Decline of Suchalism.-Mr. Oren has taken his leave for ever of Rose IIall, Inmpshire, 'for America. The specuin, tion, after expelsing upon it $£ 37,000$, has proved a decided failuro. Mr. Owen left it a tew days ago in a carriage purchased for him by wo hadies; owho, according to report, had lent him 57,000 tovards completing "Harinony Halt." They now appear to resign all hope of principal or interest. It is further said that even the deposite money for Rose Hull has not veen paid. The Hampshire breczes were getting troublesome to the iather of Sucialism; hence his suduen departure.-Morning Post.

Increase of "Popery in Genera.The progress whech Popery has made at Goneva during the last thirty years has beon great and rapid. A recent number L'Espuerance gives some statistical detatis which show this in a very striking light. In 1514 there were in the city of Geneva only S00 Catholics; now they amount to 7,000. At :his day, in 1842, the number oi the two parties stand thus: $-29,000$ lrotestams, and 14,000 Catholics. So that without any extraordinary addition being turde to the numbers of the latter, necording to the regular rate of increase, ": no very distant period, unless something unforscen prevent it, both city and canton must fill into the Papisis.
