Rankine himself that his company will build right away. The plan is to erect vorks just below Peter Island, on the Canadian side, at a cost of two and a half million dolfars. The poles and wires necessary to carry the current the 97 miles will cost another \$600,000, and the horse-power to be transmitted to Toronto is somewhere in the neighborhood of 15,000. This will be increased when needed."

Asked what the power company had done so far on the Canadian side, Mr. Nesbitt replied that it had \$50,000 worth of buildings up.

'Vanderbilt, Aster and Morgan have their milkions behind this scheme,' said the lawyer, throwing himself back in his luxurious chair, "and another spur towards its completely milkions behind this scheme," said the lawyer, throwing himself back in his luxurious chair, "and another spur towards its completion lies in the avowal of the Government to void the franchise if the company is not doing business here before a year is over."

Rankine himself that his to erect thours a plate glass window. The fall through a pedestrian. He was taken to a private house afterwards that he was found by a pedestrian. He was taken to a private house, where he was attended to by several house. Where he was attended to by several house. Where he was attended to by several house. Where h

ONE CENT

The Operators' Committee is With Mr. Hays.

AN OFFICIAL STATEMENT.

Issued by the Management of the G.T.R. to Correct False Impressions.

Montreal. Dec. 21 .- (Special.)-The meeting between Mr. Hays and the telegraphers this afternoon was passed in discussing de-

tails and the conference was adjourned till to-morrow.

An Official Statement.

The Grand Trunk management have issued the following official statement:

It has been stated that the company had refused to grant an increase in pay, or shorter hours, to the telegraphers. This statement is not correct. The company is willing, and has so indicated to the committee, that we should take points where the pay may not seem commensurate with the amount of work involved, and where the compensation is less than is paid by our neighboring lines under similar conditions, and adjust them, but the company cannot make a uniform minimum scale, as is desired by the telegraphers, which shall apply to all stations, whether branch lines or on main lines; whether or not the employe is provided with house, fuel and light, as is the case at a large number of the stations, whether there are but two trains a day each way, or 15 trains a day each way; and whether the earnings of the station may be but \$100 or less per month, or \$1000 per month;

reach no understanding with Mr. McGugan. Mr. Hays also expressed his willingness to have another meeting with the committee this afternoon.

Powell Has a Reply. Montreal, Dec. 21.—Grand Chief Powell of the O.B.T. has issued a lengthy reply to the Grand Trunk's contention, in which he claims that the demand of the Grand Trunk telegraphers is only fair. He asso announces that better wages will soon be granted on the Canada Atlantic Railway.

VERDICT OF THE CORONER'S JURY

A communication has been received from the representatives of the Grand Trunk coperators in Montreal, by the committee in Toronto of the Federation of Railway Employes, stating that their presence may be needed there to help bring about a satisfactory settlement and help to avoid an threatened strike. If General Superintendent McGuigan refuses to hear the committee to-day, it looks as if a strike cannot be avoided. There May be a Strike.

WHAT LADY IS SHORT! In the vestibule of Government House has been posted the following proclamation, wherein it will be seen that some lady in
