THOMAS GUY, breeder of, Ayrshire Cattle, Leicester and Southdown Sheep and Berkshire Pigs, Sydenham Farm, Ottawa, Ont.

No journal of its class has attracted so much attention during the past twelve months as the **TURF, FIELD AND FARM**, published weekly at 29 and 41 Park Row, New York. It has discussed breeding theories in such a way as to make a marked impression upon the thoughtful public mind and to draw out the views of many able students of the problem of reproduction. It has shed a great deal of light on an important question, and its opinions have been widely quoted. Its reports of running and trotting meetings have been models of clearness and accuracy, and its Field and Kennel Department has been better than ever. The first bench show, the first gun trial and the first field trial in America were given at the suggestion and under the direction of the **TURF, FIELD AND FARM**, and so there is a logical reason for the paper being recognized as an authority upon dogs and guns as well as horses. The athletic and aquatic champions have signed in its office articles of agreement for their important contests, and the paper is extensively read by men fond of these vigorous sports. Much space is given to the two great intellectual games, chess and checkers, and of these it speaks with authority. The dramatic department bears the stamp of scholarship and originality. The amount of fresh and original matter published by the **TURF, FIELD AND FARM** is astonishing, and it is gratifying to learn that the circulation of the paper is rapidly increasing. In ability, circulation and influence it is second only to its great rival, the *London Field*.

DR. W. SMITH M.R.C.S.

ENGLAND, SPECIALIST.

Nervous Debility in all its various forms, and Private Diseases in all their different stages successfully treated. FOR UNDERDRAINING.

Will do more work than 30 men with spades. Guaranteed to give satisfaction. Send for Circular.
WM. RENNIE.
SOLE MANUFACTURER, TORONTO CANADA.

WHAT IS CATARRH?

From the Toronto (Canada) "Mail."

Catarrh is a mucous-purulent discharge caused by the presence and development of the vegetable parasite amoeba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the biligmented corpuscle of tubercle, the germ poison of syphilis, mercury, toxemia, from the retention of the effeted matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are generated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the deposit of the seeds of these germs, which spread up the nostrils and down the fauces, or back of the throat, causing ulceration of the throat; up the Eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalants and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Some time since a well-known physician of forty years' standing, after much experimenting, succeeded in discovering the necessary combination of ingredients which never fails in absolutely and permanently eradicating this horrible disease, whether standing for one year or forty years. Those who may be suffering from the above disease should, without delay, communicate with the business managers, Messrs. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp.

What the Rev. E. B. Stevenson, B. A., a Clergyman of the London Conference of the Methodist Church of Canada, has to say in regard to A. H. Dixon & Son's New Treatment for Catarrh.

New Treatment for Catarrh.

Messrs. A. H. DIXON & SON:
Dear Sirs—Yours of the 13th inst. to hand. It seems almost too good to be true that I am cured of Catarrh, but I know that I am. I have had no return of the disease and never felt better in my life. I have tried so many things for catarrh, suffered so much and for so many years, that it is hard for me to realize that I am really better.

I consider that mine was a very bad case. It was aggravated and chronic, involving the throat, as well as the nasal passages, and I thought I would require the three treatments, but feel fully cured by the two sent me, and I am thankful that I was ever induced to send to you.

You are at liberty to use this letter, stating that I have been cured at two treatments, and I shall gladly recommend your remedy to some of my friends who are sufferers.

Yours, with many thanks,
Rev. E. B. STEVENSON.
