

Local and other matters.

The Mormons have been in Utah twenty-nine years. Peaceful English advice—Avoid the high-rate landlord. We all do more harm than we intend, and less good. Thousands of miners are out of work in the Schuylkill coal regions. Among market vegetables cabbage is always a head. Last year London imported 197,000,000 pounds of tea. We knew a man once who objected to sleeping on a straw bed because, he said, it was beneath him. In the United States a number of Camp-Meetings are on the tapis this month. It is said Don Pedro left orders for \$2,000,000 worth of American machinery. Garibaldi has accepted the presidency of the League for the Liberation of the Slave—Hellenic Peninsula. Mount Washington, (New Hampshire) and some of the adjacent peaks were white with snow on the 21st ult. A Minnesota juror addressed a note to the Judge in which he styled him an "Onorable jug." A porcupine was captured on one of the Halifax wharves last week. Was he a runaway from Barnum's animals? Mackrel are reported abundant along the shores of the Magdalen Islands. C. P. Reed's tobacco factory at Toronto was burned last Thursday night; loss \$100,000. The New York Democrats have nominated Horatio Seymour for Governor. Last week a fire at Cincinnati destroyed the freight depot of the Dayton Shore Line of Railway. The freight train on the W. & A. Railway commenced running daily on Monday last. Disraeli, in one of his early novels, calls a peacock "a refuge for income, peltancy, or a step towards the grave." Is this remark true of himself to-day? A female visitor to the Centennial the other day had her pocket picked of four portmonies, but all her cash was in her stockings. The Indians never harm a Mormon. Snooks says "the reason they don't is because they respect old Satan, and are loth to spoil his fun." Bishop Coxe's daughter, who was married last week in Buffalo, received as a wedding present from her husband \$1,000,000 in bonds. On Thursday last, the great four oared race at Philadelphia, the Beaver-awycks won, beating the London crew two feet, more or less. A fire in San Francisco on Monday night, destroyed \$500,000 worth of property, and the homes of two hundred families. "I am indeed very much afraid of lightning," murmured a pretty girl during a storm. "And well you may," said her despairing lover, "for your hair is made of steel." It is said that when the United States Senate re-assembles in December, a new Extradition Treaty with Great Britain will be submitted by the President for ratification. It is stated that the German inventor of a new process for tempering and hardening glass by submitting it while at a white heat to superheated steam, has sold his patent for \$75,000. Prohibitionists in the New England States are combining and organizing to make their influence felt in the elections that will shortly take place. They are a power in those States. New York, Aug. 30.—At the four oared boat race at Philadelphia yesterday, London beat Yale by one second; time 8.57. Cambridge was beaten by Watkins in 9.01. There is a family of sheep thieves in the county of Pictou; they live in dens, and show by their conduct that they have been little improved by civilization. The family name is Brien. We would draw the attention of our readers to "W's" correspondence in another column. The subject is one of earnest importance to farmers generally. It is not long ago that fresh salmon were considered cheap in New York at 60 cents per pound—\$1 per pound being asked for Kennebec varieties. Prices have gradually fallen, until this season they touched 18 cents a pound. Enormous quantities are put upon the markets of this and other Eastern cities by refrigerator cars, which bring them directly from their native rivers in Maine and the British Provinces.

Telegraphic News.

