## THE IDEAL INCINERATOR

is "MADE IN CANADA"

Before being placed on the market the "IDEAL INCINERATOR" was tested by experts. It is a unique system of disposing of all kinds of garbage, in an economical, an odorless and highly efficient manner.

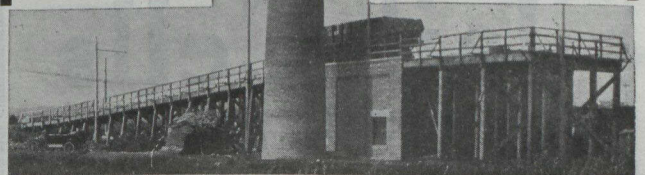

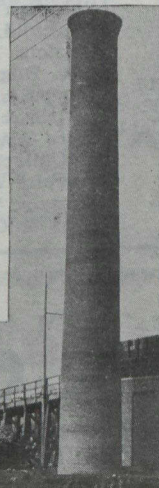

View of "Ideal" Plant at Berlin, Ont.  
Capacity 30 tons per day

The "IDEAL INCINERATOR" can be built to burn garbage of the largest or the smallest municipality. Many new features are found in the "IDEAL INCINERATOR" which lessen the cost of operation, which it will pay to investigate. Additional Cells may be added without altering existing flues, chimney or building.

Every Municipality must dispose of its Garbage

The Modern and Sanitary Way is to BURN IT

THE IDEAL INCINERATOR will do this AT LESS COST than any other, on account of its COMMON SENSE DESIGN
