the executive.

Plans were under way to secure the Walper House, but several counterproposals have been advanced, one of which is to have the association take the rooms of the Conservative Club, another being to rent a house on Queen's avenue. The Walper House can be secured for a rental of \$25 per month, and the stables for \$50 per month. The veterans would rent the stables for the same amount they would pay, and the city council has passed a bylaw granting freedom from the Greene-Swift plant.

Many of the veterans believe the Walper House would be self-sustaining as a clubhouse. It has 40 rooms, and the fubniture can be secured on a valuation. The dining-rooms are large enough for general meetings.

Objection to the proposal to have the soldiers use the Conservative clubrooms has been registered on the formund that not even a semblance of political control should creep into the organization. The house on Queen's avenue is declared to be nothing like as convenient and suitable as the hotel property.

The whole question will be before the counterporn and a lively discussion. property.