In some parts of the State of New York, especially in the counties bordering on the Hudson, the drought is severely serious. Farmers are cutting their corn for fodder. An old English poet, speaking of the harvest-moon, says "it is the brightest moon in all the year!" Perhaps this is more than poetically true. The last few nights have illustrated the old Bard's saying. The scarcity of oats in the grain markets of the world is due not altogether to the demand for forage for cavalry horses. Oatmeal is year by year becoming popularized as food for the human race, and this new demand has its effect upon the supply. The "big tree," as it was called, which grew in Calaveras county, Cal., contained half a million feet of inch lumber, and was recently felled by a team working twenty-two and a half days, making one hundred and twelve and one half day's labor. A few days ago a destructive water-spout burst over Hays City, Kansas, drowning four persons. These phenomena have been unusually frequent this season, which has been remarkable for electrical "disturbances" and natural pyrotechnic exhibitions. On the first week of September the swallows, after a stay of four months, usually wing their aerial way to "parts unknown." It is probable that some, who now bid them good-bye, will not be here to welcome their return next May. Mr. Chas. Willis, a young man living in this town, fell on Friday last from the Railway Station platform near the edge of which he was walking, striking his side heavily on the rails, and injuring himself so severely that he will not be able to get around again for some time. There was quite a heavy blow from the southwest on Saturday night and Sunday. It blew off a considerable fraction of the small crop of apples. We learn, too, that it overthrew the unfinished spire of the Baptist Church now in the course of erection at Paradise. FATAL ACCIDENT IN P. E. ISLAND.—A young man named Fitzpatrick, of the Ten Mile House, was killed on Tuesday. He was driving a sulky, when the horse ran away. His feet became entangled in the reins and he was dragged along the road. He was taken up senseless. —Charlotteville Packet. IMPENDING ELECTIONS.—The friends of the Local Government in Lunenburg have brought forward Mr. C. H. Davidson as a candidate for the seat in the Assembly, vacated by Mr. Deshrisay's acceptance of a Judgeship. We understand that Mr. John Ross, formerly of the Local House, is a candidate for the vacant seat in Victoria for the House of Commons, and that he will be opposed by a Mr. Irish. Last Thursday a deputation from Montreal waited on the Premier to urge the encouragement of Canadian trade with Australia. The deputation dined with Mr. McKenzie. It is not quite clear to us that any Government has the power to influence the course of trade. Supply and demand in most cases regulate the course of commercial traffic. We see no reason why Canadian products may not find a remunerative market in Australia. We copy the following telegrams from the Morning Chronicle: SYDNEY, C. B.—A letter received from the Superintendent of St. Paul's Island, gives some particulars of the damage caused by the waterspout which passed over the Island. McNeil was the name of the man killed. He belonged to Ingonish. The Capt. of a scho., from Newfoundland, reports that the waterspout passed but did not strike him, and that the sound was so great that a man could not be heard speaking alongside of him. He feared two vessels must have been struck by it. THE BANK ROBBERY.—Among the articles found in the cash which was stolen from the Provincial Treasurer's office and afterwards found on Plielan's wharf, were several small slips of paper, on which were written various sums of money. These slips were not in the box before it was stolen, and it was not known how they got there, but the two tellers of the Bank of Nova Scotia have identified them as the checks which were attached to the bundles of bank notes which were stolen from the bank, to denote the sum each bundle contained. This connects the two robberies. —Chronicle. TEMPERANCE PIC-NIC.—On Wednesday afternoon the Templars at Centreville enjoyed three or four hours of social activity on the grass plot that surrounds the Baptist Meeting House in that pleasant locality. Imbued with that spirit of geniality which total abstinence naturally inspires, "a good time" was realized. The aged, the middle aged, and the young were there, and were the happy participants in a most luxurious repast. Vocal and instrumental music, under the direction of Mr. Thomas Hall, formed no small item in the afternoon's enjoyment. All went home impressed with the value and sanctity of the pledge "to abstain from all that can intoxicate."

Telegraphic News.

