Dear Mrs. Alexander,

Miss Kyle phoned my secretary yesterday to say that word had been left here some time ago that you had been nominated by the B.H.S. Graduates' Society as their delegate to any meetings where the courses in the School of Household Science were discussed.

I regret that for some reason this was not brought to my attention.

We are going to have another meeting very shortly, and I have given instructions that you be notified.

Ever yours faithfully,

Principal.
