

The Gill annealing furnace.....	254
The milling of gold quartz.....	291
Imitation jewels.....	338
Color relations of metals.....	338
The assay spitzlutte.....	361
Californian subirrigation.....	262
Reproduction of metals.....	262

MISCELLANEOUS.

The Winnipeg basin.....	14
Adulteration of merchandise.....	15
Population of the world.....	19
Watering live stock on the cars.....	25
Human trees of India.....	28
The Channel tunnel.....	33, 353
Huston's patent ship berth.....	35
Discoveries made by accident.....	38
Commercial travellers' schools at Pin- ner.....	44
Corn as fuel.....	53
Monopolies in the United States.....	65
The improvement in trade.....	65
Opium producing in India.....	71
Obamber's brick machine.....	74
The paper trades of Ireland.....	83
The treasury building, N. Y.....	100
Holm's drying kiln.....	105
Long's swinging gate.....	128
About railway stations.....	129
The stone face of Staten Island.....	164
Improved post hole digger.....	180
Slate pencil manufacture.....	132
Egyptian antiquities.....	193
Hints to brewers.....	206
Machine for packing printed sheets.....	219
Sir Josiah Mason.....	225
Landlord and tenant.....	225
The census in Canada.....	257
Hill's car-starter.....	266
Ellithorp's lasting machine.....	266
Illumination of railroads.....	274
The exhibition season.....	289
The Mackay patents.....	290
Substitutes for coal.....	295
A fishing wheel.....	319
Improved freight car.....	319
Measurement of water in pipes.....	322
Improvements in Halltax.....	321
Fire proof safes.....	326
The trade in fresh meat.....	330
Oleomargarine for butter.....	332
Slow burning roofs.....	332
Boot and shoe making by machinery.....	334
Utilization of potatoes.....	351
Illusions of touch.....	352
The employers' liability act.....	353
Free trade.....	354

Adulteration of liquors.....	354
The perfect cotton picker.....	364
Improved Kaleidoscope.....	367
The new Scylla and Charybdis.....	371
Improved drawing pen.....	373
Joluted pitchboard for squares.....	373
Centrifugal snow plough.....	384

NATURAL HISTORY.

The sword bill humming bird.....	30
A strange parasitic fish.....	30
The Gecko or wall lizard.....	61
Curious facts in natural history.....	62
The parasites of a monster jelly fish.....	92
Cheiromeles torquatus.....	94
The Horned screamer.....	94
Gardening.....	95
The wolf fish.....	98
Fells lynx.....	98
Swinging stage for microscope.....	110
Scaly finned fishes.....	126
A curious inhabitant of the Sargasso sea.....	158
The origin of man.....	161
Stag and Chaupion Beetles.....	187
Bee notes.....	188
The lemur varl.....	222
Sleeping fish.....	220, 223
Moles, their use and hurtfulness.....	268
The American Osprey.....	284
The sea lamprey.....	285
Pot culture for fruit trees.....	289
The great coral worm.....	315
The eggs of bird parasites.....	317
Peculiarities of the Cephalopoda.....	318
Wood peckers.....	347
City bee keeping.....	349
The Condor.....	382
Wasps and their nests.....	382

SANITARY AND PLUMBING.

Plumbers and gasoline.....	19
The drainage of Ottawa.....	65
The song of the sewer.....	66
A school for plumbers.....	90
Cisterns.....	90
Ventilating drains.....	91
Oval traps.....	116
An intricate job of piping.....	117
Gas baths.....	129
Carr's water closet.....	145
Soldering by electricity.....	164
Urinal setting in the Trinity building.....	191
Sequeira's water meter.....	191
Wholesome water.....	306
Skimmed milk in N. York.....	321
Gas analysis.....	338
Zuber's fitter.....	384

SCIENTIFIC.

The Bates electric lamp.....	3
Faber's talking machine.....	6
The Brush electric light.....	7
Do illustrations.....	8
The photophone.....	9
Edison's new dynamo-electric ma- chine.....	21
Discoveries in Palestine.....	33
The magic mirror.....	45
Trouvé's electric motor.....	49
The electric light in photography.....	65
New telephone transmitter.....	77
Richard Arkwright.....	86
Thermometers.....	95
Polar exploration.....	99
The logarithmic slide.....	102
The Telectroscope.....	111
The Gower telephone.....	112
Holz electrical machine.....	138, 273
Heating by electricity.....	139
The future of electricity.....	142
Electric middlings purifier.....	150
The electric light at Craigsidc.....	157
Hunting in electricity.....	161
Soldering by electricity.....	164
Improved optometer.....	164
Electric lighting in London.....	166
The Paris electrical exhibition.....	167, 298
New telescope of short focus.....	166
Slide for magic lantern.....	169
The telephotograph.....	189
Compressed electricity.....	190, 271
Thermophones.....	212
An electric railway in London.....	213
The polarization of sound.....	214
Siemen's electrical furnace.....	215
Electro-massage.....	237
The Faure battery.....	238
The electric boat.....	240
Dynamic electricity.....	241
Production of sound by radiant heat.....	243
The induction balance as a bullet finder.....	273
Malche's battery.....	274
Antecedents of the bell telephone.....	275
A compact battery.....	298
Electric lamp lighters.....	299
Improved electric generator.....	299
New portable battery.....	301
Cut off for electric lamps.....	339
Electric flying machine.....	341
Instantaneous photography.....	349
The origin of telegraphy.....	366
The electric light in New York.....	366
Electric clock dial.....	367