(Special Dispatches to the Morning Chronicle.) EUROPE. LONDON, Sept. 1.—There is trouble in the iron trade in England. One London firm, Thomas & Co., has failed, liabilities one million ster. The Standard's special correspondent at Belgrade asserts that the Serbian reports of victories are inconsistent with such odds as are reported by the English correspondents have been compelled to take away news cut and dried from the Serbian press bureaus. Nothing certain is known about the position of Alexandria or the nature or results of the fight there. It is well established, however, that the Serbian army is being rapidly reinforced and reorganized by Russians who are crossing from Rumania and Hungary in large numbers, and that since the influx the Serbians have fought better and seem more likely to hold their ground against the Turks. The situation in public feeling is becoming adverse to Prince Milan's peace negotiations, and there is evidence that Serbia will obstruct or evade them, if possible, unless some new military disaster produces another revolution of feeling. —CONSTANTINOPLE, Sept. 1.—The deposition of Murad occasions no excitement or disturbance. A liberal Hamid, the new Sultan, was yesterday received by the Ministers and functionaries and proclaimed Abdul Hamid II. LONDON, Sept. 2.—The Times commenting on the situation, says—"Should suitable terms be offered the Serbians will refuse them at their peril, but we must own that at this moment the prospect is most uncertain. The Serbs cannot be trusted to accept of peace. At the beginning of the war it rested with us to take the initiative of bringing the belligerents together. It is possible that the opportunity is not lost, but it is vain to think the chance will long remain open." Consuls unchanged. LONDON, Sept. 4.—A despatch from Alexandria reports that the Turkish fleet, the Serbians on the left bank of the Morava, on Friday, and turned their position. The Times Belgrade correspondent says: "Friday's battle was the battle of the war. On Wednesday I received information that before consenting to an armistice, Turkey determined to take Alexandria, and show the world they were able to crush the 'insurrection.' Simultaneously with the fighting on the left bank of the Morava, the Turkish forces attacked Alexandria. The bombardment was so effective that the fortifications were broken up. It is understood that Alexandria is evacuated, but the fortress still held defended by powerful artillery. Swaba and other villages in the vicinity of Alexandria were beset by a tremendous conflagration. The fighting was desperate and the carnage terrible. The Times correspondent considers it a crushing defeat and a total rout. The Turkish army is retreating in confusion. LONDON, Sept. 4 p.m.—Official despatch from Belgrade claims partial successes by the Serbians on Friday. "Disasters," the Times correspondent, who was an eye witness of the struggle, says the battle was sustained unintermittently for eleven hours and a half, and was waged on ground which the Serbians had made the strongest in all the country. It was the decisive encounter long looked forward to and was waiting in no feature that could impart horrible grandeur. On the one side for supremacy, and on the other for the persistence. UNITED STATES. New York, Sept. 1.—The sentence of the young Boston murderer, Jesse Pomeroy, has been commuted to life imprisonment. There were twelve cases of yellow fever at Savannah, Ga., yesterday. Ex-Governor Seymour declines the nomination for the Governorship of New York. Rev. W. G. England, Methodist preacher, and his family of seven persons, were murdered at Montague, Texas, recently, by disguised men; probably for money. New York, Sept. 2.—Yale won the intercollegiate boat race at Philadelphia yesterday. During the race, Mr. Close, of Trinity, fainting, compelling the Englishmen to give up the contest. The London Rowing club publish a card complaining of unfair treatment at their four-oared race on Wednesday. Ex-Governor Seymour's declination to run for governor creates the recalling of the Democratic convention. Cautionary weather signals are ordered for eastern Atlantic coast. PHILADELPHIA. The four-oared professional race is to be held at Centreville on Monday and the single scull race for Tuesday. As four crews are expected to compete—the English, American, St. John and Halifax—the managers have decided that the race shall be rowed in heats. The Americans have completed their four by putting one M. honey in Biglin's place. There is no letting. The weather is hot. PHILADELPHIA, Sept. 2.—The boats and positions of the crews in the boat-race for four and single were drawn this evening. For the four-race the first heat will be rowed by the English and American crews on Monday, at two o'clock; second heat, between the English, Paris and Halifax crews, at 2.30. The final heat will come off on Tuesday. The first heat of the single scull race also takes place on Monday and the final heat on Tuesday. Fifteen entries had been made for the single scull race. The weather is hot. Crew well in the pocket. PHILADELPHIA, Sept. 4.—The first anti-club boat race of the four-oared professional race was rowed yesterday. In the first heat the English crew was matched with the Biglin four, and came in winners, beating the Americans by four lengths. Time: 18 minutes, and 40 seconds. In the second heat the Fisherman's crew, of Halifax, and the Paris crew of St. John, rowed against each other. The Halifax men led all the way and came in 20 lengths ahead. Time: 17 minutes, 58 seconds—the fastest on record. The final heats in four, between the English and Halifax crews, will be rowed on Wednesday. To-morrow will be rowed the pair-oared race and the final heats for single sculls. The chances for Halifax in the final heats for fours are considered good. OTTAWA. Ottawa, Sept. 1.—A deputation from the Board of Trade had another interview with the Ministers, last night, when they were informed that the Government would aid in the forwarding of goods to the American Exhibition, in April next. The Premier stated that the precise mode of doing this was a matter for further, but early, consideration by the Government. The public would be advised of steps deemed necessary in the case. One request of the deputation was that the Government should appoint three Commissioners and engage a staff of clerks to be appointed to the Agricultural Exhibition, in Philadelphia. Information for the general public of the character of goods likely to find a market there at the present time will be furnished as soon as inquiries are being made are brought to a conclusion. Some of the Australian colonists have authorized gentlemen to purchase a large portion of the agricultural implements now exhibiting in Philadelphia. These will be shipped direct from that place. MONTREAL. Montreal, Sept. 1.—Two Americans, having on their person a large quantity of cash worth of diamonds; fortunately they were caught in the act and arrested. A man named Hayden, of St. Anne's, Quebec, formerly an hotel keeper, there, shot his wife and brother-in-law, yesterday. The victims are not expected to survive. Hayden has been arrested. Montreal, Sept. 3.—Le Revue, of Quebec, says that canon Lamache has arrived in Rome too late to exercise any influence upon the Papal Court, in regard to the election of Bishop Bourget's successor, and that Bishop Fabre, brother of Senator Fabre, has been nominated to the vacant post. Hyacinthe was swept by fire this afternoon, most of the houses being destroyed. Less than two million dollars. Mr. Krupp, son of the great gun manufacturer, is in town. On Friday two men were arrested for attempting to steal diamonds from the store of Savage & Lyman. NEW BRUNSWICK. St. John, Sept. 1.—The news of the Halifax crew's victory created great surprise, and when first bulletins would not be credited. When the Paris crew left they were rowing in better form than ever before, and our people were almost certain of victory. Crews gathered about the telegraph office at 2 o'clock and continued till 6. A BRAVE LITTLE BOY SAVES HIS MOTHER FROM DROWNING. From the St. Stephen Journal. On Thursday, the 24th inst. Fred Berryman, aged 12 years, rowed his mother, Mrs. Berryman, and two of his sisters, both younger than himself, across the St. Croix to Calais, in a small boat. When they were rowing in better form than ever before, and our people were almost certain of victory. Crews gathered about the telegraph office at 2 o'clock and continued till 6. A BRAVE LITTLE BOY SAVES HIS MOTHER FROM DROWNING. From the St. Stephen Journal. On Thursday, the 24th inst. Fred Berryman, aged 12 years, rowed his mother, Mrs. Berryman, and two of his sisters, both younger than himself, across the St. Croix to Calais, in a small boat. When they were rowing in better form than ever before, and our people were almost certain of victory. Crews gathered about the telegraph office at 2 o'clock and continued till 6.
