Several days of disorders, following a wave of attacks on white women, robberies and assaults by negroes, culminated in a series of race battles during the night hours with which the police were unable to cope fully, despite the aid of military provost guards. Several persons were reported fatally hurt this morning at least 200 rioters were under arrest. MANITOBA CROPS TO BE FAIR, ALBERTA ONLY QUARTER YIELD

Rains in Saskatchewan Prove Benefit To Grains.

HARVESTING SOON Some Traces of Rust Found At a Few Points.

Winnipeg, Man., July 22.—Stammering up the crop situation in the three prairie provinces, the Manitoba Free Press this morning, in its third report this season, says that Manitoba continues to have excellent promise of a good crop, though possibly not the bumper crop that had been predicted. Alberta will have, at the extreme best, not more than a fourth of a normal crop, judging from the reports received by the Free Press up to a late hour last night.

So far as rust is concerned there is still time for great improvement, and the recent rains in Saskatchewan insure that there will be, at least, a fair crop. In Alberta the rust is already beginning to show, and is further south, even where they have had rains, they have not been heavy enough to be of much benefit to start the grass.

Traces of Rust.

Harvesting will be fairly general in Manitoba between August 1 and 5. Reports show that there are traces of rust at a few points, but that the crop is so far advanced that danger from this source is negligible, also, that there has been practically no damage from hail or wind, but some points report a lessened yield, probably from the extreme heat of last Thursday, as some of the heads are showing white tips.

Head of Austrian Peace Delegates Protests Against Hard Times.

Appeals To Countrymen To Submit Report On Distress.

Paris, July 22.—Dr. Karl Renner, head of the Austrian peace delegation, declared he would "not sign engagements which he knew could not be executed," in commenting on the peace terms, prior to his departure from St. Germain for Feldkirch, according to morning newspapers. Dr. Renner, according to these reports, protested against "the unheard-of hardness of the conditions made against Austria and Germany," and he added: "Let us try to submit to the Entente, completely unadorned, our great distress, and so obtain a peace with conditions that will be supportable for our country."

FORD DECLARES HE CANNOT REMEMBER MAKING STATEMENTS

Motor Manufacturer On the Witness Stand Seven Days.

IS CLOSELY QUESTIONED Admits He Was Opposed To Munitions Manufacture Prior to 1917.

Mount Clemens, Mich., July 22.—"You were opposed to the manufacture of war munitions prior to 1917," reminded Attorney Stevenson, when Henry Ford began his seventh day on the witness stand today.

"Yes, sir," responded the manufacturer, who is suing the Chicago Tribune for \$100,000 on a charge of libel. "Prior to that there was much agitation as to furnishing food and munitions to the Entente Allies and floating loans, wasn't there?"

"You opposed the loans, and the mission which came over to arrange them?"

"I said they ought to be carried out of the country."

"You were also opposed to making trouble over the submarine outrages?"

"Did you say that the excitement over the sinking of the Lusitania was political bunk?"

"Didn't think so."

"Didn't you say in the presence of friends that the Americans had no business to be on the ship?"

"I don't think so."

Mr. Stevenson read from a magazine article by Willis J. Abbott, in which Mr. Ford was quoted as saying that he had not been in Europe two hours on his peace mission before he realized that he had taken the wrong course, and that German militarism must be crushed before there could be hope of world peace. "I don't remember saying anything like that."

Britain's Premier Declares That Any Defects That May Be Found in Pact Will Be Remedied by League of Nations—Devlin's Motion To Reject It As Protest Against Premier's Attitude Toward Ireland Is Defeated by 163 to 4.

London, July 22.—At what was virtually an all-night session, the House of Commons completed its consideration of both the German peace treaty and the Anglo-French convention.

The bill carrying approval of the German treaty was considered in committee of the whole, exciting lengthy debate, in which Premier Lloyd George took an active part. The bill was then placed before the House and passed its third reading, after a motion by Johnson Devlin to reject it as a protest against the premier's attitude towards Ireland had been defeated by 163 to 4. Then, at 3 a.m., the Anglo-French pact was taken up, and the bill approving it was unanimously passed after a short but sharp debate, in which the argument that the treaty was not consistent with the league of nations failed to find any substantial echo.

The German treaty passed through all its stages without amendment. In concluding his speech on the treaty, Premier Lloyd George, while making no claim of perfection for it, expressed confidence that any defects would be remedied by the league of nations. Despite its imperfections, the premier declared the treaty would stand "as a lighthouse in the deep, and a warning to nations and rulers of nations against the perils which the German empire shattered itself against."
