

DYING FROM GALL-STONES

Doctors Said Only an Operation Could Save His Life—"Fruit-a-tives" Enabled Him to Pass Nearly 200 Gall-Stones.

J. B. HARDING, Esq.

46 Grove Ave., Toronto, Ont., Jan. 10th, 1913.

"I suffered untold agony from GALL-STONES for the past three years and tried many doctors without getting relief. I also paid \$5.00 for one bottle of medicine which was useless. At times the pain from these gall-stones was so great that I lost consciousness, and my condition was desperate. I was quite satisfied that I was dying and the doctors said I must be operated upon.

"During one of these very severe, acute attacks, I was given some 'FRUIT-A-TIVES', and after taking a short treatment of this remedy, I passed gall-stones over an inch in length, and as many as one hundred and fifty or two hundred in number. 'FRUIT-A-TIVES' was the only thing that would relieve my pain. They are the greatest medicine in the world, and if there is anyone in Canada, or anywhere else, that suffers from gall-stones, I say, 'Let them take 'Fruit-a-tives' and be cured.'

"If this testimonial will further the good work of 'Fruit-a-tives', publish it with my full authority."

Are you wondering how 'Fruit-a-tives'—a medicine made from fruit juices, can cure Gall-stones? We will tell you. The Gall bladder is the reservoir for holding the Gall, or bile, secreted by the liver. If there is insufficient bile, then the bile in the Gall bladder is thick and easily forms stones. When the liver is weak, it secretes very little bile and then the Gall bladder is partially filled with a thick, jelly-like mass of bile and thus forms into lumps or stones. 'Fruit-a-tives' stimulates the liver to secrete more bile, and this increased bile softens the Gall-stones and by overfilling the Gall bladder, forces the passage of the stones through the Gall duct—and thus cures the disease.

'Fruit-a-tives' is the only medicine in the world made of fruit juices. By a wonderful process, the medicinal properties of certain fruits are greatly intensified—then valuable tonics and antiseptics are added and the whole made into the pleasant tasting tablets known in every section of Canada as 'Fruit-a-tives'.

FRIGHTFUL DEATH FLIES WITH TRAIN

Fast Freight in Northern Ontario Wilds Kills Laborer and Maims Comrades.

The details of the horrible death of a Russian Pole and the mangle of his two comrades by a flying freight train on the far north stretches of the C. P. R. reached the provincial police department late yesterday. The out-of-the-way nature of the situation and the difficulty of traversing camps retarded the report of the tragedy, but a message from one of the constables despatched to the spot depicts a terrible experience for those concerned.

The story tells of four laborers leaving one camp to journey to another and being overcome by the terrible heat, seeking rest in the shade of a railway tank, but in dangerous proximity to the tracks. The quartet lay down on the high gravel grading along which double trackage is planned, with their feet extending towards the rails. In a few moments all were fast asleep. As far as can be gathered from the incoherent jargon of those who escaped, they were awakened by the thunder of a train almost upon them. Lying as they were, the foot of one had extended beyond the tracks and the engine had roared across it in a moment. This apparently had catapulted the wretched victim foremost into the train and he was hurled backward with skull crushed in. Two of the others, rising with frightened screams, had been sucked against the cars, but managed to break away with lesser injuries. The train rushed away into the distance with the crew unconscious of the tragedy.

The three then hobbled down the track toward the signal station, leaving

the body of their dead comrade lying in the sun.

Wired Police Inspector. The department first learned of the occurrence thru a telegram to Inspector McCurdy, telling him of a fight among the foreigners on construction at Lochlash, 70 miles west of Chatham. He departed at once and at the scene of the tragedy found the dead body lying some distance away, horribly battered and with the skull fractured. Between the tracks lay the detached foot, enclosed in a heavy boot. Blood was splashed upon the surrounding woodwork.

The inspector at once wired for the detention of three men who he had learned had taken a freight, and an inquest was arranged at White River. Here the facts of the case were brought out and a verdict of death, due to carelessness of the deceased, was given. The name of the dead man was found to be Lomel Manastyski.

He was one of a large construction gang working doubletracking the line. The other three are in the hospital, undergoing treatment for severe injuries.

LAKE OF BAYS.

One hundred and forty-five miles north of Toronto, on the line of the Grand Trunk Railway, a pretty little town nearly in the centre of what is known as the Huntsville and Lake of Bays District. The region in this locality is replete with natural beauty and loveliness, and comprises some of the most beautiful water stretches and picturesque landscapes for which that region is famous, with ever increasing army of tourists, who each year are looking for fresh fields to explore. Very few people even in Ontario, realize that Canada possesses such a magnificent pleasure ground as the Lake of Bays. Excellent fishing and boating can be found in the district.

Fast trains leave Toronto at 2:20 a.m. daily, carrying Pullman sleeping car, parlor-library-coach and coaches. These trains make direct connection between Huntsville with steamers for all points on Lake of Bays.

Tourist tickets at reduced rates, good to return until Nov. 30, are on sale to Lake of Bays points, and week-end tickets at single fare, plus ten cents for round trip, good going any Saturday or Sunday, and valid to return Monday following date of issue, are also on sale to a great many resorts on the Lake of Bays.

