LOCAL AND DISTRICT NEWS.

Mrs. O'Reilly, who has for some years been matron of the Andrew Mercer Reformatory for Females and Refuge for Girls, has resigned her position. Her resignation, it is understood, took effect on the 11th inst.

KNIGHTS OF ST. JOHN.

The following resolution was passed Columbus Commandery 219: Whereas, it has pleased Almighty God in His infinite wisdom to call to Himsel! William Moylan, the father of Bro. William M. Moylan, and "Whereas, Bro Movlan has always occupied a prominent place in the hearts of the members of this Commandery merited by the great interest he has always taken in the welfare of the Commandery and Order, be it

therefore: Resolved, That while bowing in humble submission to God's Holy Will we do hereby tender to Bro. Moylan our most sincere sympathy m his sorrow."

Donald B. Boney, President; Charles J. Regan, Recording Secretary.

INDEPENDENT FORESTRY.

The statement handed out by the Medical Department shows that over six thousand applications were receiv ed at the Head Offices of the IO.F. during July. This is by far the 'argest number that has been received in the month of July in the history of the order, and may, therefore be considered a record-breaker. The same month was also notable in that it records an increase in the accumulated funds of upwards of ninety thousand dollars, the funds standing at the end of the month at \$4,866,732. There was paid out during the month for the several benefits of the order the sum of \$120,275, making the total payments for benefits to the 1st of August the magnificent sum of \$10,-286,710. Dr. Oronhyatekha, the Supreme Chief Ranger, sailed on Tuesday for Norway, in connection with some special work of the order, and to arrange for the extension of Indepedent Forestry in the several Scandinavian counties, Cable advices from Australia indicate that some excellent 'business was secured throughout the Commonwealth during the month of

FUNERAL OF THE LATE MR. BOYLE.

On Saturday morning a large concourse of citizens paid the last tribute of respect to the remains of the late Mr. Patrick Boyle. At 9.30 the body was carried from the house, 67 Isabella street, to S Basil's Church, where a solemn Mass I Requiem was sung. The funeral prox usion then reformed and the burial took place St. Michael's Cemetery. The coffin was covered with flowers sent by sympathizing friends.

At St. Basil's Church, which was At St. Basi's Church, which was filled with a congregation representative of all classes of citizens, the celebrant of the Mass was Rev. Father Brennan, C. S. B. Rev. Dr. Teefy, principal of St. Michael's College, was deacon and Rev. Father Hand, parish priest of St. Paul's, sub-deacon. In the sanctuary were Rev. Dr. Treacy, Rev. L. Minchan, pastor of St. Peter's, R.v. Father Walsh, C. S.

McBrady, James Melrick, Nicholas Murphy, K. C.; Ald. Hubbard, William O'Neil, John D'Arcy, O. W. Mooney, A. S. Irving, George Richardson, Edward Kelly, John Maughan, John Higgins, John O'Neil, Michael Moriarity, John

Hurst, Mr. Laughrin, T. Cunerty, Wil-Ham Donnelly, Michael Feeney, W. J. Graham, John A. Cooper, James A. Desmond, F. McKenna, P. J. Fariday, W. Healy, Robert O'Farrell, W. Bell, Peter Ryan, M. Walsh, W. J. Bllard, John A. Granger.

The final service at the grave side was read by Rev. I. Brennan.

NEW CHURCH AT ALBION. On Sunday last His Grace the Archbishop of Toronto attended at Albion and laid the corner-stone of the new church there, which will be dedicated to the service of God before the close of the present year. Fathe. Whelan. formerly of St Paul's in this city and later of St. Catharines, is the parish priest, The church will seat 300 people and the cost will be in the neighborhood of \$6,000. It stands on a commanding sight upon a hill, and the plans have been prepared with the view to enhancing the picturesque features of so appropriate a location Mr. Arthur W. Holmes, of Toronto, who has built a large number of the most beautiful rural churches in Ontario is the architect.

A WONDERFUL NUT.

A native of the western territories of Africa, the Kola Nut is not likely to remain much longer in obscurity if the properties which, on good authority, it is said to possess, are found to be as ststed. From information communicater to the Fiji Agricultural Association by Sir Thomas B. Thurston the cultivation of this nut should form an important industry of the future in tropical countries. Its qualities are as varied as they are extraordinary, some of these qualities have only lately been discovered, one of the most active investigators being Mr Thomas Christy, F. L. S., who has proven that Kola feeds the muscular system and prevents a rapid waste of tissues The British Government have been making experiments with the pure paste of the Kola Nut in order to ascertain how far it would meet the difficulty of transporting provisions in time of war as a concentrated sustainer of human life. Mr. Christy strongly advises planters in the colonies who have low damp lands, to devote their attention to the cultivation of Kola, which is sure to rise into importance when its properties become better known. The usefulness of Kola in hot climates, when water frequently contains the germs of various diseases, should be great, as a small quantity added purifies and changes foul water that would be dangerous to drink, unless it were tirst boiled or treated in this way.

