TORONTO MARKETS.

TRADE.—Has been rather quiet all week.
BUTTER.—Holders are now offering considerable quantities and seem anxious to find buyers, but this is not to be done as all our dealers, except one, hold oil most determinedly. The only sales reported are those of a lot of 65 packages of selected at 13je, and a car of the same sort to-day at 13je at Guelph. For round lots there are no buyers at any price. English advices continue to be unifavourable. In London there was nothing doing at latest advices, and a Liverpool quotations stood at figures equal to 15 to 17je here.
CHEERI.—The narket has been fairly active. There was a lot of 48 boxes of mixed qualities sold last week a 9e, and two lots of 25 each sold at the same price this week. But a lot of fifty boxes of choice brought 9je outside. Prices of small lots have declined half a cent.
EGGs.—Receipts have been on the increase, and there are now as many to be had as are wanted. Prices have declined about a cent, the range at present being from it to 15c.
Pork.—There is very little doing. The enquiry has fallen off, but holders are firm at unchanged quotations.
Bacon.—The market is active. Sales were made

has fallen off, but holders are firm at unchanged quotations.

BALON.—The market is active. Sales were made last week of 200 sides of Cumberland at 6tc; 100 sides at 7c; lots of one and two tons have sold at 71 to 71c; a good demand exists for these and still smaller lots.

HAM.—Stocks are very light. The demand continues to be active and prices firm. (For a lot of 100 canvassed 131c has been paid and none could be had at a lower figure.

LARD.—Seems to be rather more active. There have been safes this week of lots of 40 and 50 timest at 94c. Similiots are steady at 10 to 104c.

Hoss.—There is very little doing; almost all sales are by contract; prices are unchanged.

DRUD APPLES.—Are quiet but held firmly.

Hors.—Some few bales of old have been sold at 150 and some more shipped. Last years are chquir ed for and if of choice quality would brobably com-mand 600, and scarcely any can so had.

canadian public:

"The railways here, that is in England, are not better than our own. Eather the English reads have detertant on own. Eather the English reads have deteriorated, or else our own have appreciated. I assume that the fastest train on the direct line between Liverpool and London may be taken as a fair sample, and compared with similar trains on the New York and Erie Railwoy at home with which I can most familiar. From Liverpool to London, two hunred and twenty notics, through first class fare is thirty-five shillings—say nine dellars. On the New York and Eric, frem New York to the west end of Suspension Bridge, in Canada, distance upw rids of four hundred end fifty mifes, in drawing room ceach, the fare is nine dellars and twenty-five cents. We ride in by for the meet elegant coaches on the Eric than here in England, and at only one half the cost. We ride as fast, too, on the Eric as it. England, about thirty-nine inites in either case. In smoothness there is no comparison. Motion so fast New York and Eric is like full palls in a 'wheelbarrow. Here there are four wheels inder a ceach, on the New York and Free twelve! Here one wheel falling necessiates disaster; on the Eric we can spin of from one to sty, and, if judiclously selected, the coach is still mobile and not a wreck. Here it is difficult to talk, and impossible to write, on the Irie I do both intelligibly. I am proudly surprised, after an absence of so an evars, we shad an English railway no longer superior to others in the world in any particular that effects a traveller—no, not even

ANILLUSTRATED MONTHLY JOURNAL

claimed to be the HANDSOMERT PAPER IN THE WORLD.

"Give my love to the artist workmen of THE ALDINE who are striving to make their profession worthy of admination for beauty, as it has always been for usofulness."—Henry Ward Beecher.

THE ALDINE, while issued with all the regularity, has none of the temperary or thirdy interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature and a collection of pictures, the rarest spectures, of artistic skill, in black and white Although each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the ciliton of 1871 is already exhausted and it is now a scarce as well as valuable book.

The pictures are being reproduced without regard to expense by the very best engravers in the country, and will bear the very severest critical comparison with the best foreign work, it being the determination of the publishers that THE ALDINE shall be a successful virulication of American taste in competition with any existing publication in the world.

LITERARY DEPARTMENT.

Where so much attention is paid to illustration and get up of the work, to much dependance on appearances may very naturally be feared. To anticipate such misgle ings, is only necessary to state that the editorial management of THE, ALDINE has been intrusted to Mr. Richard Henry Stoddart, who has received assurances of assistance from a host of the most popular writers and poets of the country.

THE VOLUME FOR 1872,

will contain nearly 300 pages, and about 250, fine engravings. Commonting with the number for January, every third number will contain a beautifully time-t picture on plate paper, inserted as a frontispiece.

Prospectus of the CANADIAN MONTHLY AND NATIONAL REVIEW.

A feeling has long provailed that the intellectual life of the Canadhan hation ought to have some or-gan in the form of a good periodical. Attempts have been made to give it such an organ, but hith-erto they have not been successful. In some measures they may have been premature; but it is believed that their failure has been mutuly due to the want of a sufficiently strong and well-organized staff of writers, and of a fund sufficient to guarantee to contributors the fair renuncation, without which as unlittplied experience proves, a periodical cannot be successfully carried on.

These requisites have now been effectually secured.

The literary aid and materials requisite for the support of a first-class magazine will be sought, without restriction, from all quarters—Canadian, bitish, and Foreign. But it is needed that the Magazine shull have a specially Canadian character, such as, it is hoped, will calist Canadian pariotism in its support.

Politics will be treated with the aim of infusing as much as possible of the instorical and philosophical spirit into the popular discussion of political questions.
