A GREAT SPECTACLE,

A Parsial Himmination of the Dome of St. Peter's.

London, May 25.—Even secular Tome is beginning to get interested in the novel and imposing preparations for next Thursday's great beatification ceremony at St. Peter's. It has witnessed nothing of the kind since Rome became the capital of the Savy Kings, the two canonizations subsequent to 1870 having been held in the Vattan palace. There is nothing in the position or fame of the two saints now to be formally acclaimed as the founders of the Orders of Barnabites and Notre Dame nuns to account for this change, and it is natural for the same than the Members of Barnabites and Notre Dame nuns to account for this change, and it is natural for the same than the populace. Now it does not quite embrace the dome this time, but the portice and facade are to be lit up with 3000 torches and lanterns, and the rumor is that next Easter, if all goes-well, we may see the dome ablaze, as in good old days.

ALBERT KING OUT ON BAIL.

Buffalo, May 25.—A special to The Express from Niagara Falls, N.Y., says: For several weeks the Canadian newspapers shave printed stories about the building of an immense aluminum plant on land near Clifton, belonging to the Michigan Central Railroad Company. Manager Hickey of the plant in this city has been kept busy answering questions about the branch in Canada. The truth of the matter is that no aluminum plant is being built on the other eside, and the Pittsburg company is in no hurry to start it. In time there may be an aluminum plant in Canada. If it is built, it will be operated by power from the

SPAIN'S BUDGET.

ter, Minister of Finance, in the Budget statement to the Cortes, estimates the revenue at 883,278,771 pesetas (\$10,473,802), and the expenditures at 873,865,877 pesetas (\$188,656,114). In order to provide a revenue to meet the extraordinary budget the Minister of Finance proposes to raise a loan with the Almadea quicksliver mines as security, and to obtain navigation dues to the amount of twelve millions. In order to meet the increased expenditures, and the \$2,000,000 required to meet the interest, and for the redemption of late loans guaranteed by the Customs, a temporary surtax of 10 per cent. on all taxes except land has been proposed. By this means it is expected twenty millions will be obtained. The colonial department will contribute 23,000,000, and the balance of forty millions will be raised by a loan on the proposed petroleum monopoly, giving the exclusive privilege of dealing in this product during the next 20 years. Should the colonial department be unable to pay its share of the increased expenditures, it is calculated that a portion of another loan can be obtained by a proposed monopoly on explosives. Senor Sagasta, the Liberal leader, has informed Premier Canovas del Castillo that the Liberal Senators and deputies will not attend the sittings of either house until they obtain satisfaction on account of the assault by the Duke of Tetuan on Professor Comas. They also demand the resignation of the Duke of Tetuan.

Boston, Mass, May 25—Albert M. King, the Bolyston National Bank messenger, who disappeared last Wednerday, with \$20,000 of the bank's money, and who was arrested at Farmispion, Me., last Saturday, was arraigned in the Municipal Court here, to-day, on the charge of emelzzlement. The very gratifying news is published in our local columns this morning of the resumption of ore shipments by the Kootenay and Columbia, the Joste and the Cliff and of the making of a trial shipment in a few days by the Monte Cristo. We feel sure the output of the camp will from this time show a very gratifying increase.

In our next week's report our list of active shipping and producing mines will consist of the Le Koi, War Eagle, Iron Mask, Josie, O. K., Kootenay and Columbia, and Cliff. The Kootenay and Columbia has developed amaxingly in the last three months and it must henceforth be regarded as one of the formst mines of the camp.

Our list of producing mines is slowly but surely increasing. We will soon add the Monte Cristo, Colonna, Evening Star, Jumbo, Deer Park. Gropher, Homestake and Sunset No. 2. The Nest Egg would be a producer to-day it it were operated, but for some reason unknown to us it has been closed down for weeks.

The Centre Star could, of course, take first rank as a producer, but the elaborate system of development work inaugurated there may be carried on for some time yet before the enormous ore reserves of the mine are entered upon.

The growth of the camp appears to be slow, yet, as a matter of fact, this year will more than double the output of last year. Any mining camp which grows at the rate of more than 100 per cent. per annum is not to be despised.