FERARI'S SHOWS AT BAYSIDE PARK

Congress of Wild Animals to Be in Toronto a Week.

MANY GREAT FEATURES

Coney Island Will Be Brought Here and Many Curios.

One of the most notable events of the outdoor amusement season will take place during the week of July 14, when Col. Francis Ferari's United Shows and Congress of Wild Animals will take possession of Bayside Park.

The engagement in Toronto is under the auspices of Ramesses Temple of Mystic Shrine, and that fact in itself is one good reason why the public may expect one big week of mirth and merriment.

The Ferari aggregation is the largest and foremost of its kind in America, and is the acknowledged leader of all carnival exhibitions.

In addition to these and many other features, Coney Island will be brought right to the doors of Torontonians. "Dreamland," the biggest success at Luna Park, will be here, likewise "Up and Down," "A Trip to Mars," "The Polles of the World," "The Smallest Horse in the World," "Ocean Wave" and freaks and curios from all parts of the earth. A daily street parade will be given, in which the magnificent band chariot will be drawn by the two mammoth elephants.

One of the many great features of the organization is the combined animal shows of Col. Francis Ferari and the late Frank Bostock. In a large steel cage are exhibited by their trainers educated lions, tigers, bears, leopards, panthers and kangaroos. For the amusement of the little ones, Dr. Palma's Circus, where dogs, ponies, mules and monkeys, give a most clever and entertaining exhibition.

HEAVY DEFICIT IN WATER SUPPLY

Quarter Million Lost in Operations—Argument For Meter System.

A deficit of nearly a quarter of a million in supplying water for the city last year was shown in a report of the city treasurer to the board of control yesterday. The report had been asked for.

Maintenance and charges were \$1,101,355.95; the revenue was \$979,727.61. Thus the deficit was \$121,628.35. It was further explained that owing to the dispute between the works department and the civic hydro system over the charges for power for the pumping stations, the deficit was increased until last year's overdraft. The amount agreed upon is upwards of \$100,000. The final deficit of the deficit is about a quarter of a million.

"A strong argument for the meter system being supplied generally," Controller McCarthy remarked.

TEN MORE CONSTABLES TO CHECK SPEEDING

Provincial Secretary Appoints Men to Prevent Joy-Riding.

It will pay all those who motor along the country to keep their eyes on the speedometer. Whether they do or not ten pairs of specially vigilant eyes will be trained upon their movements, and any infringement of the law will bring a call to account.

The provincial secretary's department has appointed ten new constables for work upon the different roadways throughout Ontario and these according to their instructions will keep a sharp lookout for illegitimate practices of any kind. The tendency of certain reckless parties to doze their lights at night and make themselves a nuisance by speeding in the dark, it is hoped will be checked in this way.

The new officials who are arranged for under the revised motor vehicles act are detailed to different sections. Those parts boasting unusually good roads will naturally be better guarded. Some of the points arranged for are Humber Bay, Blainyre and Prescott.

LABEL VICTIM GETS SOME CASH SOLACE

Sir Arthur Vicars Alleged to Have Shielded Thief of Crown Jewels.

LONDON, July 4.—(Can. Press.)—Sir Arthur Edward Vicars, who was Master King-of-arms at the time the crown jewels were stolen from Dublin castle in the summer of 1907, was today awarded \$25,000 damages for libel in a suit brought against The London Mail, a sensational weekly newspaper. The newspaper alleged that Sir Arthur had shielded the woman thief Vicars had shielded the woman who took the jewels, out of jealousy of his attachment for Lady Haddo, the wife of Lord Haddo, son of the Earl of Aberdeen, Lord Lieutenant of Ireland.

Both Sir Arthur Vicars and Lord Haddo denied in their testimony all knowledge of the disappearance of the jewels or of their whereabouts. The newspaper did not attempt to justify its story.

The evidence given disposes of the various stories in circulation that Lord Haddo knew something about the missing jewels.

IS THIS HOW YOU FEEL?

Without energy, without inclination to work, with muddled thoughts, depressed brain, lack of ambition, pains in the back, headaches, dull, stupid sensations, loss of appetite, arising in the morning unrefreshed from sleep, gloomy and despondent—the man whose nerves and strength are breaking down feels like giving up the fight. Do you feel these symptoms? If so, take heed.

DR. McLAUGHLIN'S ELECTRIC BELT

is for you. It pours glowing, exhilarating life into a weakened body; it rejuvenates, animates sluggish vitals, stimulates the brain to activity and fills the body with life, ambition and endurance. In one day it will make you feel as if born anew. It furnishes the motive power that runs your body and quickly banishes physical debility.

It is for those who open their eyes in the morning upon a world that looks blue and discouraging, for those who feel tired, despondent and out of luck; who have lost the fighting spirit—those who have almost sleep, and who wish that they were as strong as they used to be. It is all a matter of nervous energy—that is what ambition comes from—and that is what you can get from Dr. McLaughlin's Electric Belt.
