WINNIPEG GRAIN MARKET. Winnipeg, Feb. 1.—Wheat rallied 1c or 2c from the low points of the day, but closed 7%c down for May. 7%c lower for July and 6%c down for October. Oats were down 3%c in May and 3%c in July. Barley dropped 7c. Flax was 5c lower. All markets recovered a little, and on evening-up rallied to wait for the next move. After the opening drop trade was spasmodic. Wheat recovered, but broke and rallied again on active fluctuations, making a fair volume of trade. The gov-ernment agent was credited with buying under cover, after selling heavily short for a week. The run of stop-loss orders was fairly heavy, but the market was caught with a light speculative interest for this time of the year. Fluctuations for this time of the year. Fluctuations for the day were 3%c to 6%c in the local

market. The cash situation was completely up-set, and had a very small trade. High. Low. Close.