Dr. Nachtigall who writes from personal experience gives some interesting information regarding Kola in his book on the Soudan. It has a marvellous effect when taken into the human system, it is agreeable, stimulating and nourishing. In some places where Kola happens to be scarce, such value is set upon it that for the dry powder of the nut an equal weight in gold dust is given in exchange

In the West Indies and Fiji where Diarrhoea is so prevalent, Lola has been foun' useful in allaying it. This wonderful nut has risen into such request as a medicine, that for the public good the authorities are investi-gating its many properties, and there is satisfaction in knowing that the same is being done in this country and elsewhere. Whatever may be the ultimate outcome of these experiperiments sufficient evidence has been already collected to prove that Kola has an extraordinary influence in counteracting the effects of alcohol, that it acts as a powerful tonic in cases where the digestive organs are defective, that it purifies foul water, and that it sustains hard workers with very little food. The Kola tree (Kola : Acuminata) : grows to a eight of twenty or thirty feet. large leaves, and begins to yield about the fifth year. After the tree bursts into blossom the flowering is almost continuous, a bearing, tree having fruit and flower at the same time. Two crops are obtained in the year, in June and November. When ripe the nuts are gathered with great care and bought by merchants who ship them to different places.

Medical men prescribe the Kola before meals to people who have reason to feel anxious about the state of their liver.

Everybody knows the refreshing properties of tea due to the theine therein contained, and of this Alkaloid Kola contains a much higher proportion than either tea or coffee, and more obromine than cocoa. Theine and obrome it may be stated, are largely made up of nitrogen, which forms four-fifths of our atmospheric air so essential to animal life. As a medicine Kola will undoubtedly take an important place in the future, it seems admirably suited to the case of invalids who require something strengthening, without having an ap petite to taste food, for a person par-taking of a nut weighing only a quarter of an ounce feels his frame braced up even by that small quan-

tity.

Kola Toale Wine is manufactured from Kola, Celery and Pepsin. In this combination we have accomplished a scientific triumph because it has been proven that not only must dis-

ease of almost every kind give way to its health-giving properties, but it puts the system into such a condition of perfect healthfulness, that it is a practical proof against all disease. Indigestion, Dyspepsia, Asthma, Rheumatism and all nervous troubles can be cured by using Kola Tonic Wine. Beyond the peradventure of a doubt, the Hygiene Kola Company has one of the finest remedies on this continent and of which might be truly said, 'Tis a wonderful product of the 20th Century

Samples of Kola Nut can be seen in the window of the Hygiene Kola Company, 84 Church street, Toronto.

HER DIVORCE CELEBRATION "Come back here a minute if you have time," said a stationer to the New York Sun "Did you ever see anything like this?" he added, as the customer approached.

"This" was an announcement got up in regular wedding card style on heavy white paper. The stationer read it aloud:

MRS ISRAEL MURRAY requests the pleasure of your pres ence at the celebration of her divorce from

MR. ISRAEL MURRAY. Wednesday evening, July Tenth, Nineteen Hundred and One at Nine o'clock.

He paused and looked at the cus tomer.

"Well, I'll declare!" gasped the customer. "Surprise you?" asked the sta-

"Well, rather." returned the cus-

tomer "It's the funniest thing I ever heard of."

"It's a new one on me, too," said the stationer. "I've printed a good many odd invitations and announcements in my time, but this thing of celebrating a divorce is a decided nov-lty. I don't know whether the custom is ever going to become popular or not, but if there are many people in New York as glad to be released from matrimonial entanglements as is Mrs. Israel Murray I will probably print a good many such notices in the course of the next few months."

RAIN IN THE WOODS. Silence first, with gloom o'erhead; Not a stir in bush or tree; Woodfolk all to converts fled; Dumb the gossip chickadee

Then a little rustling sigh; Treetops toss, and bushes shake, And a silent wave goes by In the feathered fern and brake.

Now a murmur, growing loud In the pine tops far and near; And the woods are tossed and bowed, Like a soul in sudden fear.

Hark! the music of the rain On a thousand leaky roofs, Like an army o'er a plain Galloping with silver hoofs!

Patter, patter, on the ground, Rustle, rustle in the trees; And the beaded bushes round Drip when shaken by the breeze.

Ahl if you would nature know Close and true in all her moods,
Flee not from the show'r, but go
Hear the raindrops in the woods!

—James Buckham.

CANADIANS IN BUFFALO. Buffalo Union and Times: Among the Canadian Knights of Columbus who visited Buffalo last week were Hon. Frank Latchford, Ontario Commissioner of Public Works; Barrister Gorman, one of Ottawa's prominent legal lights; Thomas Mulvey, a wellknown young Toronto barrister, and Andrew J. Cottam, president of the Irish Musical Art Association of Toronto. Mr. Cottam is no stranger in Buffalo, having lived here several years. He has always been identified with the best Catholic life of his present Canadian home, wany old-time Buffalo friends were alad to greet him and hear of his continued success.

In the forests of Central India tree has recently been discovered which has cutious characteristics. The leaves of the tree are of a highly sensitive nature, and so full of electricity that any person who touches them receives an electric shock. It has a very singular effect upon a magnetic needle, and will influence it at a distance of even seventy feet. The electrical strength of the tree varies according to the time of day, being strongest at midday and weakest at midnight. In wet weather its powers disappear altogether. Birds and insects never ap-

DEATHS.
