WHEAT RALLIED IN LAST HOUR

Bears in Control Most of the Time—Corn Followed—Shorts Frightened.
Canadian Press Despatch.
CHICAGO, Nov. 17.—Active buying, supposed to be largely for eastern export, supported the wheat market today in the last hour, notwithstanding that previously the bears had had control of the market most of the time owing to the piling up of stock. The close was 3/4c to 1/2c above last night. Corn finished easy, but the market was not so depressed as it had been. The market was weak, owing to clear, cold weather that was ideal for handling new corn.

ENGLISH OPERATORS STILL HOLD LEASES

Special to The Toronto World.
The English operators, who are expected to have secured options on practically the whole district around Wawa, within a radius of five miles, have shown no intention to lose their options. The negotiations have been in order and should be completed in a few days. It is no doubt that considerable exploration work will be done by the controlling syndicates in this district.

DEMAND IMPROVES FOR SPRING WHEAT

Price Irregular—Feeling Unsettled—Coarse Grain Quiet.
Canadian Press Despatch.
MINNEAPOLIS, Nov. 17.—There was a decided improvement in the demand for winter wheat at the market today, but the prices bid for all grades were very irregular, none of them being 5c per quarter lower than others, which would indicate that the feeling in the English market is unsettled, however. Demand for mill-feed is good and the market is active.
