to in-  
terfere with the ordinary duties of life, and  
counterbalance the good to be derived from  
them. These pills produce no irritation or pain,  
unless it arise from a previously existing ob-  
struction to derangement in the bowels. Being  
entirely safe, no harm can arise from their use in any  
quantity; but it is better that any medicine should  
be taken judiciously. Minute directions for their  
use are the several diseases to which they are ap-  
plicable are given on the box. Among the ob-  
jections which have been speedily cured by them, we  
may mention Liver Complaint, in its various forms  
of Jaundice, Indigestion, Languor and Loss of Ap-  
petite, Constipation, Irritability, Bilious Headache,  
Bilious Fever, Fever and Ague, Pain in the Side  
and Loins; for, in truth, all these are but the con-  
sequences of disordered action in the large, or small  
intestines, they afford prompt and sure relief in Con-  
stipation, Piles, Colic, Dysentery, Hemorrhoids, Scru-  
tula and Scoury, Colds with nausea of the bowels.  
Ulcers and impurity of the blood, in short, any  
and every case where a purgative is required.  
They have also produced some remarkably suc-  
cessful cures in Rheumatism, Gout, Dropsy, Gravel,  
Erysipelas, Puffiness of the Face, Pain in the  
Back, Stomach, and Side. They should be fre-  
quently taken in the spring of the year, to purify the  
blood, and prepare the system for the change of sea-  
son. An occasional dose stimulates the stomach  
bowels into healthy action, and restores the  
vitality and vigor. They purify the blood, and  
stimulate action on the circula-  
tory system, the strength of the body,  
wasted or diseased organs of the  
Hence an occasional dose is advan-  
taged over no serious derangement exists,  
necessary dosing should never be carried to  
as every purgative medicine reduces the  
when taken to excess. The thousand other  
a physic is required cannot be enumerated.  
They suggest themselves to the  
body, and it is confidently be-  
lieved a better purgative than  
hitherto been available to  
virtues are more known,  
doubt that remedy to  
cathartic medicine.
