

ARTICLE 11

A vessel under 150 feet in length, when at anchor, shall carry forward, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a lantern so constructed as to show a clear, uniform, and unbroken light visible all round the horizon at a distance of at least ± 2 miles.

A vessel of 150 feet or upwards in length, when at anchor, shall carry in the forward part of the vessel, at a height of not less than 20, and not exceeding 40, feet above the hull, one such light, and at or near the stern of the vessel, and at such a height that it shall be not less than 15 feet lower than the forward light, another such light.

Between sunrise and sunset all vessels when at anchor in or near a fairway shall carry, forward, where it can best be seen, one black ball, 2 feet in diameter. The length of a vessel shall be deemed to be the length appearing in her certificate of registry.

A vessel aground in or near a fairway shall carry *by night* the above light or lights and the two red lights prescribed by Article 4 (a), and *by day, where they can best be seen, 3 black balls, each 2 feet in diameter, placed in a vertical line one over the other.*

ARTICLE 12

Every vessel may, if necessary, in order to attract attention, in addition to the lights which she is by these Rules required to carry, show a flare-up light or use any detonating or other efficient sound signal that cannot be mistaken for a *prescribed* distress or fog signal.

ARTICLE 13

Nothing in these Rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for vessels sailing under convoy, or with the exhibition of recognition signals adopted by shipowners, which have been authorized by their respective Governments and duly registered and published.

ARTICLE 14

A ~~steam~~ vessel proceeding under sail only, but having her funnel up, when also under steam or other mechanical power shall carry in the daytime, forward, where it can best be seen, one ~~black ball~~ black cone, point upwards, 2 feet in diameter at its base.
