Wyeth's Liquid Malt Extract is a most agreeable and valuable nutrient, tonic and digestive agent, containing a large amount of nutritious extractive matter, and the smallest percentage of alcohol found in any liquid preparation of malt.

Dr. D. Chatham, Ont., writes:—"It affords me great pleasure to say that ever since its introduction I have prescribed Wyeth's Malt Extract with gratifying results. I believe it to be a most valuable and reliable aid and stimulant to the processes of digestion and assimilation, in addition to its purely nutrient qualities, which from analysis given must be of a high order.

## Study Economy ...

Everybody considers it a luxury to use Johnston's Fluid Beef, and so it is, but when when it can be bought in 16 oz. bottles for \$1.00 it is also economical.
